§ 1315.1362 *Appendix C: Minimum quality specifications for repaired tires and tubes*—(a) *Requirement.* Repaired tires and tubes must be repaired in compliance with all the minimum quality specifications for repairs set forth in paragraphs (c) and (d), and any tire so repaired must have been a repairable tire as defined in paragraph (b) before such repairs were made.

(b) *Repairable tire.* "Repairable tire" means a used tire which has sufficient tread design or under tread to warrant repair for use for the purpose for which it was primarily designed. Specifically, such tire must meet at least the following conditions:

(1) The tread and sidewall must not be weather checked or cracked to the extent that the tire has more than two radial cracks which extend through the cord body.

(2) The cord body:

(i) Must not have separation between plies.

(ii) Must not have been damaged to the extent that cords are pulled loose beyond the first inside ply.

(iii) Must not have any fabric injuries that exceed one-half the cross-sectional diameter of the tire. Example—Injuries in 600/16 (6 inch) tires must not be more than three inches long: in 10.00/20 tires not more than five inches.

(iv) Must not have or show evidence of having had more than three injuries requiring sectional or reinforcement repairs.

(v) Must not have injuries below any point where the top of the rim flange makes contact with the tire.

(vi) Must not have or exhibit circumferential or flex breaks on the inside ply.

(vii) Bead area must be sound with no broken wires.

(c) *Repairs to tires.* A repair to a tire must be a vulcanized spot repair, or vulcanized reinforcement or vulcanized sectional repair which can be accomplished in accordance with recognized commercial practice and which can be reasonably expected to render satisfactory service under limited operating conditions (speed not over 35 miles per hour and no overload) so that the tire when repaired will be in a safe condition for service.

(1) A vulcanized spot repair must meet at least the following conditions:

(i) Loose portions of tread and sidewall rubber must be removed.

(ii) Surfaces must be skived, roughened, cemented.

(iii) Tire casing and repair materials must be moisture free.

(iv) Rubber must be applied after cement is dry.

(v) Curing must be in accordance with instructions of the manufacturer of the repair materials used.

(2) A vulcanized sectional repair or a vulcanized reinforcement repair must meet at least the following conditions:

(i) Injured rubber and fabric must be removed.

(ii) Area around injury must be skived at an angle to give maximum bonding surface and stress resistance (usually 45 degrees).

(iii) Tire casing and repair materials must be moisture free.

(iv) Surface must be buffed, cemented, and allowed to dry, then cemented again and allowed to dry again.

(v) Skived portion of the inner casing must be filled with cushion gum level with the inner band ply.

(vi) Ready-built patch or built-in cord fabric must be applied in accordance with the manufacturer's instructions regarding number of plies, size of patch, ply direction, and application.

(vii) Tread portion of skive must be lined with skim coating of cushion gum or tie gum and filled with tread gum slightly above level of the tread.

(viii) Curing must be in accordance with instructions of the manufacturer of the repair materials being used. Proper pressure must be maintained during cure.

(ix) Repaired portions must present smooth surfaces inside and out; tread, buttress, and sidewall designs must be restored to match those on the rest of the tire; and exterior contour must be maintained.

(x) Finished repair must be free of porosity and other imperfections.

(d) *Repairs to tubes.* A repair to a tube must be a repair which can be accomplished in accordance with recognized commercial practice and which can be reasonably expected to render satisfactory service under limited operating conditions (speed not over 35 miles per hour and no overload) so that the tube when repaired will be in a safe condition for service.

[RPS 66[1]]

RETREADED AND RECAPPED RUBBER TIRES, THE RETREADING AND RECAPPING OF RUBBER TIRES, AND BASIC TIRE CARCASSES

The title and preamble are amended, and §§ 1315.1201 to 1315.1210, inclusive, are renumbered and amended to read as set forth below: Revised Price Schedule 66, as Amended—Retreaded and Recapped Rubber Tires and the Retreading and Recapping of Rubber Tires.

On January 10, 1942, Price Schedule No. 66[2] was issued establishing maximum prices for retreaded and recapped rubber tires, the retreading and recapping of rubber tires, and basic tire carcasses. Price Schedule No. 66, by order issued February 17, 1942,[3] was re-issued under Section 206 of the Emergency Price Control Act of 1942 as Revised Price Schedule No. 66.[4]

This Revised Price Schedule No. 66, as amended, establishes maximum prices for retreaded and recapped tires and for retreading and recapping of tires. In establishing these maximum prices the Price Administrator has ascertained and given due consideration to the prices prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this schedule.

In the judgment of the Price Administrator, the maximum prices established by this Revised Price Schedule No. 66, as amended, are and will be generally fair and equitable and will effectuate the purposes of the Act. A statement of the considerations involved in the issuance of this Revised Price Schedule No. 66, as amended, has been issued simultaneously herewith and filed with the Division of the Federal Register.*

§ 1315.1201 *Maximum prices for retreaded and recapped rubber tires and the retreading and recapping of rubber tires.* On and after November 3, 1942, regardless of any contract, agreement, lease, or other obligation: (a) no person shall sell or deliver any retreaded or recapped tire, and no person shall buy or receive any such tire in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1315.1215; and (a) no person shall retread or recap any tire, and no person shall buy or receive the retreading or recapping of any tire in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided,* That nothing in this Revised Price Schedule No. 66, as amended, shall prevent the fulfillment of contracts entered into before November 3, 1942, for the sale of retreaded or recapped tires or for retreading or recapping tires at prices not exceeding the maximum prices established by Revised Price Schedule No. 66, prior to the effective date of this Revised Price Schedule No. 66, as amended, November 3, 1942.

§ 1315.1203 *Less than maximum prices.* Lower prices than those set forth in § 1315.1215, Appendix A, may be charged, demanded, paid or offered.

§ 1315.1204 *Evasion.* (a) The price limitations set forth in this Revised Price Schedule No. 66, as amended, shall not be evaded whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any retreaded or recapped tire, alone or in conjunction with any other commodity, or in connection with the retreading or recapping of any tire, or by way of commission, service, transportation or other charge, or by tying agreement or other trade understanding or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Increasing the charges for the extension of credit or for the demounting or mounting of a tire on a vehicle or rim, or for any other service over those in effect on January 9, 1942;

(2) Making any charges for the extension of credit or for the demounting or mounting of a tire on a vehicle or rim, or for any other service, if the seller had no special and separate charges in effect for such service on January 9, 1942;

(3) Making the terms and conditions of sale more onerous to purchasers than those available or in effect on January 9, 1942;

(4) Making any charges for repairs to the tire carcass in connection with the sale of a retreaded or recapped tire where the purchaser has not furnished the tire carcass to be retreaded or recapped.

(c) The purchaser shall always have the option of paying at the time of the purchase the full cash price for any retreaded or recapped tire or for retreading or recapping any tire. When a purchaser has a tire retreaded or recapped he shall have the option of bringing it to the seller's place of business without having it demounted from a vehicle or rim by the seller or having any other service performed, and of receiving delivery of any retreaded or recapped tire at the seller's place of business without having it mounted on a vehicle or rim or having any other service performed.

(d) Notwithstanding any other provisions of this section, when the seller has made necessary repairs to a tire carcass furnished by the purchaser for retreading or recapping, the seller, providing he bills it separately, may add to the maximum retreading or recapping price established by this Revised Price Schedule No. 66, as Amended, an amount equal to the charges prevailing in the locality of the seller on January 9, 1942 for such repairs as were actually made to the tire carcass.

[1] For any tire size where no maximum price is listed in this table under the particular heading for Ground-Grip, Road Grader, Earth Mover or Rock Service types of tread, the maximum price is that set forth for such size under the heading for Conventional Truck and Bus type of tread.

[2] Maximum prices set forth for stop-start type of tread apply only when such treads are applied to tires of a stop-start size listed in this column or of a size generally recognized as equivalent to one of such stop-start sizes. When a stop-start type of tread is applied to such an equivalent size of tire, the maximum price shall be that set forth for the appropriate stop-start size.

[3] Conventional truck and bus type of tread include any tread of a type generally recognized as designed primarily for ordinary "on the road" use on trucks or busses.

[4] Stop-start type of tread must have at least 13/32 inches tread design depth at the center circumference of the tire and must contain at least as much rubber in the undertread and have a tread design depth at the center circumference of the tire which is at least 2/32 inches deeper than the conventional truck and bus type of tread of the same retreader or recapper for the same size of tire. Stop-start type of tread includes any such extra heavy tread of a type generally recognized as designed primarily for city commercial use on trucks or busses.

[5] Ground-grip type of tread must contain at least as much rubber in the undertread and have a tread design depth at the center circumference of the tire which is at least 4/32 inches deeper than the conventional truck and bus type of tread of the same retreader or recapper for the same size of tire. Ground-grip type of tread includes any such tread of a deep-cut, cleated type generally recognized as designed primarily for use on trucks for traction through mud, snow, sand, or soft ground.

[6] Road grader type of tread includes any tread of a type generally recognized as designed primarily for "off the pavement" use on the power driven wheels of highway maintenance and road construction machinery for traction through mud, snow, sand or soft earth.

[7] Earth mover type of tread includes any tread of a type generally recognized as designed primarily for providing flotation in soft earth for "off the road" use on earth moving vehicles.

[8] Rock service type of tread includes any extra heavy tread of a type generally recognized as designed primarily for heavy duty service on rocks or gravel in such work as earth hauling, quarrying, logging and road building.

[1] Motorcycle type of tread includes any tread of a type generally recognized as designed primarily for use on motorcycles.

§ 1315.1216 *Appendix B: Minimum quality specifications*—(a) *Retreading and recapping (tire carcass furnished by purchaser)*. In order to be entitled to the maximum prices set forth in Appendix A (§ 1315.1215), retreading or recapping must comply with all the following minimum quality specifications, when the tire carcass is furnished by the purchaser:

(1) Tire casing must be uniformly buffed.

(2) Tire casing and all materials must be moisture free and free of dirt.

(3) Camelback must be applied to completely cemented and dried surface.

(4) Camelback must be stitched down thoroughly.

(5) Curing must be in full circle molds or steam kettle in accordance with instructions of the manufacturer of the camelback used.

(6) Finished tire tread must adhere uniformly, must be a circle without bulges or sunken areas, and must be completely filled out and free of porosity and imperfections.

(b) *Retreaded and recapped tires (tire carcass not furnished by purchaser)*. In order to be entitled to the maximum prices set forth in Appendix A (§ 1315.1215), when the tire carcass is not furnished by the purchaser, retreaded or recapped tires must comply with all the minimum quality specifications set forth in paragraph (a) of this section for retreading or recapping, the tire carcass used must have been a treadable tire as defined in subparagraph (1), and if such tire carcass is not sound as defined in subparagraph (1), it must be repaired in compliance with the minimum quality specifications for repairs set forth in subparagraph (2).

(1) *Treadable tire*. "Treadable tire" means a rubber tire or tire casing which is sound or which, if not sound, warrants repair and retreading or recapping in accordance with recognized commercial practice, and which can reasonably be expected to render satisfactory service under limited operating conditions (speed not over 35 miles per hour and no overload). "Sound" as applied to a tire means a tire which has not been damaged to the extent that it is in need of repair in accordance with recognized commercial practice and which can reasonably be expected to render satisfactory service under limited operating conditions (speed not over 35 miles per hour and no overload). Specifically, a treadable tire must meet at least the following conditions.

(i) The cord body: (*a*) Must not be worn through more than one body ply for a total length of more than four inches on four-ply tires;

(*b*) Must not be worn through more than two plies for a total length of more than four inches on tires of six plies or more;

(*c*) Must not have or show evidence of having had more than two injuries requiring sectional or reinforcement repairs, each not exceeding one-third the cross-sectional diameter of the tire, except that, in the case of a truck tire, it may have an injury not exceeding one-half the cross-sectional diameter of the tire, if that is the only injury to the cord body. Example—Breaks in 600/16 (6 inch) tires must not be more than two inches long: 900/20 (9 inch) tires not more than three inches long, unless there is only one break, in which case it must not be more than four and one-half inches long;

(*d*) Must not have more than three radial cracks of more than one inch in length extending to the cord body;

(*e*) Must not have separation between plies;

(*f*) Must not have been damaged to the extent that cords are pulled loose beyond the first inside ply;

(*g*) Must not have injuries below any point where the top of the rim flange makes contact with the tire;

(*h*) Must not have or exhibit circumferential or flex breaks on the inside ply;

(*i*) Bead area must be sound with no broken wires.

(ii) The tread and sidewall must not be weather checked or cracked to the extent that the tire has more than two radial cracks which extend through the cord body.

(2) *Repairs*. A repair must be a vulcanized spot repair, or vulcanized reinforcement or vulcanized sectional repair which can be accomplished in accordance with recognized commercial practice and which can be reasonably expected to render satisfactory service under limited operating conditions (speed not over 35 miles per hour and no overload) so that the tire when repaired will be in a safe condition for service.

(i) "Vulcanized spot repair" means a repair which in accordance with recognized commercial practice should be applied to such tire damage as: surface blisters, cuts, and other injuries which can be satisfactorily repaired without fabric reinforcement; small injuries to not more than one ply in a four-ply tire; small injuries to not more than two plies in a six-ply tire; small injuries to not more than one-fourth of the total plies in heavier tires. Specifically, such repair must meet at least the following conditions:

(*a*) Loose portions of tread and sidewall rubber must be removed.

(*b*) Surfaces must be skived, roughened, cemented.

(*c*) Tire casing and repair materials must be moisture free.

(*d*) Rubber must be applied after cement is dry.

(*e*) Curing must be in accordance with instructions of the manufacturer of the repair materials used.

(ii) "Vulcanized reinforcement repair" means a repair requiring fabric reinforcement which in accordance with recognized commercial practice should be applied to such tire damage as worn tread spots or other injuries which involve ply damage exceeding that to which a vulcanized spot repair should be applied but where at least two of the plies are sound and uninjured. "Vulcanized sectional repair" means a repair requiring fabric reinforcement which in accordance with recognized commercial practice should be applied to such tire damage as breaks or cuts through the entire tire casing, nail holes enlarged by prolonged neglect, or other injuries which do not leave two of the plies sound and uninjured and thus involve ply damage exceeding that to which a vulcanized reinforcement repair should be applied. For a reinforcement repair, the patch may be lighter than for a sectional repair, but in no case may a patch lighter than two plies be used. Specifically, such repairs must meet at least the following conditions:

(*a*) Injured rubber and fabric must be removed.

(*b*) Area around injury must be skived at an angle to give maximum bonding surface and stress resistance (usually 45 degrees).

(*c*) Tire casing and repair materials must be moisture free.

(*d*) Surface must be buffed, cemented, and allowed to dry, then cemented again and allowed to dry again.

(*e*) Skived portion of the inner casing must be filled with cushion gum level with the inner band ply.

(*f*) Ready-built patch or built-in cord fabric must be applied in accordance with manufacturer's instructions regarding number of plies, size of patch, ply direction, and application.

(*g*) Tread portion of skive must be lined with skim coating of cushion gum or tie gum and filled with tread gum slightly above level of the tread.

(*h*) Curing must be in accordance with instructions of the manufacturer of the repair materials used. Proper pressure must be maintained during cure.

(*i*) Repaired portions must present smooth surfaces inside and out; tread, buttress, and sidewall designs must be restored to match those on the rest of the tire; and exterior contour must be maintained.

(*j*) Finished repair must be free of porosity and other imperfections.

TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service

PART 261—TRESAPASS

CERTAIN NATIONAL FORESTS

ORDER FOR REMOVAL OF TRESPASSING HORSES

Whereas a number of horses are trespassing and grazing on land in the Tamarack-Monument and Hardman cattle and horse allotments, and the adjoining Sunflower and Three Trough sheep allotments on the Heppner Ranger District, Umatilla National Forest, in the State of Oregon; and

Whereas these horses are consuming forage needed for domestic livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897, (30 Stat. 35, 16 U. S. C. 551), and the Act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), the following order for the occupancy, use, protection, and administration of land in the Tamarack-Monument and Hardman cattle and horse allotments, and the adjoining Sunflower and Three Trough sheep allotments on the Heppner Ranger District, Umatilla National Forest, is issued:

§ 261.50 *Temporary closure from livestock grazing.* (a) The Tamarack-Monument and Hardman cattle and horse allotments, and the adjoining Sunflower and Three Trough sheep allotments on the Heppner Ranger District, Umatilla National Forest, are hereby closed for the period beginning December 5, 1942, and ending April 15, 1943, to the grazing of horses, except those horses that are lawfully grazing on or crossing land in such allotments pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations, or that are used as riding, pack, or draft animals by persons traveling over such land.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Umatilla National Forest is located.

Done at Washington, D. C., this 29th day of October 1942. Witness my hand and the seal of the Department of Agriculture.

[General Docket No. 21]

PETITION OF DISTRICT BOARD NO. 7

MEMORANDUM OPINION AND ORDER

In the matter of determining the extent of change, if any, in excess of two cents per net ton in the weighted average of the total costs of any of the minimum price areas; and of revising the effective minimum prices as may be required by reason of any such change in costs.

Memorandum opinion and order of the Secretary of the Interior on the petition of District Board No. 7 for rehearing, reargument, reconsideration and modification of orders.

The Bituminous Coal Producers Board for District No. 7, a party in the above-entitled proceeding, filed with me on October 10, a petition alleging certain specific errors in the determinations made in General Docket No. 21, and requesting that I reconsider and modify my orders and opinion of April 13, 1942 and September 30, 1942; that I direct the Director of the Bituminous Coal Division to grant a rehearing and reargument on the points raised, and that I direct the Director to reconsider and modify his orders in this docket of January 27, 1942 and August 28, 1942. The petitioner relies on the briefs previously filed by it to state the grounds for the specification of errors.

The briefs of District Board No. 7 were fully considered by me in the course of my review of both phases of this docket, and the determinations of the points specified by the petitioner were scrutinized in the light of all arguments relating thereto by District Board 7 and other interested parties. It does not appear that the petition adds anything to the arguments previously advanced or offers to present any new material for the Director to consider or that any dissatisfaction with the minimum prices established in this docket cannot be satisfactorily considered in a petition under section 4 (II) (d) of the Bituminous Coal Act.

I therefore deny the petition and affirm the order of the Director of October 16 denying a similar petition filed with him on October 9 by District Board No. 7.

Dated: October 26, 1942.

HAROLD L. ICKES,
Secretary of the Interior.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-119]

APRIL SHOWERS CO.

Leonard H. Holder, doing business as April Showers Company, Washington, D. C., is an individual engaged in the fabrication, assembly, and installation of copper tubing roof-cooling systems. Subsequent to July 23, 1942, namely, on or about August 3, 1942, Leonard H. Holder began the construction, fabrication, assembly, and installation of a copper tubing roof-cooling system at Dorchester House, 2480 Sixteenth Street, Northwest, Washington, D. C., a residential apartment house, the cost of said system being in excess of $500.

The beginning of construction of this system constituted a wilful violation of Conservation Order L-41, and the fabrication, assembly, and installation of the copper tubing used in this system constituted wilful violations of Supplementary Orders M-9-c and M-9-c-4.

The foregoing violations of War Production Board orders have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board; *It is hereby ordered:*

§ 1010.119 *Suspension Order S-119.* (a) Leonard H. Holder is hereby directed and required to remove any and all copper tubing and copper or copper base alloy products which he has installed subsequent to July 23, 1942, at Dorchester House, 2480 Sixteenth Street, Northwest, Washington, D. C., on or before the fifteenth day following the effective date of this order.

(b) Leonard H. Holder shall not, subsequent to the effective date of this order, sell, transfer, assign, use, process, fabricate, or in any wise change the form or dispose of the copper tubing and copper or copper base alloy products referred to in paragraph (a) hereof, except upon the specific direction and authority of the Director General for Operations. The provisions of this paragraph do not apply to the removal of said materials from Dorchester House, 2480 Sixteenth Street, Northwest, Washington, D. C., to a place of storage for the account of Leonard H. Holder.

(c) Deliveries of material to Leonard H. Holder, individually or doing business as April Showers Company, his successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations for a period of ninety (90) days after the date of the issuance of this order, except as specifically authorized by the Director General for Operations.

(d) Leonard H. Holder, individually or doing business as April Showers Company, his successors and assigns, are hereby prohibited from receiving, processing, using, delivering or dealing in copper or copper base alloys, and copper or copper base alloy products for a period of ninety (90) days following the effective date of this order, except as specifically authorized by the Director General for Operations.

(e) Nothing contained in this order shall be deemed to relieve Leonard H. Holder, his executor, administrator, successors and assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on October 29, 1942.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F. R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Woodmont Development Company, Inc., of Washington, D. Subsequent to July 23, 1942, namely, on or about August 3, 1942, it accepted delivery of copper tubing and copper or copper base alloy products which were parts of a roof-cooling system to be installed in, or connected to the roof of the building by Mr. Leonard H. Holder, which system cost in excess of $500.

[3] 7 F.R. 5010, 5081, 6256, 6931, 7992.

The acceptance of delivery of said materials in order to begin construction on this roof-cooling system for a residential apartment building, constituted a violation of Conservation Order L-41 and Supplementary Order M-9-c-4.

The foregoing violations of War Production Board orders have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board.

In view of the foregoing facts, *It is hereby ordered:*

§ 1010.120 *Suspension Order S-120.* (a) Woodmont Development Company, Inc., its successors and assigns are hereby directed and required to permit the removal of all copper or copper base alloy tubing, and copper or copper base alloy products installed subsequent to July 23, 1942, by Mr. Leonard H. PART 1010—SUSPENSION ORDERS

[Suspension Order S-127]

EUREKA SILK CO., ET AL.

Eureka Silk Company of Paterson, New Jersey, is a partnership and was formerly a silk converter. The company owns all the stock of Lynn Textile Mills, West Warwick, Rhode Island, a former silk weaver, and of Apollo Fabrics, Inc., New York, New York, a former distributor of silk fabrics. After restrictions were placed upon the use of silk, Eureka Silk Company applied for and received allocations of reserved rayon yarn for weaving by Lynn Textile Mills, pursuant to the provisions of Supplementary Order M-37-a. This order prohibited the exchange of reserved rayon yarn unless specific authorization was obtained therefor. Eureka Silk Company was familiar with the restrictions contained in Supplementary Order M-37-a.[1] Nevertheless, in wilful disregard of this order, Eureka Silk Company exchanged 54 cases of reserved rayon yarn for yarn of a different denier. The rayon yarn received in exchange for approximately 46 cases of such reserved rayon yarn was not delivered to Lynn Textile Mills for weaving by it but was delivered to a knitting mill to be knitted and thereafter sold by Apollo Fabrics, Inc.

These violations of Supplementary Order M-37-a have impeded and hampered the war effort of the United States by diverting reserved rayon yarn to uses unauthorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered,* That:

§ 1010.127 *Suspension Order S-127.* (a) Neither Eureka Silk Company nor Lynn Textile Mills nor Apollo Fabrics, Inc. nor their respective successors and assigns shall order or accept the delivery of reserved rayon yarn, as the same is defined in Supplementary Order M-37-c,[2] except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Eureka Silk Company, Lynn Textile Mills, or Apollo Fabrics, Inc. from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on October 31, 1942, and shall expire on April 30, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 29th day of October 1942.

(4) "Non-quota purchaser" shall mean:

(i) The Army, the Navy, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, the Defense Supplies Corporation, War Shipping Administration or any agency of the United States Government for supplies to be delivered to, or for the account of the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(ii) Any person operating an ocean-going vessel engaged in the transportation of cargo or passengers in the foreign, coastwise, or intercoastal trade, for necessary supplies for such vessels.

(iii) Any person who furnishes eating facilities for members of the armed forces pursuant to contract therefor with the United States, for necessary supplies for such purpose, if such person furnishes copies of his contract to the canner, or other adequate evidence that such restricted canned foods are required for such use.

(iv) Any person who purchases restricted canned foods for delivery in any territory or possession of the United States, if such person furnishes to the canner copies of purchase orders or other adequate proof that the restricted canned foods actually were purchased for delivery in any such territory or possession: *Provided*, That proof shall not be required of a government agency.

(v) Any person who purchases restricted canned foods for use in the commercial manufacture of food products, to the extent of his current requirements (grape juice, tomato pulp in 5 gallon cans, tomato paste in #10 cans, and peppers, only).

(vi) Any person who purchases restricted canned foods from a canner for resale to a non-quota purchaser, or to replace in his inventory material delivered to a non-quota purchaser, to the extent of his purchases for such purposes, if he furnishes to the canner copies of purchase orders or other adequate proof that such resales or deliveries were to non-quota purchasers.

(5) "Wholesale receiver" means any person other than a non-quota purchaser (regardless of whether or not he is also a canner) who since June 30, 1942, bought in excess of 4,000 cases of any group of restricted canned foods for any purpose.

(b) *Restrictions on delivery.* (1) Without regard to existing contracts, and except as authorized in this paragraph and in paragraphs (b) (2), (3), (4), and (5) below, no canner shall deliver more than 35% of his civilian pack of any group of canned foods listed in Exhibit A before December 1, 1942, nor more than 70% thereof before April 1, 1943. Deliveries already made on or before September 26, 1942 shall not be deemed in violation of this paragraph, but shall be charged first against the 35% permitted before December 1, 1942, and if in excess of 35%, against subsequent delivery quotas in their chronological order. No delivery to a non-quota purchaser shall be deemed in violation of this paragraph, notwithstanding that it may reduce a canner's permitted delivery quota for any period below his prior actual deliveries during that period, but any such excess shall be charged against the canner's quota for the ensuing period. For the purpose of calculating the delivery quotas permitted by this paragraph all canning plants owned directly or indirectly by a single person may be regarded at the canner's election either separately as single units or as a whole, but such election, once made, must be adhered to for all the purposes of this order.

(2) Notwithstanding paragraph (b) (1), but subject to paragraph (b) (3), any canner may deliver, and any person (except a wholesale receiver prohibited from accepting delivery by paragraph (b) (4)) may accept delivery from a canner, of any restricted canned foods, in advance of the permitted delivery date for such foods, if the canner notifies the purchaser in writing of the permitted delivery date of such restricted canned foods, and if such purchaser certifies in writing that he will not deliver, transport, or use such restricted canned foods in advance of the permitted delivery date. Such certificate shall be provided to the canner and a copy filed with the War Production Board, and it shall be in substantially the following form:

> Pursuant to paragraph (b) (1) of Order M-237, with the terms of which order the undersigned is familiar, we have this day accepted delivery of ____________, (describe merchandise) from ______________________
> (canner)
>
> We understand that we are not permitted to deliver, transport, or use such merchandise until ____________, 19__, as it is part of the pack which ______________________ (canner) was required to hold until that date.
>
> ____________________
> (Purchaser)
>
> By ____________________
> (Duly authorized official)

No person who accepts delivery of any restricted canned foods with knowledge or reason to believe that such foods are delivered in advance of their permitted delivery date may deliver, transport, or use such foods in advance of such date.

(3) The restrictions on delivery in paragraph (b) (1) do not prohibit shipment for storage at the point of destination or in transit in advance of the permitted delivery date, provided that possession and control do not pass to the purchaser. The 30% which may not be delivered before April 1, 1943 must be stored at or near the canner's plant until the time when such delivery is permitted. If any canner or person accepting delivery from a canner pursuant to paragraph (b) (2) is unable to store any part of the canner's pack in a heated warehouse at or near his plant, he may so notify the War Production Board in writing, and unless he receives instructions to the contrary within two weeks after the date of such notice, he shall not be required to hold such part of the pack at or near such plant.

(4) Any wholesale receiver who between August 1, 1942, and April 1, 1943, has accepted or shall have accepted delivery of restricted canned foods of any group equalling or exceeding the following percentage of his base figure

	Percent
for group I	70
for group II	80
for group III	80

shall not sell, deliver, or use such excess of such group, and shall not accept delivery of any further restricted canned foods of such group. The base figure for each wholesale receiver for each group shall be, at his option, either the total of his acceptances of delivery, or of his sales, between January 1, 1942, and August 31, 1942, of all canned foods listed in such group, whenever packed. Canned foods for resale to non-quota purchasers or to replace in the wholesale receiver's inventory material so sold are subject to the limitations of this subparagraph unless evidence is furnished to the canner as prescribed in paragraph (a) (4) (vi). Notwithstanding this subparagraph, a wholesale receiver may accept delivery from a canner in excess of his quota in advance of the canner's permitted delivery date, as permitted in paragraph (b) (2), whenever the canner's permitted delivery date is not earlier than April 1, 1943. The restrictions of this paragraph (b) (4) shall expire on April 1, 1943, unless extended by further order of the Director General for Operations.

(5) Any canner may deliver not to exceed 80% of his pack of apple juice, cranberries, pumpkin, and squash, at any time prior to April 1, 1943, notwithstanding the limitations of paragraph (b) (1), without charge against his quotas for other restricted canned foods.

(c) *Reports.* Canners to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said Board may from time to time request.

(d) *Records.* Every person to whom this order applies shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may appeal in writing to the Director General for Operations setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Food Branch, Washington, D. C., Ref: M-237.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

[Conservation Order M-98, as Amended October 30, 1942]

Section 1105.1, *Conservation Order M-98,* is amended to read as follows:

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of raw sugar for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States to conserve the supply and direct the distribution of raw sugar.

§ 1105.1 *Conservation Order M-98*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of priorities regulations of the War Production Board, as amended from time to time.

(3) "Refiner" means any person in the continental United States who was engaged in the refining of raw sugar during the calendar year 1941.

(4) "Manufacturer" means any person in the continental United States who in 1941 bought or accepted delivery from any source of raw sugar to use it in the manufacture of any product for human consumption, other than direct-consumption sugar.

(2) No refiner shall purchase, import, or accept delivery of raw sugar in excess of any allotment which may be established from time to time for such refiner by the Director General for Operations nor in violation of any order or regulation which may from time to time be prescribed by the Director General for Operations.

(d) *Records.* Each person participating in any transaction to which this order applies shall keep and preserve for a period of not less than two years accurate and complete records of his inventories of the material or materials to which such order relates and of the details of all transactions in such materials. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and in any preference rating certificates accompanying them, the dates of actual deliveries thereunder, description of the material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights

and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of defense orders and all other rated orders either accepted or offered and rejected, and other pertinent information.

(g) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 51, Amendment 1]

FOR HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

FORT WORTH DEFENSE-RENTAL AREA

Paragraph (c) of § 1388.232, paragraph (g) of § 1388.235, and § 1388.244a are added; paragraph (a) (6) of § 1388.236 in amended; the text of paragraph (b) of § 1388.236 is designated as subparagraph (1) of said paragraph (b) and a new subparagraph (2) is added, all to read as set forth below:

§ 1388.232 *Prohibition against higher than maximum rents.* * * *

(c) Where a lease of housing accommodations was entered into prior to November 1, 1942, and the tenant as a part of such lease or in connection therewith was granted an option to buy the housing accommodations which were the subject of the lease, with the further provision that some or all of the payments made under the lease should be credited toward the purchase price in the event such option is exercised, the landlord, notwithstanding any other provision of this Maximum Rent Regulation No. 51, may be authorized to receive payments made by the tenant in accordance with the provisions of such lease and in excess of the maximum rent for such housing accommodations.

[1] 7 F.R. 1107, 1371, 1798, 1799, 2132, 2304, 2352, 2634, 2945, 3116, 3166, 3482, 3524, 3552, 3576, 3895, 3963, 4483, 4653, 4854, 4856, 5481, 5867, 5868, 5988, 6057, 6167, 6471, 6680, 7242, 7838, 8433, 8478.

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 5059, 7242.

Such authority may be secured only by a written request of the tenant to the Area Rent Office and shall be granted by order of the Administrator if he finds that such payments in excess of the maximum rent will not be inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof. After entry of such order the landlord shall be authorized to demand, receive and retain payments provided by the lease in excess of the maximum rent for periods commencing on or after the effective date of this Maximum Rent Regulation. After entry of such order, the provisions of the lease may be enforced in accordance with law, notwithstanding any other provision of this Maximum Rent Regulations: *Provided, however,* That if at the termination of the lease the tenant shall not exercise the option to buy, the landlord may thereafter remove or evict the tenant only in accordance with the provisions of § 1388.236 of this Maximum Rent Regulation. Nothing in this paragraph shall be construed to authorize the landlord to demand or receive payments in excess of the maximum rent in the absence of an order of the Administrator as herein provided. Where a lease of housing accommodations has been entered into on or after November 1, 1942, and the tenant as a part of such lease or in connection therewith has been granted an option to buy the housing accommodations which are the subject of the lease, the landlord, prior to the exercise by the tenant of the option to buy, shall not demand or receive payments in excess of the maximum rent, whether or not such lease allocates some portion or portions of the periodic payments therein provided as payments on or for the option to buy.

* * * * *

§ 1388.235 *Adjustments and other determinations.* * * *

(g) No adjustment in the maximum rent shall be ordered on the ground that the landlord, since the date or order determining the maximum rent, has, as a part of or in connection with a lease of housing accommodations, granted the tenant an option to buy the accommodations which are the subject of the lease. Where a lease of housing accommodations was in force on the date determining the maximum rent, and the landlord had on that date, as a part of or in connection with such lease, granted the tenant an option to buy the accommodations which are the subject of the lease, the Administrator may, on or after the termination of such lease, on his own initiative or on application of the tenant, enter an order fixing the maximum rent on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations not subject to an option to buy on March 1, 1942.

§ 1388.236 *Restrictions on removal of tenant.* (a) * * *

(6) The landlord owned, or acquired an enforceable right to buy or the right to possession of, the housing accommodations prior to November 1, 1942, and seeks in good faith to recover possession of such accommodations for immediate use and occupancy as a dwelling for himself. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, the landlord shall file a written report on a form provided therefor before renting the accommodations or any part thereof during a perid of six months after such removal or eviction.

(b) (1) * * *

(2) Removal or eviction of a tenant for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after November 1, 1942, is inconsistent with the purposes of the Act and this Maximum Rent Regulation and would be likely to result in the circumvention or evasion thereof, unless (i) the payment or payments of principal made by the purchaser, excluding any payments made from funds borrowed for the purpose of making such principal payments, aggregate 33⅓% or more of the purchase price, and (ii) a period of three months has elapsed after the issuance of a certificate by the Administrator as hereinafter provided. For the purposes of this paragraph (b) (2), the payments of principal may be made by the purchaser conditionally or in escrow to the end that they shall be returned to the purchaser in the event the Administrator denies a petition for a certificate. If the Administrator finds that the required payments of principal have been made, he shall, on petition of either the vendor or purchaser, issue a certificate authorizing the purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law at the expiration of three months after the date of issuance of such certificate. In no other case shall the Administrator issue a certificate for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after November 1, 1942, unless he finds that the vendor has or had a substantial necessity requiring the sale and that a reasonable sale or disposition of the accommodations could not be made without removal or eviction of the tenant, or unless he finds that other special hardship would result; under such circumstances the payment by the purchaser of 33⅓% of the purchase price shall not be a condition to the issuance of a certificate, and the certificate shall authorize the vendor or purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law.

* * * * *

§ 1388.244a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1388.232 (c), 1388.235 (g), 1388.236 (a) (6), 1388.236 (b) and 1388.244a) to Maximum Rent Regulation No. 51 shall become effective November 1, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Subparagraph (6) is added to paragraph (a) of § 1418.1, and paragraph (f) is added to § 1418.14.

§ 1418.1 *Maximum prices.* (a) Maximum prices are established as follows:

§ 1418.14 *Table of maximum prices.* * * *

(f) *Table 6: Maximum prices for codfish.* (1) The maximum prices for codfish sold and delivered to and including November 4, 1942 shall be:

(i) The direct cost of the codfish to the seller. For the purposes of this paragraph direct cost means the price which the seller actually paid for the codfish, exclusive of overhead, handling and storage, and less discounts allowed to the seller, plus such costs of shipment actually incurred by the seller as are not included in the price to the seller.

(ii) Plus the following markups:

	Sales at wholesale (markup per pound)	*Sales at retail (markup per pound)*
All grades of codfish	$0.01	$0.02

Not more than one such markup may be added to a sale and delivery of the same lot of codfish by the wholesalers thereof, and not more than one such markup may be added to the sale and delivery of the same lot of codfish by the retailers thereof.

(2) The maximum prices for codfish sold or delivered on and after November 5, 1942 shall be:

	Sales at wholesale (price per pound)	*Sales at retail (price per pound)*
Codfish, hard dried	$0.16	$0.18

The maxium prices for all other grades of codfish are to be computed by subtracting from the maximum price for codfish, hard dried, the customary trade price differentials.

(3) Every person selling to a retailer shall on and after November 5, 1942, before or at the time of his first delivery to each purchaser, supply the purchaser with the following statement:

OPA MAXIMUM RETAIL PRICES FOR CODFISH

Codfish, hard dried	$0.18

The maximum prices for all other grades of codfish are to be computed by subtracting from the maximum price for codfish, hard dried, the customary trade price differentials.

[Suspension Order 148]

Safe-T-Tread Tire Co.—Gidney Tire Co.

ORDER RESTRICTING TRANSACTIONS

Suspension Order No. 148—Restricting Transactions by Benjamin Gidney, Louis Gidney, Morris Gidney, Gidney Tire Company and Safe-T-Tread Tire Company.

Benjamin Gidney, Louis Gidney, and Morris Gidney, partners doing business as Safe-T-Tread Tire Company and as Gidney Tire Company at 501 West Second Street and at State and Harrison Avenues, in Cincinnati, Ohio, dealers in tires and recapped tires, and recappers of tires, hereinafter called respondents, were duly served with notice of specific charges of violations of the tire rationing regulations issued by the Office of Price Administration. Pursuant to said notice a hearing upon the charges was held on September 3, 1942, in Cincinnati, Ohio. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. Such evidence having been duly considered by the Deputy Administrator in Charge of Rationing, It is hereby determined that:

(a) Respondents have violated the tire rationing regulations issued by the Office of Price Administration in that,

(1) Between February 19 and August 24, 1942, respondents for their own use as recappers, purchased and accepted delivery of more than 12,000 pounds of camelback from a manufacturer of camelback without delivering in exchange therefor any part of any certificate or any part of any receipt required by Revised Tire Rationing Regulations.

(2) On January 31, 1942, respondents failed to take an inventory of tires and tubes in their possession or control, and keep a record thereof as required by Tire Rationing Regulations.

(3) Between February 28, and August 24, 1942, respondents failed to take any inventories of new tires and tubes, recapped tires, retreaded tires, or camelback in their possession or control and failed to keep a record of their production of retreaded and recapped tires as required by Revised Tire Rationing Regulations.

(4) On or about August 25, 1942, respondents sold and delivered to a private domestic consumer one new tire and three recapped tires without receiving in exchange therefor any certificate required by Revised Tire Rationing Regulations.

(5) On April 30, 1942, respondents received the Parts C of three tire rationing certificates for twelve tires and failed to complete and return them to the issuing Board within three days from the date of their delivery of the tires covered by said certificates as required by Revised Tire Rationing Regulations.

Because of the great scarcity and critical importance of rubber in the United States, respondents' violations of the tire rationing regulations issued by the Office of Price Administration have necessarily resulted in the diversion of rubber from military and essential civilian uses to non-essential uses in a manner contrary to the public interest and detrimental to national defense. It appears to the Deputy Administrator in Charge of Rationing on the evidence before him that further violations of the tire rationing regulations by respondents are likely unless appropriate administrative action is taken.

It is therefore ordered:

(b) During the period in which Suspension Order No. 148 shall be in effect,

(1) Respondents, their successors or assigns, shall not accept any transfers or deliveries of or in any manner directly or indirectly receive from any source any new tires, new tubes, recapped tires, retreaded tires, camelback or other recapping or retreading material.

(2) No person shall in any manner, directly or indirectly, sell, transfer or deliver any new tires new tubes, recapped tires, retreaded tires, camelback or other recapping or retreading material to respondents, their successors or assigns, regardless of whether such materials have been previously purchased and completely paid for.

(3) Respondents shall not sell, transfer, deliver, or otherwise deal or trade in any new tires, new tubes, recapped tires, retreaded tires, camelback or other retreading or recapping material: *Provided, however,* That respondents may make sales, transfers, or deliveries of their stocks thereof in their possession on the effective date of this order with the prior approval and under the supervision of the Regional Administrator of the Office of Price Administration for Region III.

(4) Respondents, their successors, or assigns, shall not enter into any contract or commitment for the recapping or retreading of tires or recap or retread any tires or in any way use or consume any camelback or other retreading or recapping material: *Provided, however,* That if any contracts for retreading or recapping of tires have been entered into by respondents and such tires have been prepared in any degree for retreading or recapping or have been retreaded or recapped prior to the effective date of this suspension order, such recapping or retreading may be completed and the retreaded or recapped tires delivered in accordance with the provisions of the tire rationing regulations issued by the Office of Price Administration.

(c) Any term used in this Suspension Order No. 148 that is defined in Revised Tire Rationing Regulations shall have the meaning therein given it.

(d) This Suspension Order No. 148 shall become effective October 30, 1942, and shall remain in effect until further order of the Deputy Administrator in Charge of Rationing, but in no event later than December 31, 1944.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Law 89, 77th Cong., and by Pub. Law 507, 77th Cong.; E.O. 9125, 7 F.R. 2719; W.F.B. Dir. 1 and Supp. Dir. 1B, 7 F.R. 562, 925; W.P.B. Supp. Order No. M–15–c, 6 F.R. 6792)

Issued this 29th day of October 1942.

[Suspension Order 146]

Canton Tire Service

ORDER RESTRICTING TRANSACTIONS

Howard L. Foster, doing business as Canton Tire Service at 429 McKinley Avenue NW., Canton, Ohio, herein called respondent, is a recapper and a dealer in recapped tires. Respondent was duly served with notice of specific charges of violations of tire rationing regulations, issued by the Office of Price Administration. Pursuant to said notice a hearing upon said charges was held on September 2, 1942, at Canton, Ohio. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator in Charge of Rationing, It is hereby determined that:

Respondent has violated the Revised Tire Rationing Regulations in that between February 19 and August 6, 1942, respondent sold, transferred and delivered large numbers of recapped tires without receiving in exchange therefor any certificates or any parts of any certificates authorizing such deliveries. Said sales, transfers and deliveries were made to consumers and were not made to or for the account of any government or governmental agency, to any manufacturer of new vehicles, or for export.

Because of the great scarcity and critical importance of rubber in the United States, the violations of the tire rationing regulations by respondent have resulted in the diversion of rubber from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense. It appears to the Deputy Administrator in Charge of Rationing, from the evidence before him, that further violations of the tire rationing regulations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(a) During the period in which this suspension order shall be in effect,

(1) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source, any camelback or other recapping or retreading material.

(2) No person, firm or corporaton shall, directly or indirectly, sell, transfer or deliver any camelback or other retreading or recapping material to respondent.

(3) Respondent shall not, in any manner directly or indirectly, sell, transfer or deliver any recapped or retreaded tires, nor shall he recap or retread any tires or in any way use or consume any camelback or other retreading or recapping material; *Provided, however,* That if any contracts for the retreading or recapping of tires have been entered into by respondent and such tires have been prepared in any degree for retreading or recapping or have been retreaded or recapped prior to the date of service of this suspension order, upon respondent, such retreading and recapping may be completed and the retreaded or recapped tires delivered in accordance with the revised tire rationing regulations; *Provided, further,* That respondent may sell, transfer and deliver his stock of camelback on hand as of the effective date of this order with the prior approval of the Regional Administrator of Region III and under his supervision.

(b) Any terms used in this suspension order that are defined in the Revised Tire Rationing Regulations shall have the meaning therein given them.

(c) This suspension order shall become effective October 30, 1942, and shall remain in effect until further order by the Deputy Administrator in Charge of Rationing, but not later than December 31, 1944.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. 9125, 7 F.R. 2719; W.P.B. Dir. 1 and Supp. Dir. 1B, 7 F.R. 562, 925; W.P.B. Supp. Order M–15–c, 6 F.R. 6792)

in Charge of Rationing.

[Suspension Order 149]

Walter J. Mueller, Inc., et al.

ORDER RESTRICTING TRANSACTIONS

Walter J. Mueller, Inc., an Ohio corporation, and Walter J. Mueller, 1336 Superior Avenue, Cleveland, Ohio, distributors, hereinafter called respondents, were duly served with notice of specific charges of violations of the tire rationing regulations issued by the Office of Price Administration. Pursuant to said notice a hearing on the charges was held on September 16, 1942, at Cleveland, Ohio. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator in Charge of Rationing, It is hereby determined That:

(a) Respondents have violated the tire rationing regulations issued by the Office of Price Administration in that:

(1) On February 28, 1942, and at the close of business on the last day of each month thereafter to and including July 31, 1942, respondents failed to take an inventory of new tires and tubes in their possession or under their control and failed to keep a record thereof as required by revised tire rationing regulations.

(2) Respondents filed with the Office of Price Administration an OPA Form R–17, wherein they failed to include and set forth more than 600 tires and 600 tubes that were in their possession and control on the last day of the quarter ending June 30, 1942.

(3) On May 8, 1942, respondents sold and delivered to a private domestic consumer, Norwalk Truck Lines, Norwalk, Ohio, 225 new truck tires without receiving in exchange therefor at the time of said delivery a sufficient number of certificates to authorize said sale and delivery of tires as required by revised tire rationing regulations. Respondents did not receive a sufficient number of such certificates until July 15, 1942.

Because of the great scarcity and critical importance of rubber in the United States, respondents' violations of the tire rationing regulations issued by the Office of Price Administration have necessarily resulted in the diversion of rubber from military and essential civilian uses to non-essential uses in a manner contrary to the public interest and detrimental to national defense. It appears to the Deputy Administrator in Charge of Rationing on the evidence before him that further violations of the tire rationing regulations by respondents are likely unless appropriate administrative action is taken.

It is therefore ordered:

(b) During the period in which Suspension Order No. 149 shall be in effect,

(1) Respondents shall not accept any transfers or deliveries of or in any manner directly or indirectly receive from any source any new tires, new tubes, recapped tires, or retreaded tires.

(2) No person shall in any manner directly or indirectly, sell, transfer or deliver any new tires, new tubes, recapped tires, or retreaded tires to respondents regardless of whether such tires or tubes have been previously purchased and completely paid for.

(3) Respondents shall not sell, transfer, or deliver any new tires, new tubes, recapped tires, or retreaded tires: *Provided, however,* That respondents may make sales, transfers, or deliveries of their stocks thereof in their possession on the effective date of this order with the prior approval and under the supervision of the Regional Administrator of the Office of Price Administration for Region III.

(c) Any term used in this Suspension Order No. 149 that is defined in Revised Tire Rationing Regulations shall have the meaning therein given it.

(d) This Suspension Order No. 149 shall become effective October 30, 1942, and shall remain in effect until January 30, 1943.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671 76th Cong.; as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. 9125, 7 F.R. 2719; W.P.B. Dir. 1 and Supp. Dir. 1B, 7 F.R. 562, 925; W.P.B. Supp. Order M–15–c, 6 F.R. 6792)

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration

PART 19—FEES

NATIONAL FARM LOAN ASSOCIATION FEES

Sections 19.4006 and 19.4007 are hereby revoked and §§ 19.4003, 19.4005, 19.4008 and 19.4009 are hereby amended to read as follows:

§ 19.4003 *Appraisals to be made by associations.* An appraisal shall be made by the association's loan committee or its investigator in connection with all applications for loans made through national farm loan associations before they are forwarded to the Federal land bank. When the local appraisal report is favorable, and the loan committee is unanimous in its approval thereof, the application may be handled in either of two ways:

(a) It may be acted upon by the association's board of directors before it is forwarded to the Federal land bank. If this procedure is followed, the application shall be forwarded to the Federal land bank immediately following the board's action, even though rejected by the association for a land bank loan.

(b) It may be forwarded to the Federal land bank before it is acted upon by the association's board of directors. If this procedure is followed, the original copy of the application shall be promptly forwarded to the bank. A duplicate copy of the application, including the association appraisal report and the recommendations of the loan committee, shall be retained by the secretary-treasurer and presented to the association's board of directors at its next meeting. The secretary-treasurer shall certify to the bank, on a form to be prescribed by the bank, the board's action (i. e., whether the application is rejected or approved, and, if approved, the amount of the loan approved) immediately following the meeting of the board. (Sec. 10, 39 Stat. 369, as amended, secs. 33, 34, 48 Stat. 49, as amended; 12 U.S.C. 751, 752, 1017, 1018)

§ 19.4005 *Application fee where appraisal is to be made.* Associations may collect an association application fee of not more than $5.00 in connection with each application for $5,000.00 or less, and an association application fee of not more than $10.00 in connection with each application for over $5,000.00: *Provided, however,* That the amount of any such fee shall not exceed 1 percent of the amount of the loan applied for. This fee may be collected at the time the application is filed. It may be retained by the association regardless of whether the loan is rejected or closed as a land bank loan, a Commissioner loan, or a joint land bank and Commissioner loan. (Sec. 11 "Third", 39 Stat. 369, as amended, sec. 17 (d), 39 Stat. 375, secs. 33, 34, 48 Stat. 49, as amended; 12 U.S.C. 761 "Third", 831 (d), 1017, 1018)

§ 19.4008 *Closed loan fees.* When a land bank loan is closed, associations may collect a closed loan fee in an amount which, when added to the association application fees already collected, will equal but not exceed 1 percent of the amount of the land bank loan closed. The application fees provided in § 19.4005 may be retained by associations even though the loan is rejected or the amount of such fees is more than 1 percent of the land bank loan closed, but in such event no closed loan fee may be collected. TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regulations, Serial No. 244]

COMMERCIAL PILOT CERTIFICATES FOR FRIENDLY ALIENS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 28th day of October 1942.

It appearing that:

1. Citizens of friendly foreign governments have been assigned for training in the Civilian Pilot Training course; and

2. Many of these trainees have satisfactorily completed Civilian Pilot Training courses, including the elementary, secondary, cross-country and instructor training; and

3. It is in the interest of the war effort to employ many of these trainees as flight instructors and as pilots in commercial operations in the United States; and

4. In order for these trainees to be eligible to serve as flight instructors and pilots in commercial operations they must possess commercial certificates and appropriate ratings issued pursuant to the Civil Air Regulations; and

5. Such trainees cannot obtain commercial pilot certificates because their governments do not have agreements with the United States for the granting of reciprocal commercial pilot privileges to citizens of this country, as required in § 20.142 of the Civil Air Regulations; and

6. There may be other equally qualified friendly aliens who have not obtained their training in the Civilian Pilot Training Program but who might be equally valuable as commercial pilots or instructors.

The Board finds that:

Its action is desirable in the public interest and is necessary for the successful prosecution of the war.

Now, therefore, the Civil Aeronautics Board acting pursuant to sections 205 (a) and 601 of the Civil Aeronautics Act of 1938, as amended, makes and promulgates the following special regulation effective immediately:

Notwithstanding the provision of § 20.142 of the Civil Air Regulations relating to reciprocal agreements with foreign governments, but subject to the other provisions of said section and to all other sections of the Civil Air Regulations, citizens of friendly foreign governments may be issued commercial pilot certificates and appropriate ratings, valid "only for the duration of the war and not to exceed six months thereafter." This limitation may be removed upon the execution of a reciprocal agreement by these foreign governments with the United States.

By the Civil Aeronautics Board.

[SEAL] DARWIN CHARLES BROWN,
Secretary.

Whereas, The Board ordered such amendments to become effective July 1, 1942; and

By direction of the President:

D. W. BELL,
Acting Secretary of the Treasury.

JESSE H. JONES,

OCTOBER 30, 1942.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics.

(2) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and the surname, the title is listed under the *surname.*

Personal-name prefixes such as *de, la, von,* etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in any other language:

Compañía; Cía.; Comp.
Compañía Anónima; C. A.; Comp. Anón.
Sociedad; Soc.
Sociedad Anónima; S. A.; Soc. Anón.

(3) The indication of an address for a name on the list is not intended to exclude other addresses of the same firm or individual. A listed name refers to all branches of the business in the country.

(4) For an explanation of the use of the symbol following each addition in this supplement see General Notes, Revision III.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T.D. 5177]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

INCOME TAX; AMENDMENT OF REGULATIONS

Amending Regulations 103, 101, 94, 86, and 77, as amended by Treasury Decision 5125, approved March 5, 1942, relating to proof of exemption of organizations.

PARAGRAPH 1. Section 19.101–1 of Regulations 103 [Part 19, Title 26, Code of Federal Regulations, 1940 Sup.] as amended by T.D. 5125, approved March 5, 1942,[1] is further amended as follows:

The last sentence in the first paragraph is amended to read:

An organization claiming exemption under section 101 (5), (6), except organizations organized and operated exclusively for religious purposes, (7), (8), (9), or (14) shall also file with the other information specified herein a return of information on Form 990 relative to the business of the organization for the last complete year of operation: *Provided, however,* That such return shall not be required of an organization which is organized and operated exclusively for educational purposes, or educational and religious purposes, if no part of its net earnings or assets are distributable to any private shareholder in liquidation or otherwise and if, in the case of an organization privately owned or operated, the Commissioner is advised of any increase in the compensation of its owners, managers, trustees, or directors over the amount of such compensation for the last year for which its exemption under section 101 (6) was approved by the Commissioner. Form 990 will not be required of charitable organizations operated or controlled by religious or educational organizations of the type exempt under the preceding sentence from the requirement of filing such returns, nor of separately conducted charitable organizations meeting the above conditions as to distributions and compensation, nor of charitable organizations operated under the control of a State or any political subdivision thereof.

The first sentence in the fifth paragraph is amended to read:

When an organization has established its right to exemption, it need not thereafter make a return of income or any further showing with respect to its status under the law, unless it changes the character of its organization or operations or the purpose for which it was originally created, except that every organization exempt or claiming exemption under section 101 (5), (6), except organizations organized and operated exclusively for religious purposes, (7), (8), (9), or (14), shall file annually returns of information on Form 990 with the collector for the district in which is located the principal place of business or principal office of the organization; *Provided, however,* That such return shall not be required of an organization which is organized and operated exclusively for educational purposes, or educational and religious purposes, if no part of its net earnings or assets are distributable to any private shareholder in liquidation or otherwise and if, in the case of an organization privately owned or operated, the Commissioner is advised of any increase in the compensation of its owners, managers, trustees, or directors over the amount of such compensation for the last year for which its exemption under section 101 (6) was approved by the Commissioner. Form 990 will not be required of charitable organizations operated or controlled by religious or educational organizations of the type exempt under the preceding sentence from the requirement of filing such returns, nor of separately conducted charitable organizations meeting the above conditions as to distributions and compensation, nor of charitable organizations operated under the control of a State or any political subdivision thereof.

The third sentence of the fifth paragraph which reads: "The returns for subsequent taxable years shall be filed on or before the first day of the third month following the close of the taxable year," is amended to read:

The returns for subsequent taxable years shall be filed on or before the fifteenth day of the fifth month following the close of the taxable year.

PAR. 2. The foregoing provisions relative to proof of exemption under section 101 of the Internal Revenue Code are hereby made applicable in the case of any organization which claims exemption under the Revenue Act of 1938, 1936, 1934 or 1932 and which has not proven exemption under the corresponding provisions of Regulations 101 [Part 9, Title 26, Code of Federal Regulations, 1939, Sup.], 94 [Part 3, Title 26, Code of Federal Regulations], 86, or 77. The foregoing provisions relative to the filing annually of returns of information on Form 990 are hereby made applicable to organizations held exempt under the sections of the Revenue Act of 1938, 1936, 1934, or 1932 which correspond to section 101 (5), (6), (7), (8), (9), or (14) of the Internal Revenue Code.

(Sections 62 and 101 of the Internal Revenue Code; (53 Stat. 32, 33 as amended by 53 Stat. 876 26 U.S.C., 1940 ed., 62, 101); sections 62 and 101 of the Revenue Acts of 1938, 1936, and 1934 (52 Stat. 480, 26 U.S.C. Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S–128]

CARL M. LOEB, RHOADES AND CO.

Carl M. Loeb, Rhoades and Company, New York, New York, is a partnership engaged in the importing business. On or about June 2, 1942, the company's Buenos Aires representative purchased 100 tons of casein which was to be shipped to the company in the United States during June, July, August, and September.

General Imports Order M–63, as amended June 2, 1942, prohibits the importation of many products, including casein, without specific authorization from the Director of Industry Operations subsequent to July 2, 1942. The company at least by July 3 was fully aware of the fact that the importation of casein was restricted by this order. Notwithstanding its knowledge of these restrictions, the company advised its Buenos Aires office on July 3 that small quantities of casein could be imported without authorization. The 100 tons of casein was actually shipped from Buenos Aires to New York on or about July 17, 1942; 75 tons being shipped on the "SS Sloterdyjk" and 25 tons on the "SS Agwi Prince". The casein is still in the possession of Customs officials at the Port of New York.

This violation of General Imports Order M–63 has hampered and impeded the war effort of the United States by diverting shipping space to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered* That:

§ 1010.128 *Suspension Order S–128.* (a) Carl M. Loeb, Rhoades and Company, its successors and assigns, shall not accept delivery of, receive, or take any action to clear through the Bureau of Customs the 100 tons of casein presently in the custody of Customs officials at the Port of New York which was shipped on or about July 17, 1942, on the "SS Sloterdyjk" and the "SS Agwi Prince".

(b) Nothing contained in this order shall be deemed to relieve Carl M. Loeb, Rhoades and Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect immediately and shall remain in effect until revoked.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 30th day of October, 1942.

ERNEST KANZLER,
Director General for Operations.

(d) For a period of six months from the effective date of this order, no application for authorization to begin construction of any house, building, structure or project filed by C. W. (e) For a period of six months from the effective date of this order, deliveries of material to C. W. (f) For a period of six months from the effective date of this order, no allocation shall be made to C. W. PART 3096—PAPER AND PAPERBOARD

[General Conservation Order M-241]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export of various materials and facilities required in the manufacture and distribution of paper and paperboard; and the following order is deemed necessary in the public interest and to promote national defense:

§ 3096.1 *General Conservation Order M-241*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" includes all operations connected with the production of paper and paperboard, including operations in the finishing room and packaging, but does not include processes or operations applied to paper and paperboard, after the primary papermaking, such as printing, waxing, gumming, coating, bag manufacture, cup manufacture, and envelope manufacture, box and container manufacture, and the fabrication of paper into paper articles.

(3) "Mill" means a congregation of pulp preparation and roll and sheet finishing equipment, paper machines and subsidiary facilities located and operated together as a single producing unit for the production of paper and paperboard.

(c) *Restrictions on production of paper and paperboard.* (1) No person or persons shall produce paper or paperboard in any mill which has not produced paper or paperboard since August 1, 1942.

(2) Except as provided in paragraphs (c) (4), (5) and (6), no person or persons shall during the calendar month commencing November 1, 1942, or any calendar month thereafter, produce in any mill any greater quantity in tons of paper and/or paperboard than 100% of the average monthly quantity in tons of paper and/or paperboard produced in such mill during the six months from April 1, 1942, to September 30, 1942, inclusive.

(3) The quantity in tons of paper and paperboard shall be measured in tonnage delivered from the paper machine, and the method and basis for determining such tonnage shall be that method and basis followed at such mill in the past, or any other practicable method and basis, provided that the same method and basis are used in determining production in future calendar months as are used in determining average production during the six months reference period from April 1, 1942 to September 30, 1942, inclusive.

(4) There shall not be included in such calculation, either for past or current production, papers and paperboard of the kinds included within the following designations on United States Department of Commerce (Census) Form WPB-514, as revised August 10, 1942:

Building Papers (Code 14000, 14100, 14200, 14300, 14900)
Building Boards (Code 58000, 58100, 58200, 58300, 58900)
Vulcanizing Fibre Stock (Code 13500)
Resin Impregnating Stock (Code 13600)
Sanitary Napkin and Hospital Wadding Stock (Code 11100)

(5) If one person owns only one mill, and such mill is equipped with only one machine unit for the manufacture of paper and/or paperboard, such person may, notwithstanding the provisions of paragraph (c) (2), produce at such mill during any calendar week any quantity of paper and/or paperboard required to occupy such machine 120 hours during such week.

(6) If any person owns more than one mill, and believes that the purposes of this order will be furthered by combining for production among all or several of his mills jointly the quantities of paper and/or paperboard which are permitted by this order for each separately, he may submit to the Director General for Operations, in writing, a plan for such combination, stating the quantity and kinds of paper and/or paperboard produced at each mill involved during the six month period from April 1, 1942 to September 30, 1942, inclusive, the quantity and kinds of paper expected to be produced at each such mill during each month under such plan, how long he proposes to operate under such plan, his reasons for desiring to adopt such plan, and the respects wherein he conceives that such plan will further the purposes of this order. The Director General for Operations may thereupon approve, modify, or disapprove such plan, or may impose upon the execution of any such plan such conditions as he may deem appropriate to this order. Upon receipt from the Director General for Operations of approval in writing of such a plan the proponent may, notwithstanding the provisions of paragraph (c) (2), produce at the mills designated in such plan the quantities and kinds of paper and/or paperboard provided for in such plan, subject to any modifications or conditions imposed by the Director General for Operations in his approval. No person shall undertake or attempt to carry into effect any such plan unless and until he receives such approval.

(d) *Restrictions on inventory.* No person shall knowingly make delivery of any type of paper or paperboard, and no person shall accept delivery of any type of paper or paperboard, if the inventory of such type of paper or paperboard in the hands of the person accepting delivery is, or will by virtue of such acceptance become, in excess of ninety days supply, on the basis of his current method and rate of operation. This restriction applies equally to paper and paperboard of foreign and domestic origin. It shall not, however, prevent acceptance by any person of delivery of one carload or less of any type of paper or paperboard if the inventory of such type of paper or paperboard of the person accepting such delivery is not and will not by virtue of such acceptance become in excess of two carloads.

(e) *Miscellaneous provisions*—(1) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall,

upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any person affected by the order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(6) *Communications.* All communications concerning this order shall unless otherwise directed, be addressed to, War Production Board, Pulp and Paper Branch, Washington, D. C. Ref: M-241.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 31st day of October 1942.

Director General for Operations.

The preamble and § 1090.1 *General Preference Order M-84*[1] are hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of agave fiber, agave products and certain other cordage for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1090.1 *General Preference Order M-84*—(a) *Definitions.* For the purposes of this order:

(2) "Agave cordage" means cables and ropes 3/16" in diameter and larger, cordage or twines of any diameter used in the manufacture of any wire rope, twines used for fishing nets, and tarred marlines for use in manufacturing wire rope and for marine uses, in which agave fiber either alone or in combination with other material is used, but does not include agave cordage sold or delivered for its scrap value.

(3) "Processor" means any person who spins, twists, weaves or otherwise uses agave fiber in the production of cordage, twine or any other product.

(4) "Processing" means any use of agave fiber for the manufacture of any article or commodity into which agave fiber goes or of which it becomes a part.

(5) "Dealer" means any person who procures agave cordage or agave twine for storage or for sale, and includes selling agents and other commercially recognized agents acting for their own account or for others, whether or not acquiring title to such agave cordage or agave twine, but shall not include any person who imports agave cordage, or agave twine.

(6) "Wrapping twine" means twine, including lath yarns (ply and yarn goods) as included in National Bureau of Standards Simplified Practice Recommendation R 92-38, and any other twine suitable for the same purposes for which those twines described in said Simplified Practice Recommendation R 92-38 are used, which contains agave fiber, but shall not include binder twine.

(7) "Binder twine" or "binding twine" means a single yarn twine, manufactured of agave fiber, of the type customarily heretofore manufactured, and sold in lengths measuring 500, 525, 550, 600, 630 or 650 feet to the pound, with a plus or minus tolerance of 5 per centum, containing a lubricant of not less than 10 per centum of the total weight of the twine and an insect repellent, and which is put up in balls of approximately 5 or 8 pounds each, is suitable for use with a harvesting machine, and is used in the harvesting of agricultural products.

(8) "Inventory" with respect to any person shall include all of any agave product held or controlled by such person at all warehouses, plants or places of storage, but shall not include any of such product while actually in transit or actually in use.

(9) "Supply" means the average monthly amount of any agave product withdrawn from inventory which has been resold or put into actual use.

(i) In the three calendar months preceding the calendar month for which supply is being calculated; or,

whichever of the two shall be the higher.

(10) "Basic monthly poundage" with respect to any cordage processor for any month shall be the average number of pounds per month of both Manila and agave cordage sold by such processor during the period from January 1, 1939, to December 31, 1941, minus 37% of such person's Manila fiber basic monthly poundage calculated as required by General Preference Order M-36: *Provided,* That any cordage processor keeping his books on a weekly basis may calculate his basic monthly poundage from the fifty-two week period of the 1939 calendar year and adjust any other calculations or quotas under this order.

(11) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States, including the Philippine Islands. It includes shipments into a free port, free zone or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transhipment to Canada, Mexico or any other foreign country.

(b) *Restrictions on sales and deliveries of agave fiber.* No person shall sell, or deliver, or make or accept delivery of agave fiber of any grade or quality; except that purchases, sales and deliveries of agave fiber may be made:

(1) By and to Defense Supplies Corporation;

(2) By and to persons importing or otherwise handling agave fiber in accordance with written instructions from Defense Supplies Corporation: *Provided,* That such agave fiber is to be delivered, either processed or unprocessed, directly or through one or more other persons to Defense Supplies Corporation.

(3) By and to importers, dealers, jobbers, or processors, pursuant to contracts entered into on or before February 20, 1942, but only of agave fiber in the amounts specified in such contracts on or before the said date, or by any amendments or supplements thereto on or before August 5, 1942: *Provided, however,* That purchases, sales and deliveries under general requirements contracts or contracts to take all, or a specified percentage of a production may continue to be made until December 31, 1942: *And provided further,* That all agave fiber, except bagasse waste, imported on or after October 31, 1942, under any contract mentioned in this subparagraph (3) shall, within twenty-four hours after its arrival, be reported to the War Production Board, except such agave fiber which shall have been offered for sale to the Defense Supplies Corporation, and such reported agave fiber shall not be used or disposed of except as specifically authorized by the Director General for Operations.

(4) By and to importers, dealers, jobbers, or processors of agave fiber which has been rejected by Defense Supplies Corporation as unfit for its use.

(5) By and to importers, dealers, jobbers or processors of tow, waste, bagasse flume or fiber less than twenty inches in length: *Provided,* That such fiber was on hand in the United States on February 20, 1942, or was, or is thereafter imported pursuant to this paragraph (b).

(*a*) During the eleven months ending June 30, 1942, an amount which, when added to binder twine in his stocks on November 1, 1941, equals 120% of that processor's total sales of binder twine in the United States during the twelve months ending October 31, 1941;

(*b*) During the four months commencing July 1, 1942, and ending October 31, 1942, an amount which equals 40% of that processor's total sales of binder twine in the United States during the twelve months ending October 31, 1941;

(*c*) During the two months commencing November 1, 1942, and ending December 31, 1942, an amount which equals 20% of that processor's total sales of binder twine in the United States during the twelve months ending October 31, 1941;

(iv) *Reinforced paper, tape and plastics.* Processors manufacturing reinforced paper, tape and plastics may use agave fibers except Java sisalana and Java cantala, but only in an amount not in excess of 50% of the fiber content of their average monthly sales of such products for the twelve months ended June 30, 1942.

(v) *Agave cordage.* Processors manufacturing agave cordage shall not put into process in any of the periods listed below an amount of agave fiber in excess of the amounts hereinafter specified for such period:

(*b*) *Increased* by the difference, if any, between the amount of Manila fiber permitted to be put into process by such cordage processor pursuant to General Preference Order M-36, and any lesser amount of Manila fiber actually put into process by such cordage processor during such period; and

(*c*) *Increased* by any or all of the said processor's permitted amount of agave fiber for use in the manufacture of wrapping twine, as provided in paragraph (c) (1) (i), which is not actually put into process for this use since July 1, 1942.

(2) A person may process agave fiber in the manufacture of a product not specified in paragraph (c) (1), for delivery to or for the account of, or for physical incorporation into material or equipment to be delivered to or for the account of, the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration or its operating or general agents.

(3) The prohibitions of paragraph (c) (1) shall not apply to the manufacture of wrapping twine, binder twine, agave cordage, reinforced paper, tape, or plastics from tow, waste, or fiber under twenty inches in length.

(4) The Director General for Operations may, whenever supplies of agave fiber on hand in the United States warrant, increase the amounts of agave fiber which may be entered into process for the manufacture of agave cordage or for such other products as in the judgment of the Director General for Operations may be necessary to promote the national defense and in the public interest.

(d) *Restrictions on purchases, sales and deliveries of agave cordage and wrapping twine.* (1) No dealer shall order, purchase or accept deliveries of any wrapping twine or agave cordage which will result in such dealer having in inventory an amount thereof in excess of one month's supply.

(2) No person (other than a dealer, an importer, a wire rope manufacturer, the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal or the War Shipping Administration or its operating or general agents) shall order or accept delivery of any wrapping twine or agave cordage which will result in such person having in inventory an amount thereof in excess of one month's supply; and no such person shall have outstanding at any one time orders for future deliveries of wrapping twine or agave cordage in excess of one month's supply for such person.

(3) No importer shall during the period from August 5, 1942 to October 31, 1942, sell or deliver in any calendar month agave cordage in excess of his average monthly sales of Manila and agave cordage in the calendar years 1939-1941, or in any calendar month after October 31, 1942, sell or deliver agave cordage, other than agave cordage

(4) Nothing in this paragraph (d) shall prevent the orderly advance accumulation of a supply of wrapping twine and/or haying rope to meet an expected seasonal demand for agricultural purposes, provided that the total amount so accumulated shall not be in excess of the amount estimated to be necessary for use for such purpose based on the most recently available crop forecasts of the Department of Agriculture.

(5) On and after September 26, 1942, no processor shall process agave fiber for cordage or sell or deliver any agave cordage except for filling contracts or purchase orders therefor for the following categories of uses:

(i) *Class One: Agave cordage other than that used in manufacture of wire rope.* (*a*) Use for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal or the War Shipping Administration or its operating or general agents;

(6) Each purchaser (other than the departments or agencies specified in paragraph (d) (5) (i)) of agave cordage (excluding agave cordage in any dealer's inventory shipped to such dealer on or before September 25, 1942) shall furnish his seller a certificate as a condition to receiving said cordage, and no person shall sell or deliver any such agave cordage to such purchaser without obtaining a certificate, signed by such purchaser or his duly authorized representative, in substantially the following form:

> The undersigned hereby represents to the seller and the War Production Board that the agave cordage covered by this certificate will be used or sold only for the uses described in paragraph (d) (5) of General Preference Order M–84, with the terms of which the undersigned is familiar.

(7) During the period beginning September 26, 1942, to and including December 31, 1942, no processor shall put into process any agave fiber for the purpose of filling purchase orders for Class Two cordage uses, as specified in paragraph (d) (5) (ii) hereof, in excess of 20% of the unprocessed balance of his processing quota as established under paragraph (c) hereof as said balance may appear at the close of business on September 25, 1942.

(8) During the period beginning October 31, 1942, to and including December 31, 1942, no processor shall sell or deliver any agave cordage for Class Two cordage uses, as specified in paragraph (d) (5) (ii) hereof, in excess of 20% of his inventory of agave cordage as that inventory may appear at the close of business on October 30, 1942.

(9) No importer shall sell or deliver in any month listed below any wrapping twine, imported or domestic, in excess of the following percentages of his average monthly sales thereof during the calendar year 1941:

	Percent
July	65
August	40
September, and each month thereafter	20

Provided, however, That no importer shall, after September 30, 1942, import, purchase for import, offer to import, offer to purchase for import, contract or otherwise arrange to import any wrapping twine unless specifically authorized by the Director General for Operations. Authorizations will only be granted, in the absence of extraordinary circumstances, where it can clearly be demonstrated that such wrapping twine was processed only from tow, waste or fiber under 20'' in length.

(e) *Importation and disposition of agave fabrics and agave carpet yarns.* In addition to all other requirements of this order, the importation and disposition of agave fabrics and agave carpet yarns shall be made in conformity with the provisions of General Imports Order M–63, as amended from time to time.

(f) *Restrictions on purchases, sales and use of binder twine.* No person shall hereafter sell, purchase, deliver, accept delivery of or use any binder twine except for the growing or harvesting of agricultural products or for sewing up bags containing such products, and any person purchasing any binder twine shall endorse on, or attach to his purchase order or delivery receipt therefor, a statement signed by such person, or on his behalf by a duly authorized individual, a certificate in substantially the following form:

> The undersigned hereby represents to the seller and the War Production Board that the binder twine covered by this certificate will be either resold or used by the undersigned for the growing or harvesting of agricultural products or for sewing up bags containing such products and is not in excess of his requirements for the current harvest season, as provided in General Preference Order M–84.

(g) *Preference to agave cordage processors for cotton, istle or jute yarns.* (1) Subject to the provisions contained below in this paragraph (g) and notwithstanding the provisions of any other conservation order, preference rating A–2 is hereby assigned to any processor of agave cordage during the year 1942 to obtain delivery of cotton, istle or jute yarns for processing by him into cordage.

(2) The preference rating assigned by paragraph (g) (1) shall be applied and extended in accordance with Priorities Regulation No. 3, as amended from time to time.

(3) During the period November 1, 1942 through December 31, 1942, no processor of agave cordage during the year 1942 shall apply the rating assigned by paragraph (g) (1) to obtain delivery of any istle or jute yarns for such purpose in excess of an equivalent, for each yarn, of the basic monthly poundage, as established under paragraph (a) (10), and of two times said poundage for cotton yarns. Any such processor desiring additional quantities of any of said yarns may apply to the War Production Board therefor on form PD–1A or other applicable form prescribed.

(4) Each processor of agave cordage during the year 1942 shall furnish his seller a certificate as a condition to receiving any cotton, istle or jute yarns for processing by him into cordage, and no person shall sell or deliver any cotton, istle or jute yarns to such processor for such purpose without obtaining a certificate, signed by such processor or his duly authorized representative, in substantially the following form:

> The undersigned hereby represents to the seller and the War Production Board that he processed agave cordage during 1942 and that the cotton, istle or jute yarns covered by this certificate will be processed by the undersigned into cordage and is not in excess of the stock authorized under paragraph (g) of General Preference Order M–84.

(h) *Control and allocations of stocks of agave fiber and agave cordage.* (1) Control is hereby taken of the disposition and use of agave fiber and agave cordage possessed by or under the control of any importer, dealer or processor.

Any agave fiber or agave cordage at any time hereafter in the inventory of any such person shall be sold and delivered by such person as, and if, specifically directed in any order of the Director General for Operations which may be issued whenever the Director General for Operations shall determine that a shortage of any particular grade of agave fiber or agave cordage for defense, or for private account, or for export, renders it necessary or appropriate so to allocate such agave fiber or agave cordage in the public interest, or to promote the national defense by so directing its sale and delivery by such person. Any such sale shall be made at the established prices and terms of sale and payment therefor and shall take precedence over any preference rated orders. No person shall dispose of or use agave fiber or agave cordage in any manner inconsistent with any such order.

(2) Applications for specific authority to purchase, receive or use agave fiber or agave products otherwise than as permitted by paragraphs (b), (c), (d) or (e) may be made to the Director General for Operations by the person desiring to use such agave fiber or agave cordage on form PD–709 or such other form or forms as may be prescribed. Any such application shall, among other things, set forth a statement of the technical necessity for the use of agave fiber or agave cordage in the manner and to the extent that application therefor is made. Such application shall also summarize the efforts made by the applicant to use substitutes and shall contain a statement of the reasons why the applicant believes the use of agave fiber or agave cordage, in the manner and the extent that application therefore is made, will promote the national defense or will be in the public interest.

(i) *Reports.* Every importer of agave fiber shall file a report on Form PD–129 and every processor of agave fiber shall file a report on form PD–128 with the U. S. Tariff Commission, acting for the War Production Board, not later than the tenth day of the following month, and all persons affected by this order shall file with the War Production Board such reports as may from time to time be required by said Board.

(j) *Records.* All persons affected by this order shall keep and preserve for not less than two (2) years accurate and complete records concerning inventories, production, sales and other transactions pursuant to this order, and shall from time to time, upon request, submit all records required to be kept by this order to audit and inspection by duly authorized representatives of the War Production Board.

(k) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of agave fiber conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or telegram, Reference M–84, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(l) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Branch, Washington, D. C., Reference M–84.

(m) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(c) *Restrictions on delivery or processing.* Except as provided in paragraphs (b) (2) and (h) (3), or upon express authorization of the Director General for Operations, no person shall knowingly sell, deliver or in any manner distribute, and no person shall purchase, accept delivery of or in any manner receive burlap for any use other than for the manufacture of agricultural bags, and no person shall process or use any burlap other than for the manufacture of agricultural bags. (2) Any importer or importing bag manufacturer not desiring to take up his quota out of any cargo may assign such quota, in whole or in part, to one or more importers or importing bag manufacturers in exchange for an equal yardage, without regard to constructions, out of the quotas with respect to expected future cargoes of such importers or importing bag manufacturers. Unused quotas, not so assigned, may be reallocated by the Director General for Operations.

(e) *Restrictions on importation.* (1) No person (other than the United States Government, the Board of Economic Warfare, the Defense Supplies Corporation, or any corporation organized under the authority of section 5d of the Reconstruction Finance Corporation Act, as amended, or any representative designated for the purpose by any of the foregoing, or a non-importing bag manufacturer) shall import burlap who did not import burlap in 1940.

(2) Any person securing shipping space for burlap in Calcutta or other point of shipment for import to the continental United States shall fill such shipping space with ten ounce constructions or heavier to the extent available.

This burlap shall be made available in each month, so far as practicable, and at regularly established prices and terms of sale or payment.

(2) No non-importing bag manufacturer may receive delivery from any importer or importing bag manufacturer of any burlap which will not be put into process by him for the manufacture of agricultural bags within sixty days after the receipt thereof. Each non-importing bag manufacturer shall certify to each importer or importing bag manufacturer from whom he receives delivery of burlap, as a condition to receiving such delivery, the following, on the purchase order for such burlap:

> The undersigned hereby certifies that the burlap to be delivered to the undersigned pursuant to the above purchase order is needed by the undersigned to put into process for the manufacture of agricultural bags within sixty days after physical receipt thereof by the undersigned.

Date ---------- By ----------------------
(Authorized official)

(3) If, for any reason, a non-importing bag manufacturer does not take up all or part of his quota in any given month, the importer or importing bag manufacturer shall reallocate all or part of the unused quota among the non-importing

bag manufacturers to whom such importer or importing bag manufacturer is obligated to furnish quotas. This reallocation shall be made as far as practicable in proportion to existing quotas and to the extent that such non-importing bag manufacturers are willing to participate. Unused quotas not reallocated in any month shall be reallocated in successive months until consumed.

(4) The term "non-importing bag manufacturer" for the purposes of this paragraph (f) shall include any importing bag manufacturer to the extent of his receipts of burlap from each importer or each importing bag manufacturer, or from himself to the extent of his burlap cut up into bags during 1939 and 1940.

(h) *Damaged burlap.* (1) Burlap set aside for Government use shall be deemed damaged when rejected by a writing identifying the said burlap after inspection by a Government inspector. Burlap not set aside for the Government stockpile shall be deemed damaged when inspected and rejected as damaged by a writing identifying the said burlap by representatives of the insurance company or companies required to meet the claim because of the damage involved.

(2) Notwithstanding the provisions of paragraph (b) (2), burlap set aside for Government use deemed to be damaged, in the manner described in the foregoing paragraph, may be sold, delivered or distributed to, and purchased, received, processed or used by any importing or non-importing bag manufacturer for the manufacture of agricultural bags: *Provided, however,* That such burlap shall be computed in the quota of such importing or non-importing bag manufacturer.

(3) In the event that the extent of damage is such that at least two bag manufacturers have rejected all or any portion of the burlap found to be damaged in the manner described in subparagraph (1) hereof as unsuitable for use in the manufacture of agricultural bags after an inspection thereof by their representatives, who shall not be persons connected with the persons offering such burlap, any person entitled to sell such burlap may sell the same free and clear of the restrictions of this order: *Provided, however,* That every such person shall make and file the following certificate with the War Production Board on or before the third business day following such sale:

> The undersigned hereby certifies to the War Production Board that ------------ bales of ---------------- burlap ex(ship) -------- bale nos. ---------------- which arrived at (port) -------------- on (date) ------------ have been rejected as damaged by (*insurance company representative or Government inspecting officer*), as evidenced by his attached certificate.
>

>
> ---------------------- (Name of seller)
>
> Date -------------- By -------------------- (Authorized signature)

The certificates of rejecting bag manufacturers shall be in substantially the the following form:

> The undersigned hereby certifies to the War Production Board that the undersigned is a bag manufacturer, that the undersigned has been offered by (name of seller) a lot of ------------ bales of ---------------- burlap ex ------------- bale nos. ------------- deemed to be damaged and that after inspection thereof by our representatives, who are not persons connected with the persons offering such burlap, we have rejected the said burlap as unsuitable for use in the manufacture of agricultural bags as to bales nos. ----------------

(i) *Adjustments and appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may apply for relief to the War Production Board by telegram or letter setting forth the pertinent facts and the reason such person considers that he is entitled to relief.

(j) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of priorities regulations of the War Production Board, as amended from time to time.

(k) *Reports and communications.* (1) Each importer, importing bag manufacturer and non-importing bag manufacturer shall file with the War Production Board on form PD-188 a monthly report of his inventories, receipts and deliveries of burlap.

(a) Section 1023.1 *Conservation Order No. M-50*[1] is hereby amended to read as follows:

§ 1023.1 *Conservation Order M-50*—(a) *Definitions.* For the purpose of this order:

(1) "Jewel bearing material" means any natural sapphire or ruby of industrial quality, any synthetic sapphire or ruby, or any other material of similar chemical composition and physical properties.

(2) "Jewel bearing" means any jewel bearing material which has been processed in any manner for use where friction occurs, including vees, rings, cups, endstones, pallet stones, roller pins, needles, stylii, cutters, nozzles, supports, tool bits, and dies.

(3) "Substitute jewel bearing" means a metal, agate, garnet, spinel, glass, or other bearing designed to replace, or to substitute for, a large ring bearing or a vee bearing of sapphire or ruby.

(4) "Large ring bearing" means any jewel bearing or substitute jewel bearing through which a hole has been pierced from one parallel face to the other which has the following dimensions:

Outside diameter greater than	0.050 inch (1.270 mm.)
Thickness greater than	0.012 inch (.305 mm.)
Hole diameter greater than	0.006 inch (.152 mm.)

(5) "Vee bearing" means any jewel bearing or substitute bearing which has a conically shaped cavity in one of the parallel faces.

(6) "Supplier" means any person who has engaged in the importation or processing of jewel bearings, substitute jewel bearings, or jewel bearing material, since January 14, 1942.

(7) "Consumer" means any person who uses jewel bearings or substitute jewel bearings in the manufacture of any article.

(8) "Processing" means manufacturing, fabricating, polishing, or modifying in any manner jewel bearing material or material designed to substitute therefor.

(9) "Blank" means preparage, rondel, cylinder, or prism made from jewel bearing material for the purpose of fabrication of a jewel bearing but which has not been drilled or formed.

(10) "Use" of a jewel bearing or substitute jewel bearing means to mount the jewel bearing in a screw or other setting, or to incorporate physically the mounted or unmounted bearing in a device where its normal bearing surface may be subjected to friction from a moving part or object.

(11) "Semi-fabricated jewel bearing" means any jewel bearing processed beyond the blank stage but on which additional processing is necessary before it is ready to be used by a consumer.

(12) "Finished bearing" means any jewel bearing or substitute jewel bearing which has been processed to a point where it can immediately be used by a consumer.

(13) "Implements of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armament, weapons, ships, tanks, and military vehicles), and any parts, assemblies, and materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(b) *Restrictions on delivery, processing, use, and sale.* (1) On and after November 2, 1942, each supplier shall set aside his entire stock, receipts, and production of finished jewel bearings, jewel bearing material, semi-fabricated jewel bearings, and blanks as a reserve for the fulfillment of present and future defense orders, and such other orders and uses as may be authorized from time to time by the Director General for Operations.

(2) No supplier shall make deliveries or withdrawals from such reserve either to his customers or for purposes of his own use, except as authorized by the Director General for Operations. The Director will from time to time allocate the supply of finished jewel bearings, of semi-fabricated jewel bearings, of blanks, and of jewel bearing material; and may specifically direct the manner and quantities in which deliveries to or by particular persons or for particular uses shall be made or withheld. He may also direct, limit, or prohibit processing of jewel bearing material, blanks and semi-fabricated jewel bearings. He may also direct, limit, or prohibit deliveries, withdrawals from inventories, and particular uses of jewel bearings in the hands of consumers. He may also allocate the supply of finished substitute jewel bearings, or any particular kind thereof, in the hands either of suppliers or consumers, and may direct, limit, or prohibit deliveries, withdrawals from inventories, and particular uses of substitute jewel bearings. Such allocations and directions will be made to insure the satisfaction of the defense requirements of the United States, both direct and indirect, and they may be made, in the discretion of the Director General for Operations, without regard to any preference ratings assigned to particular contracts or purchase orders.

(3) Unless specifically directed or authorized by the Director General for Operations, no person shall sell or deliver to any person for any purpose vee bearings or large ring bearings of sapphire or ruby, except:

(i) That any person may sell such bearings to the person from whom he originally acquired them; and

(ii) That a wholesaler or distributor (but not a supplier) may sell or deliver large ring bearings to persons who will use such large ring bearings solely in the repair of watches or aeroplane instruments.

(c) *Additional restrictions on consumers*—(1) *Use of vee bearings and large ring bearings.* Unless specifically directed or authorized by the Director General for Operations, no person shall use vee bearings or large ring bearings of sapphire or ruby in the manufacture of any article other than:

(i) "Implements of war" as defined in this order, which are being produced for the Army or the Navy of the United States, the Maritime Commission, the War Shipping Administration, or for any foreign government pursuant to the act approved March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), where the use of vee bearings or large ring bearings of sapphire or ruby to the extent employed is required by the latest issue of government specifications (including performance specifications, unless otherwise directed by the Director General for Operations) applicable to the contract, subcontract, or purchase order; or such other articles or products being produced for any of the foregoing services, agencies, or foreign governments, as may be from time to time approved and designated by the Director General for Operations by means of supplementary orders: *Provided, however,* That no person in the manufacture of implements of war or other articles or products covered by this paragraph (c) (1) (i) shall use a vee bearing or a large ring bearing of sapphire or ruby in any place or application where the governmental contracting agency 30 days or more previously has issued a written statement to such person permitting the use of a substitute jewel bearing in such place or application: *Provided, further,* That any person who uses vee bearings or large ring bearings of sapphire or ruby, in order to meet performance specifications in the manufacture of any article or product covered by this paragraph (c) (1) (i), shall furnish such information with respect to such article or product and the specifications applicable thereto as may be requested from time to time by the War Production Board.

(ii) Instruments for use in aeroplanes and ships.

(iii) Machine tools.

(iv) Precision gauges.

(v) Railroad standard watches, as such term is used and defined in Order L-175 of the War Production Board.

(2) *Use of substitute bearings.* On and after 30 days after November 2, 1942, unless specifically directed or authorized by the Director General for Operations, no person shall use jewel bearings of any type in the manufacture or repair of any article, other than those described in paragraph (c) (1) (i), in any place where it would be practicable, considering performance requirements, to use substitute jewel bearings, and in the repair of any such article no person shall replace a jewel bearing with a jewel bearing of any type if the bearing being replaced can be repaired or if it would be practicable, considering performance requirements, to use a substitute jewel bearing in its place.

(d) *General exception.* The prohibitions and restrictions contained in this order shall not apply to any jewel bearing which on or after November 2, 1942, without violating any order of the Director General for Operations, had been physically incorporated in a device in which, without further assemblage, its normal bearing surface was subjected to friction from a moving part or object.

(e) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of jewel bearings conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or other written communication, in triplicate, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(f) *Reports.* (1) Each supplier shall file with the War Production Board, Ref: M-50, on or before the 15th day of each calendar month, all the information required by Form PD-235.

(2) Each consumer shall file with the War Production Board, Ref. M-50, on or before the 15th day of each calendar month, all the information required by Form PD-236.

(3) Any person producing jewel bearing material shall file with the War Production Board, Ref: M-50, on or before the 15th day of each calendar month, all the information required by Form PD-338.

(g) *Miscellaneous provisions*— (1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(2) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Branch, Washington, D. C. Ref: M-50.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under pri-

PART 3067—TEXTILE SHIPPING BAGS

[Conservation Order M–221]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of textile bags for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3067.1 *Conservation Order M–221*—(a) *Definitions.*

(1) "Textile bag" means any shipping container made of cotton, burlap, or any jute fabric. The term includes wool pouches, but does not include other bale covers or textile wrappings.

(2) "New textile bag" means any textile bag which has not been used and "used textile bag" means any textile bag which bag, or the fabric thereof, has been used one or more times for packing any product.

(3) "Dealer" means any person who is engaged in the business of buying and selling empty textile bags, whether or not he is also a user or a commercial emptier.

(4) "User" means any person who uses textile bags for packing any product.

(5) "Commercial emptier" means, as of any time, any person who has acquired more than 400 textile bags during any of the six calendar months prior to such time, by removing the contents of filled bags.

(b) *Restrictions pertaining to new textile bags made of burlap.* (1) No person manufacturing textile bags made of burlap, and no dealer shall, during any calendar year, sell or deliver to any person more than 50 percent of the number of new textile bags made of burlap which he delivered to such person during the calendar year 1941; provided, however, that new textile bags made of burlap may be sold and delivered to any person pursuant to express authorization by the Director General for Operations, the Director of Industry Operations, or the Director of Priorities, under any appeal granted prior to the date of issuance of this order, under Conservation Order M–47.

(2) No new textile bag which is made of burlap, and which is acquired by any user after the date of issuance of this order, shall be used for any purpose except for packing the following products:

or closure, unless the contents have become caked or solidified to the extent that salvage of the bag is not practicable.

(3) No person shall use any new or used textile bag for packing mohair unless the word "Mohair" appears in legible type on both sides of the bag.

(4) No person shall purchase or accept delivery of any new or used textile bag to be used for defense against air raids or any other act of the enemy.

(d) *Restrictions pertaining to used textile bags.* (1) No dealer or commercial emptier shall deliver to a user any used textile bag of sound material unless such bag shall have been repaired and all holes, including trier or probe holes, properly mended or patched; provided that nothing in this paragraph (d) (1) shall prevent the return of an unrepaired leased bag to the owner, or the delivery of any bag to a person for the purpose of repair.

(2) Within 60 days from the date textile bags are acquired by a commercial emptier by emptying the contents of filled bags, an equal number of textile bags shall be withdrawn from his inventory of empty bags, and shall be used by the emptier or sold or transferred to a dealer or to another user: *Provided*, That, if such commercial emptier is also a dealer, he may hold such bags as a dealer.

(3) No dealer or commercial emptier shall sell or deliver any textile bag which has been used for packing raw sugar, and which is capable of carrying raw sugar, to any user except for packing raw sugar.

Unless acquired before the date of issuance of this order, no new wool bag or no #1 wool bag shall be used for any purpose except by a grower for packing grease wools known to the trade as Territory, California, or Texas wools, or by a person performing a grading operation, for packing such grease wools.

Unless acquired before the date of issuance of this order no #2 wool bag shall be used for any purpose except by a grower for packing grease wools known to the trade as fleece wools, or by a person performing a grading operation, for packing such grease wools.

When no longer capable of carrying grease wools, such wool bags shall be used only for packing scoured wools, noils, or wool wastes; provided that when such wool bags are no longer capable of carrying scoured wools, noils, or wool wastes, there shall be no restriction upon the disposition or use of such wool bags.

(5) No wool pouch imported from Australia, New Zealand, or South Africa, which is acquired by any user after the date of issuance of this order and which is capable of carrying wool or wool products, shall be used for any purpose other than for packing wool or wool products.

(e) *Miscellaneous provisions*—(1) *Applicability of order.* The restrictions imposed by this order shall not apply to:

C., his inventory, receipts, and usage of textile bags.

(4) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional or unreasonable hardship upon him, may appeal to the Director General for Operations by letter, setting forth the pertinent facts and reasons why such person considers that he is entitled to relief. The Director General may thereupon take such action as he deems appropriate.

(5) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

PART 3094—WIRE CLOTH FOR MANUFACTURE OF PULP, PAPER AND PAPERBOARD

[General Limitation Order L–209]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for war, for private account and for export, of metals used in the manufacture of fourdrinier and cylinder machine wires used in the production of pulp, paper and paperboard; and the following order is deemed necessary and appropriate in the public interest and to promote the war effort:

§ 3094.1 *General Limitation Order L–209*—(a) *Definitions.* For the purposes of this order:

(b) *Restrictions on acceptance of deliveries of wire cloth.* No producer shall accept delivery of wire cloth for any paper mill machine unit if acceptance thereof would increase his total inventory (including wire cloth held for his account) of such wire cloth for that paper mill machine unit in excess of the numbers and kinds indicated for such type of paper mill machine unit in Part II of Schedule A attached.

(c) *Restriction on orders and inventories of wire cloth.* No producer shall place any order for wire cloth or enter into any other arrangement for the fabrication of wire cloth without specifying approximate delivery date; and no producer shall specify any delivery date earlier than such producer may reasonably expect, on the basis of average wire life experience, to be able to accept delivery of such wire cloth without violating the provisions of paragraph (b) of this order.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be prohibited from obtaining further deliveries of, or using, material under priority control and may be deprived of priorities assistance.

(e) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reason why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(4) "Processor" means any person engaged in the processing in any manner of spun nylon yarn or nylon wastes, as the case may be.

(5) "Generator" means any person who in the regular course of his business generates or creates nylon waste and collects the same as such for sale, disposition, or use.

(c) *Restrictions on use of spun nylon yarn made from wastes.* No processor of spun nylon yarn shall hereafter process or use any spun nylon yarn made from nylon spinners' wastes except in the manufacture of material or equipment ordered by, or for the account of, the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration or the Defense Plan Corporation.

(d) *Restrictions on sales and deliveries of nylon yarn made from wastes.* No dealer in or processor of spun nylon yarn shall sell or deliver any spun nylon yarn made from nylon spinners' wastes unless he shall have first received from the purchaser a certificate signed by such purchaser or by a person authorized to sign in his behalf in substantially the following form:

> The undersigned hereby certifies to his vendor and to the War Production Board that the spun nylon yarn to be delivered on the annexed purchase order will be physically incorporated into material or equipment to be delivered to, or for the account of, the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, or the Defense Plant Corporation, or resold for such incorporation.

(e) *Restrictions on use of spinners' wastes.* No processor of nylon wastes shall hereafter use or process any nylon spinners' wastes except in the manufacture therefrom of spun nylon yarn.

(f) *Restrictions on sales and deliveries of spinners' wastes.* No generator of, processor of, or dealer in nylon wastes shall hereafter sell or deliver any nylon spinners' wastes unless he shall have first received from the purchaser a certificate signed by such purchaser or by a person authorized to sign in his behalf in substantially the following form:

> The undersigned hereby certifies to his vendor and to the War Production Board that the spinners' wastes to be delivered on the annexed purchase order will be used in the manufacture of spun nylon yarn or resold for such use.

(g) *Restrictions on use of other nylon wastes.* No processor of nylon wastes shall process or use any nylon wastes other than spinners' wastes except in the process of recovering nylon flake from such wastes.

(h) *Restrictions on sales and deliveries of other nylon wastes.* No generator of, processor of, or dealer in, nylon wastes shall sell or deliver any nylon wastes other than spinners' wastes unless he shall have first received from the purchaser a certificate signed by such purchaser, or by a person authorized to sign in his behalf, in substantially the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the nylon wastes to be delivered on the annexed purchase order will be processed to recover nylon flake therefrom, or resold for such processing.

(i) *Restrictions on intermingling of nylon wastes.* No generator of, processor of, or dealer in, nylon wastes shall hereafter mix any nylon waste created by him, or received or held by him, as the case may be, with any other waste material to form a mixture which does not qualify as nylon waste because of the nylon content thereof.

(j) *Inventory and other reports.* Any generator of, processor of, or dealer in, nylon wastes having in his possession on November 2, 1942, an amount of nylon wastes in excess of 50 pounds, shall file with the War Production Board on Form PD-703 an inventory, receipts and distribution record for the month of October, 1942, and for each month thereafter; and any such generator, processor or dealer who subsequently has in his possession an amount of nylon wastes in excess of 50 pounds shall file such record for the month in which he first has such amount in his possession, and for each month thereafter. Copies of Form PD-703 may be obtained on application to the Textile, Clothing and Leather Branch, War Production Board, Washington, D. C., Reference: M-247.

(3) "Manufacturer" means any person engaged in the business of producing drums and/or any metal part thereof (other than flanges, plugs or cap seals) for sale to others or for his own use in packing products of any kind.

(b) *Restrictions on deliveries and receipts.* (1) On and after the 16th day of November, 1942, no manufacturer shall sell or deliver any new drum or any metal part thereof (other than flanges, plugs or cap seals) except pursuant to purchase order accompanied by the authorization of the Director General for Operations provided for in paragraph (c) below.

(2) On and after the 16th day of November, 1942, no person shall receive or accept delivery of any new drum or any metal part thereof (other than flanges, plugs or cap seals) if he knows or has reason to believe that the delivery of such drum is prohibited by the terms of subparagraph (1) of this paragraph (b).

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[Supplementary Order 24]

PACKAGED CHRISTMAS GIFTS

A statement of the reasons for this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, *It is hereby ordered:*

§ 1305.28 *Determination of maximum prices for wholesale and retail sales of packaged Christmas gifts.* (a) This Supplementary Order No. 24 provides temporary rules for determining the maximum prices for sales at wholesale or retail of articles which have been "specially packaged" for the 1942 Christmas season by the manufacturer, producer, processor, or fabricator (but not by any retailer or wholesaler). These rules shall not be applied to sales which take place after January 15, 1943.

(1) *Rule 1.* The maximum price for the contents and packaging shall be the maximum price, or the sum of the maximum prices, established by any applicable "price regulation" or regulations for the article or articles in the package if (i) the packaging consists primarily of "paper or ordinary cardboard", or both, and (ii) the article or articles contained in the package are regularly sold by the seller in seasons other than the Christmas season (for example, cigarettes, ties, socks, handkerchiefs, etc.).

(2) *Rule 2.* The package and its contents may be treated as a single commodity and its maximum price determined in accordance with the pricing provisions of section 3 (a) of the General Maximum Price Regulation[1] if (i) the packaging consists of material other than paper or ordinary cardboard, and is of a type which would normally carry a combined price for the contents and packaging higher than the price at which the contents would be sold without special packaging, or if (ii) the package contains an article or articles all or any of which are not regularly sold by the "seller" in seasons other than the Christmas season. The price so determined shall be subject to adjustment at any time by the Office of Price Administration but it need not be reported as required in the case of other commodities priced under section 3 (a) of the General Maximum Price Regulation. For the convenience of sellers the pricing provisions of section 3 (a) are here repeated:

> The seller (1) shall select from the same general classification and price range as the commodity being priced under this section, the comparable commodity for which a maximum price is established under section 2 of this regulation and of which the seller delivered the largest number of units during March 1942; (2) shall divide his maximum price for that commodity by his *replacement cost* of that commodity; and (3) shall multiply the percentage so obtained by the cost to him of the commodity being priced under this paragraph. The resulting figure shall be the maximum price of the commodity being priced.

(b) *Combination sales.* No price regulation or interpretative ruling issued by the Office of Price Administration which prohibits a seller from requiring a purchaser to buy one or more other articles as a condition of buying a particular article shall be construed to require any seller to sell separately articles which have been specially packaged in combination for Christmas gifts by the manufacturer, producer, processor, or fabricator.

(c) *Records.* Any seller determining maximum prices pursuant to Rule 2 shall keep and preserve for examination by any duly authorized representative of the Office of Price Administration detailed records showing the manner in which he calculated his maximum prices thereunder.

(d) This order shall not apply to any sales of "Nylon hosiery", either alone or in combination with other articles.

(e) *Definitions.* (1) "Nylon hosiery" means any women's full length hosiery in which (i) the leg or (ii) the leg and some portion of the stocking in addition to the leg, is made in whole or in part of nylon yarn.

(2) "Paper or ordinary cardboard" includes paper or cellophane with or without decoration or coloring and any box made of ordinary cardboard in sheets. It does not include cardboard boxes of expensive construction which purchasers would recognize as adding materially to the price of the article in the box, nor does it include papier mâché or cardboard which has been specially shaped or molded.

(3) "Price regulation" means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, as amended, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any order issued pursuant to any such regulation or schedule.

(4) "Replacement cost" shall be the net price paid by the seller after May 18, 1942, or the net price which the seller would have to pay to replace such commodity after such date.

(5) "Seller" means a person making a sale at wholesale or retail as defined in the General Maximum Price Regulation.

(6) "Specially packaged" means the state of being packaged especially for the 1942 Christmas season in a manner substantially different from that employed for other selling seasons.

(f) This Supplementary Order No. 24 (§ 1305.28) shall become effective November 2, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.)

Issued this 30th day of October 1942.

Administrator.

[MPR 252]

VINEGAR CURED HERRING

In the judgment of the Price Administrator, the determination of maximum prices for processors of vinegar cured herring under the General Maximum Price Regulation[1] has resulted and will result in maximum prices which will not be generally fair and equitable as applied to the 1942 pack and subsequent packs and which will seriously impair the distribution of such commodity. The Price Administrator has ascertained and given due consideration to the prices of vinegar cured herring prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as is practicable, the Price Administrator has advised and consulted with representative

members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below the average prices of such commodities in the year 1941.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 as amended, and Executive Order No. 9250, and in accordance with Procedural Regulation No. 1,[2] Maximum Price Regulation No. 252 is hereby issued.

AUTHORITY: §§ 1364.301 to 1364.313, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1364.301 *Prohibition against dealing in vinegar cured herring at prices above the maximum.* On and after November 4, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver any cured herring or vinegar cured herring, and no person in the course of trade or business shall buy or receive any cured herring or vinegar cured herring at prices higher than the maximum prices established pursuant to this Maximum Price Regulation No. 252; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of cured herring or vinegar cured herring to a purchaser if, prior to November 4, 1942, such cured herring or vinegar cured herring have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1364.302 *First processor's maximum prices for cured herring.* The first processor's maximum price per barrel, f. o. b. point of production, for cured herring sold or delivered to a final processor shall be the number of pounds per barrel multiplied by 8.61 cents per pound.

§ 1364.303 *Final processor's maximum prices for vinegar cured herring.* (a) The final processor's maximum prices per unit, f. o. b. manufacturing plant, for each kind, grade, type, or style of pack, or container size of vinegar cured herring shall be the sum of the following items:

(1) The cost per unit of cured herring, computed on the basis of the maximum prices chargeable for cured herring under § 1364.302 of this Maximum Price Regulation No. 252;

(2) The remainder after subtracting the 1941 average cost per unit of cured herring f. o. b. point of production for each kind, grade, type or style of pack or container size of vinegar cured herring, which the seller sold or delivered between September 15, 1941, and January 1, 1942, from the weighted average price per unit, obtained by dividing the gross receipts from sales of the same kind, grade, type or style of pack, or container size of vinegar cured herring, by the total number of units of such kind grade, type or style of pack, or container size of vinegar cured herring which the seller sold or delivered between September 15, 1941, and January 1, 1942. The weighted average price for each separate class of purchasers shall be computed separately;

(3) The remainder after subtracting the 1941 cost of ingredients (other than herring) and packaging materials, per unit, for vinegar cured herring of the same kind, grade, type or style of pack, and container size, from the August, 1942, cost of ingredients (other than herring) and packaging materials per unit: *Provided,* That no allowance for ingredients (other than herring) or packaging materials shall be made in excess of the maximum prices chargeable for such ingredients or packaging materials under the applicable price schedule, regulation or order issued by the Office or Price Administration;

(4) The remainder after subtracting the 1941 cost of direct labor employed in final processing and packing, per unit, for vinegar cured herring of the same kind, grade, type or style of pack, or container size, from the current cost of direct labor employed in final processing and packing, per unit: *Provided,* That no allowance for cost of direct labor shall be made in excess of 6 percentum of the direct labor cost per unit for vinegar cured herring of the same kind, grade, type or style of pack, or container size in 1941.

§ 1364.304 *Conditional agreements.* No person dealing in cured herring or vinegar cured herring shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by §§ 1364.302 or 1364.303, in the event that this Maximum Price Regulation No. 252 is amended or is determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment has been duly filed, and such petition requires extensive consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment.

§ 1364.305 *Export sales.* The maximum price at which a person may export vinegar cured herring shall be determined in accordance with the Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.

§ 1364.306 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 252 may be charged, demanded, paid or offered.

§ 1364.307 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 252 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to cured herring or vinegar cured herring, alone or in conjunction with any other commodity or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement or other trade understanding, or by changing the selection or style of processing or the packaging of cured herring or vinegar cured herring.

§ 1364.308 *Records and reports.* (a) Every first processor making a sale of cured herring, or otherwise dealing therein, after November 3, 1942, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such sale or transaction, showing the date thereof, the name and address of the buyer or recipient, the price contracted for or received, and the quantity sold or delivered.

(b) Every final processor shall file with the Office of Price Administration, Washington, D. C., on or before December 3, 1942, a statement certified under oath or affirmation showing:

(1) The gross receipts from sales or deliveries between September 15, 1941, and January 1, 1942, inclusive of each kind, grade, type, or style of pack, or container size of vinegar cured herring, separately stated for each separate class of purchasers;

(2) The total number of units of each kind, grade, type, or style of pack, or container size of vinegar cured herring, sold or delivered between September 15, 1941, and January 1, 1942, inclusive, separately stated for each separate class of purchasers;

(3) The weighted average price for each kind, grade, type, or style of pack, or container size of vinegar cured herring sold to each separate class of purchasers obtained by dividing the gross receipts figures reported under subparagraph (1) by the corresponding unit figures reported under subparagraph (2);

(4) An itemized statement in full detail of the cost per unit of ingredients, packaging materials, and direct labor, employed in final processing and packing of each kind, grade, type or style of pack, or container size of vinegar cured herring in 1941 and in 1942.

(c) Every processor subject to this Maximum Price Regulation No. 252 shall (1) preserve for examination by the Office of Price Administration all his existing records which were the basis for the computations required by § 1364.308, and (2) preserve all records of the same kind as he has customarily kept, relating to the prices which he charged for cured herring or vinegar cured herring sold on or after November 4, 1942, and (3) file

Any person who claims that substantial injury would result to him from making such statement available to any other person shall so notify the appropriate field office of the Office of Price Administration. § 1364.310 *Petitions for amendment.* Persons seeking modification of any provision of this Maximum Price Regulation No. 252 may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

1364.311 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 252 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation.

§ 1364.312 *Definitions.* (a) When used in this Maximum Price Regulation No. 252 the term:

(1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor or representatives of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(3) "Vinegar-cured herring" means cured herring further processed by pickling in a solution of vinegar, and sugar with the addition of spices or other ingredients and repacked in jars, pails, or other containers customary in the trade. By way of enumeration but not of limitation, vinegar-cured herring includes the commodities sold under the trade designations cut lunch, gaffelbitar, sprats, rollmopse, tidbits, hamburg spiced herring, bismark herring, appetite herring, whole spiced herring, vincure herring, fillets, and sill-bitar.

(4) "First processor" means any person who manufactures cured herring for sale to a final processor.

(5) "Final processor" means any person who manufactures vinegar-cured herring.

(6) "Unit" means jar, pail, or other container in which vinegar-cured herring is packaged for distribution to consumers. Aggregates of units, such as dozens or cases, shall not be deemed units for the purpose of computation and reporting under § 1364.303 and § 1364.308 of this regulation.

(7) "Purchaser of the same class" refers to the practice adopted by the final processor in setting different prices for vinegar cured herring for sales to jobbers and to retailers or for different quantities or under different conditions of sale: *Provided,* That persons purchasing for sale at retail, such as chain stores, if members of a class which a seller treated in sales during 1941 as jobbers, shall continue to be treated as jobbers rather than as retailers.

(8) "Appropriate field office of the Office of Price Administration" means the district office for the district (or in the absence of such district office, the state office for the State) in which is located the seller's place of business from which his sales are made.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

PART 1397—CONSTRUCTION OF BUILDINGS AND STRUCTURES

[MPR 251]

CONSTRUCTION AND MAINTENANCE SERVICES AND SALES OF BUILDING AND INDUSTRIAL EQUIPMENT AND MATERIALS ON AN INSTALLED OR ERECTED BASIS

In the judgment of the Price Administrator it is necessary and proper to establish a method of determining maximum prices for sales of construction and maintenance services and building and industrial equipment and materials on an installed or erected basis which differs, in some respects, from the method of computing maximum prices established therefor by the General Maximum Price Regulation. So far as practicable, the Price Administrator has advised and consulted with representative members of the industries which will be affected by this regulation.

The maximum prices established by this regulation, in the judgment of the Price Administrator, will be fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 251 is hereby issued.

The margin determined hereunder must be supported by records, or other competent evidence, of previous transactions occurring during the base period. These records and evidence must be produced on request of the Office of Price Administration.

(b) Within ten days after entering into any cost-plus contract subject to this Maximum Price Regulation No. 251, the seller shall submit to the nearest district, state, or regional office of the Office of Price Administration a report setting forth a description of the job, an estimate of the costs and a statement of the percentage margin or, in the case of a cost-plus-a-fixed-fee contract, the estimated margin in dollars and cents, as set forth in § 1397.56 (a) (1) to (4) above, and an indication of the items of overhead included therein.

(4) An estimated reserve for such contingencies as the seller in good faith can reasonably foresee.

(5) A margin to include administrative, supervisory, and overhead costs and profit not in excess of such percentage of one or more of the other estimated costs enumerated in the subparagraphs (1), (2), (3), and (4) of this section as (i) constituted the seller's highest margin similarly calculated during the base period January 1, 1939, to March 31, 1942, on the most comparable sale involving the same type of work, or (ii) if the margin cannot be determined under (i), a margin which would have constituted the seller's margin similarly calculated in March 1942, on a comparable sale involving the same type of work and based on the seller's own general experience, and the experience of the industry on such comparable sales.

The margin determined hereunder must be supported by records, or other competent evidence, of previous transactions occurring during the base period. These records and evidence must be produced on request of the Office of Price Administration.

A duplicate of this certificate shall be filed with the nearest district, state, or regional office of the Office of Price Administration.

[Order 113 Under § 1499.3 (b) of GMPR]

ROCKINGHAM SHOE CO.

Maximum Prices Authorized Under § 1499.3 (b) of the General Maximum Price Regulation—Order No. 113.

Rockingham Shoe Company, New Market, New Hampshire, made application pursuant to § 1499.3 (b) of the General Maximum Price Regulation for an authorization to determine maximum prices for two new women's shoes. Due consideration has been given to the application and it appears that the new shoes cannot be priced by the seller under § 1499.2 of the General Maximum Price Regulation. For the reasons set forth in an opinion in support of this order, which has been issued simultaneously herewith and has been filed with the Division of the Federal Register and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with § 1499.3 (b) of the General Maximum Price Regulation, *It is hereby ordered:*

§ 1499.977 *Approval of method of determining maximum prices of two new shoes for Rockingham Shoe Company, New Market, New Hampshire.* (a) Rockingham Shoe Company is hereby authorized to determine the maximum price for two new styles of women's shoes in the following manner:

(1) From the same general classification as the new shoe it shall select as a base shoe a shoe which has the March 1942 total direct labor and material cost nearest to the calculated March 1942 total direct labor and material cost of the new shoe, which has a price established under § 1499.2 of the General Maximum Price Regulation, and of which a substantial number of units was delivered in March 1942. If there is no shoe of the same general classification, it shall select as a base shoe the shoe which is in the March 1942 total material and direct labor cost range nearest to the calculated March 1942 total material and direct labor cost of the new shoe, and of which it delivered a substantial number of units during March 1942.

(2) It shall divide the maximum price for the base shoe by the total March 1942 material and direct labor cost thereof;

(3) It shall multiply the percentage so obtained by the total material and direct labor cost of the new shoe figured on a March 1942 basis;

(4) It shall then subtract the total March 1942 material and direct labor cost of the base shoe from the maximum selling price thereof; and

(5) Add the total March 1942 material and direct labor cost of the new shoe to the figure so obtained.

(6) The lower of the two results (operation 3 or 5) is the maximum price for the new shoe to a purchaser of the same class as that to which the price of the base shoe applies.

(b) The costs to be used in computing the above mentioned formula are to be compiled by filling out the following report, Form GMPR: 6:

GENERAL INSTRUCTIONS

Schedule I of this report is used to summarize the maximum selling price and the total March material and direct labor cost of (1) the "new" shoe being priced and of (2) the "base" shoe used for comparison. The information required for this comparison is detailed in Schedules II and III, which show specifications and direct manufacturing costs of both shoes.

SCHEDULE I

Instructions: In answering Schedule I, the following point must be noted: Although you did not manufacture the "new" shoe in March 1942, you must refer to your March 1942, direct labor and material costs in pricing the "new" shoe. You must calculate the cost of producing the new shoe using the March 1942, costs which will be detailed in Schedule III.

From the same general classification as the "new" shoe, select as a base shoe a shoe: (1) Which has the March, 1942 total direct labor and material cost nearest to the calculated March, 1942 total direct labor and material cost of the new shoe; (2) which has a price established under Section 2 of the GMPR; and (3) of which a substantial number of units was delivered in March 1942.

If there is no shoe of the same general classification, select as a base shoe the shoe: (1) Which is in the March 1942 total material and direct labor cost range nearest to the calculated March 1942 total material and direct labor cost of the new shoe; and (2) of which you delivered a substantial number of units in March 1942.

Supply the information requested below for both the "base" shoe and the "new" shoe.

1. Stock number of the base shoe used for comparison
2. Description of the base shoe
3. Stock number of the "new" shoe for which a maximum price is reported
4. Description of the "new" shoe
5. Price and cost comparison:

Maximum selling price of base shoe (1)	Total March material and direct labor cost per pr. of base shoe[1] (2)	Mark-up		Total March material and direct labor cost per pr. of new shoe[1] (5)	Column 3 times column 5 (6)	Column 4 plus column 5 (7)
		Percent (col. 1 divided by col. 2) (3)	Dollar (col. 1 minus col. 2) (4)			

[1] Enter the March, 1942, total material and direct labor cost from Schedules II and III.

6. Maximum selling price of new shoe $ (enter the lower of the two results shown in columns (6) and (7).)

Example

Divide your maximum price for the base shoe (column 1) by the total March 1942, material and direct labor cost of that shoe (column 2). The result is to be inserted in column (3). Multiply the percentage so obtained (column 3) by the total March 1942, material and direct labor cost of the shoe being priced (column 5). The result is to be inserted in column (6).

Subtract your total March 1942, material and direct labor cost of the base shoe (column 2) from the maximum selling price of that shoe (column 1). The result so obtained is to be placed in column 4. Add the total March 1942, material and direct labor cost of "new" shoe (column 5) to the dollar mark-up (column 4). The sum is to be placed in column (7).

Your maximum selling price of the "new" shoe is the lower of the two results shown in columns (6) and (7).

Example

Maximum selling price of base shoe (1)	Total March material and direct labor cost per pr. base shoe[1] (2)	Mark-up		Total March material and direct labor cost per pr. of new shoe[1] (5)	Column 3 times column 5 (6)	Column 4 plus column 5 (7)
		Percent (col. 1 divided by col. 2) (3)	Dollar (col. 1 minus col. 2) (4)			
$2.40	$1.70	141.2%	$0.70	$2.25	$3.177	$2.95

Maximum selling price of new shoe $2.95.

PART 1341—CANNED AND PRESERVED FOODS

[MPR 226, Amendment 1]

FRUIT PRESERVES, JAMS AND JELLIES

A statement of the considerations involved in the issuance of Amendment No. 1 to Maximum Price Regulation No. 226 has been issued and filed with the Division of the Federal Register.*

Section 1341.302 (b) (1) is amended by adding the following sentence: "Sales made prior to this period shall not be included, even though delivery was made during the period."

Section 1341.302 (b) (7) (ii) (b) is amended by inserting the figure "$6.50" as the maximum permitted increase per ton for apples and crabapples in place of the words "To be announced".

The following sections are added:

§ 1341.309a *Information which packers must give their customers*—(a) *Notice from packers to wholesalers.* In the case of any item of fruit preserves, jams or jellies which is being sold by a packer to a wholesaler for the first time after the packer's maximum price for it has been established under §§ 1341.302 or 1341.303, the packer shall send the wholesaler (before or at the time of delivery) a written statement which lists for each such item included in the sale (1) the weighted average price charged by the packer during the month of December 1941, called the "base price", (2) the packer's maximum price, as calculated under the provisions of this regulation, called the "maximum price", and (3) the amount of the difference between the "base price" and the "maximum price", called the "wholesaler's permitted increase". When any packer has established a maximum price by taking the maximum price of his competitor, as provided in § 1341.303 (a), his base price shall be the base price of the competitor. When any packer asks for special authority to determine a maximum price under § 1341.303 (b), the Office of Price Administration will instruct him how to determine his base price. When calculating the "wholesaler's permitted increase", the packer shall adjust any fraction of a cent to the nearest fractional unit in which the wholesaler customarily quotes prices for the item.

(b) *Notice from packers to retailers*—(1) *General package requirement.* Every packer who sells any item of fruit preserves, jams or jellies during the 90-day period beginning November 6, 1942, whether to a wholesaler or a retailer, shall include with the shipping case (or other package unit in which the retailer usually purchases the product) a "Notice of Retailer's Permitted Increase". This notice must be either pasted or stamped on the outside of each shipping case sold or printed on a slip and enclosed. In the latter case the packer shall place this statement on the outside: "Retailer's Notice Enclosed". The packer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the packer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Except for the proper insertion, the Notice of Retailer's Permitted Increase shall read as follows:

NOTICE OF RETAILER'S PERMITTED INCREASE

Your new OPA ceiling price for the enclosed item is your March ceiling price *plus* ______ cents per retail container. OPA requires you to keep this information for examination.

(2) *First sales directly to retailers; where notices do not accompany packages.* In the case of any item of fruit preserves, jams or jellies which is being sold by a packer to any retailer for the first time after the packer's maximum price for it has been established under §§ 1341.302 or 1341.303 and which for any reason is being sold in a form which does not include a packer's Notice of Retailer's Permitted Increase, the packer shall send the retailer (before or at the time of delivery) a written statement that (i) clearly identifies each such item included in the sale and (ii) states the "permitted increase" for it which the retailer is directed to add to his maximum price as established under the General Maximum Price Regulation. When preparing the statement the packer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the packer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Each statement shall be accompanied by this notice:

> Your new OPA ceiling price for each item noted is your March ceiling price *plus* the permitted increase shown per retail container. OPA requires you to keep this information for examination.

This statement may also contain similar information for any other items covered by this regulation even though they are not included in the sale.

(b) Amendment No. 1 (§§ 1341.302 (b) (1), 1341.302 (b) (7) (ii) (b), 1341.309a, and 1341.317) to Maximum Price Regulation No. 226 shall become effective on November 6, 1942.

Authority: §§ 1351.701 to 1351.716, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1351.701 *Purposes of Maximum Price Regulation No. 255.* Maximum Price Regulation No. 255 is issued to establish maximum wholesale prices for certain food products at levels which will permit their distribution through the normal trade channels. In most cases wholesale price increases have been necessary because of upward price adjustments which various maximum price regulations have made at the processor level. In some cases the necessary wholesale adjustments have already been made in separate commodity regulations. By including such adjustments, this regulation covers in unified form all wholesale food adjustments in which wholesalers, by modifying their prices under the General Maximum Price Regulation,[1] are permitted to take account of the individual price increases which have already been allowed to processors and of which the processors are required to give them written notice.

§ 1351.702 *Prohibition against selling and buying above maximum prices.* (a) On and after November 6, 1942, regardless of any contract or obligation, no wholesaler shall sell or deliver an item of any food product at a price higher than the maximum price established for it by this Maximum Price Regulation No. 255. No person shall buy or receive an item of any food product from a wholesaler in the course of trade or business at a price higher than the maximum price established for it by this regulation. Nor shall any person agree, offer, solicit or attempt to do any of these things.

(b) However, prices lower than maximum prices may be charged and paid.

§ 1351.703 *Wholesaler's maximum prices for certain listed foods*—(a) *Maximum price rule.* For each item of the food products listed in paragraph (d), the wholesaler's maximum price to any class of purchasers shall be his "base price" plus his "permitted increase" (all per dozen or other customary wholesale selling unit).

(b) "Base price" means the wholesaler's maximum price as calculated under the General Maximum Price Regulation, except that for the purposes of this calculation the wholesaler shall substitute the base month named with the food product in paragraph (d) for the words "March 1942" wherever they appear in that regulation. With this qualification, the wholesaler shall use every pricing method provided by the General Maximum Price Regulation which may be necessary to establish a base price for the item.

(c) "Permitted increase" means the amount which the wholesaler's supplier is required to report to him under the maximum price regulation applicable to the supplier. Where there is more than one supplier the wholesaler shall take as his permitted increase the amount reported to him by the supplier who by the time the wholesaler is establishing his maximum price has delivered to him the largest total amount of that item from the 1942 pack. Exceptions: (1) For Hawaiian canned pineapple and Hawaiian canned pineapple juice the wholesaler's permitted increase shall be the difference, f. o. b. canner's shipping point, between the canner's November 1941 list price for the item and the canner's maximum price under the General Maximum Price Regulation.

(d) This regulation shall apply to these products:

(1) Canned fruits, canned berries and canned juices, whether packed in tin, glass or any other hermetically sealed container, as follows, using February 1942 as the base month:

Fruits. Apricots, cherries, red sour pitted, cherries, sweet, figs, fruit cocktail, fruits for salad, peaches, clingstone (including clingstone nectarines), peaches, freestone (including freestone nectarines), pears, Hawaiian pineapples, plums, prunes, fresh.

Berries. Blackberries, blueberries, Boysenberries, cranberries, gooseberries, huckleberries, loganberries, raspberries, black, raspberries, red, strawberries, Youngberries.

Juices. Fruit juices and nectars, plain or mixed, made from any of the fruits listed in this subparagraph. Berry juices made from any of the berries listed in this subparagraph.

(2) Frozen fruits, berries and vegetables, using March 1942 as the base month, except that for sales to institutional purchasers October 1941 shall be taken as the base month.

(3) Fruit preserves, jams and jellies, using February 1942 as the base month.

(4) Apple butter, using February 1942 as the base month.

(5) Canned shrimp, using March 1942 as the base month.

(6) Domestic canned crabmeat, No. ½ flats, using March 1942 as the base month.

§ 1351.704 *Customary allowances and discounts.* No wholesaler shall change any customary allowance, discount, or other price differential to a class of purchasers if the change results in a higher net price to that class of purchasers.

§ 1351.705 *When maximum prices may be established or changed under § 1351.703*—(a) *What must be done before a maximum price may be established.* No wholesaler may establish a maximum price for any item under § 1351.703 until he has received delivery of a customary amount of the item after this Maximum Price Regulation No. 255 has become applicable to it. To this extent the regulation shall be considered as having been in effect since August 5, 1942, for canned fruits, berries and juices; August 28, 1942, for frozen fruits, berries and vegetables; September 24, 1942, for canned shrimp; October 30, 1942, for domestic canned crabmeat.

(b) *When a maximum price is established.* On and after November 6, 1942, a maximum price becomes "established" (that is, fixed) for any wholesaler as soon as he has either filed a price for the item or disclosed it to any prospective customer, whether by sale, delivery, offer or notice of any kind. A maximum price may be established only once and having been established it may not be changed except with the written permission of the appropriate field office of the Office of Price Administration in cases of clerical error or other formal mistake.

(c) *What price becomes established as the maximum price.* The price which is established in this way as the wholesaler's maximum price is the one which he filed or disclosed. In most cases the maximum price so established will be the price which the wholesaler computed under § 1351.703. However, in some instances the wholesaler may want to disclose a *lower* price than the one which he computed and at the same time save his right to sell at the higher figure. He can establish the higher price as his ceiling price at the time of disclosure only by recording and naming it as such, in ink on his books, before he discloses the lower price.

§ 1351.706 *Information which wholesalers must give their customers*—(a) *Wholesaler's notice to retailers.* The wholesaler's obligation to notify his retailers of "permitted increases" is limited to cases in which the packer has not done so. The packer is required in some cases to include with the carton or other package unit in which the wholesaler usually handles the product a "Notice of Retailer's Permitted Increase", either stamped on the outside or printed on a slip and enclosed. In the latter case the packer is further required to indicate on the outside that such a notice has been included. In this way the wholesaler is able to determine as to any item when his own duty to notify a particular retailer exists.

In the case of any item which is being sold by a wholesaler to any retailer for the first time after the wholesaler's maximum price for it has been established under this Maximum Price Regulation No. 255 and which is being sold in a form which does not include a manufacturer's or producer's Notice of Retailer's Permitted Increase, the wholesaler shall send the retailer (before or at the time of delivery) a written statement that (1) clearly identifies each such item included in the sale and (2) states the "permitted increase" for it which the retailer is directed to add to his maximum price as established under the General Maximum Price Regulation. When preparing the statement the wholesaler shall calculate the retailer's permitted increase for each item by reducing his own permitted increase under § 1351.703, where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the wholesaler shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Each statement shall be accompanied by this notice:

Although this regulation requires no special form for listing items and permitted increases, an example of an approved form which may be helpful to many wholesalers is set forth below. The particular example given happens to be one for fruit preserves, jams and jellies, but the item columns may readily be redrawn and renamed to fit any of the other products covered by this regulation.

(b) *Notice to wholesalers.* In the case of any item which is being sold by a wholesaler to any other wholesaler to whom he customarily sells, for the first time after the seller's maximum price for it has been established under this Maximum Price Regulation No. 255, the seller shall send the buyer (before or at the time of delivery) a written statement that (1) clearly identifies each item included in the sale for which the seller has determined a maximum price under this regulation, and (2) states the permitted increase which the purchaser is entitled in each case to add when computing his maximum price under § 1351.703. This permitted increase shall be the same permitted increase which was reported to the seller by his supplier.

§ 1351.707 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 255 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any of the commodities covered by this regulation, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

Any wholesaler who claims that he would be substantially injured by showing the statement or any notice to another person may file it with the appropriate field office of the Office of Price Administration. The information will not be shown to anyone unless withholding it would be contrary to the purposes of this regulation.

(b) *Current records.* Every wholesaler selling any food product covered by this regulation shall keep for examination by the Office of Price Administration records of the same kind as he has customarily kept relating to the prices which he charged for each such food product that he sells after this regulation becomes applicable to it.

(c) *Reports.* Within 30 days after making his first sale of any item subject to this regulation each wholesaler shall prepare a written statement showing for the item and each class of purchaser (1) his base price, (2) his permitted increase, and (3) his maximum price, all as determined under § 135 .703, and he shall file the statement with the nearest District Office or, in the absence of a District Office, the nearest State Office of the Office of Price Administration. The statement may also contain similar information for any other items covered by this regulation even though they are not required to be filed at that time. It shall be in the following form:

§ 1351.851 *Purposes of Maximum Price Regulation No. 256.* Maximum Price Regulation No. 256 is issued to establish maximum retail prices for certain food products at levels which will permit their distribution through the normal trade channels. In most cases retail price increases have been necessary because of upward price adjustments which various maximum price regulations have made at the processing and wholesale levels. In some cases the necessary retail adjustments have already been made in separate commodity regulations. By including such adjustments, this regulation covers in unified form all retail food adjustments in which retailers, by modifying their prices under the General Maximum Price Regulation,[1] are permitted to take account of the individual price increases which have already been allowed to processors and wholesalers and of which the processors or wholesalers are required to give them written notice.

§ 1351.852 *Prohibition against selling and buying above maximum prices.* (a) On and after November 6, 1942, regardless of any contract or obligation, no retailer shall sell or deliver an item of any food product at a price higher than the maximum price established for it by this Maximum Price Regulation No. 256. No person shall buy or receive an item of any food product from a retailer in the course of trade or business at a price higher than the maximum price established for it by this regulation. Nor shall any person agree, offer, solicit or attempt to do any of these things.

(b) However, prices lower than maximum prices may be charged and paid.

§ 1351.853 *Retailer's maximum prices for certain listed foods*—(a) *Maximum price rule.* For each item of the food products listed in paragraph (b) the retailer's maximum price to any class of purchasers shall be (1) his maximum price under the General Maximum Price Regulation, plus (2) the amount reported by his supplier or by the manufacturer or producer as his "permitted increase" (all per retail container).

(b) This method of calculating the retailer's maximum prices shall apply to these products:

(1) Canned fruits, berries and juices, whether packed in tin, glass or any other hermetically sealed container, as follows:

Fruits. Apricots, cherries, red sour pitted, cherries, sweet, figs, fruit cocktail, fruits for salad, peaches, clingstone (including clingstone nectarines), peaches, freestone (including freestone nectarine), pears, Hawaiian pineapples, plums, prunes, fresh.

Berries. Blackberries, blueberries, Boysenberries, cranberries, gooseberries, huckleberries, loganberries, raspberries, black, raspberries, red, strawberries, Youngberries.

Juices. Fruit juices and nectars, plain or mixed, made from any of the fruits listed in this subparagraph. Berry juices made from any of the berries listed in this subparagraph.

(2) Frozen fruits, berries and vegetables.

(3) Fruit preserves, jams and jellies.

(4) Apple butter.

(5) Canned shrimp.

(6) Domestic canned crabmeat, No. ½ flats.

(c) If the retailer has more than one supplier of the item, he shall add only the permitted increase reported by the supplier who by the time the retailer is establishing his maximum price has delivered to him the largest amount of that item from the 1942 pack.

§ 1351.854 *Customary allowances and discounts.* No retailer shall change any customary allowance, discount, or other price differential to a class of purchasers if the change results in a higher net price to that class of purchasers.

§ 1351.855 *When maximum prices may be established or changed under § 1351.853*—(a) *What must be done before a maximum price may be established.* No retailer may establish a maximum price for any item under § 1351.853 until he has received delivery of a customary amount of the item after this Maximum Price Regulation No. 256 has become applicable to it. To this extent the regulation shall be considered as having been in effect since August 5, 1942, for canned fruits, berries and juices; August 28, 1942, for frozen fruits, berries and vegetables; September 24, 1942, for canned shrimp; October 30, 1942, for domestic canned crabmeat.

(b) *When a maximum price is established.* On and after November 6, 1942, a maximum price becomes "established" (that is, fixed) for any retailer as soon as he has either filed a price for the item or disclosed it to any prospective customer, whether by sale, delivery, offer or notice of any kind. A maximum price may be established only once and having been established it may not be changed except with the written permission of the appropriate field office of the Office of Price Administration in cases of clerical error or other formal mistake.

(c) *What price becomes established as the maximum price.* The price which is established in this way as the retailer's maximum price is the one which he filed or disclosed. In most cases the maximum price so established will be the price which the retailer computed under § 1351.853. However, in some instances the retailer may want to disclose a *lower* price than the one which he computed and at the same time save his right to sell at the higher figure. He can establish the higher price as his ceiling price at the time of disclosure only by recording and naming it as such, in ink on his books, before he discloses the lower price.

§ 1351.856 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 256 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any of the commodities covered by this regulation, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1351.857 *Enforcement.* Any person violating a provision of this Maximum Price Regulation No. 256, is subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942.

§ 1351.858 *Reports of retailers.* After making his first sale of any cost-of-living item subject to this regulation each retailer shall prepare a written statement showing for the item and each class of purchaser (a) his maximum price under the General Maximum Price Regulation, (b) his permitted increase, and (c) his maximum price under this regulation; and he shall file the statement with the appropriate War Price and Rationing Board by the 10th day of the following month. The statement may also contain similar information for any other cost-of-living items covered by this regulation even though they are not required to be filed at that time. It shall be in the following form:

The retailer shall keep a true copy of each statement for examination by any person during ordinary business hours.

PART 1379—SMALL ARMS AND PARTS

[MPR 254]

NEW SMALL FIREARMS AND FIREARM PARTS

By Limitation Order No. L-60 the War Production Board prohibited sales of new small firearms, shotguns, rifles and firearm parts to the general public during the month of March 1942. As a consequence the General Maximum Price Regulation, under which maximum prices are ascertained primarily by reference to prices charged during that month, does not provide an adequate method for establishing the maximum prices of new small firearms. In the judgment of the Price Administrator it is necessary, in order to effectuate the purposes of the Emergency Price Control Act of 1942, to establish for sales of new small firearms, the maximum prices provided by this Maximum Price Regulation No. 254.

In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation are generally fair and equitable. So far as practicable, the Price Administrator has given due consideration to prices prevailing between October 1 and October 15, 1941, and to relevant factors of general applicability. So far as practicable, the Price Administrator has consulted with representatives of the industry which will be affected by this Maximum Price Regulation No. 254.

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 254 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 254 is hereby issued:

AUTHORITY: §§ 1379.1 to 1379.14, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

NOTE: Unless the context otherwise requires, the definitions set forth in § 1499.20 of the General Maximum Price Regulation[2] shall apply to the terms used herein. The terms so defined are italicized the first time they appear in the text.

§ 1379.1 *Prohibition against dealing in firearms or firearm parts above the maximum prices on and after November 6, 1942, regardless of any contract or other obligation.* (a) No *person* shall *sell* or deliver any firearm or firearm part at a price higher than the maximum price permitted by this Maximum Price Regulation No. 254; and

(b) No person in the course of trade or business shall buy or receive any firearm or firearm part at a price higher than the maximum price permitted by this Maximum Price Regulation No. 254.

§ 1379.2 *Maximum prices for firearms and parts in the manufacturer's price list in effect January 10, 1942.* The maximum price for a firearm or a firearm part which was in the manufacturer's price list in effect January 10, 1942, shall be:

(a) For sales by manufacturers, the price set forth in the manufacturer's price list, in effect January 10, 1942, as the price for a sale by the manufacturer to a *purchaser of the same class;*

(b) For sales by distributors, the price set forth in the manufacturer's price list, in effect January 10, 1942, as the price suggested for sales by distributors to a purchaser of the same class;

(c) For sales by retailers, the price set forth in the manufacturer's price list, in effect January 10, 1942, as the price suggested for sales by retailers.

Notification to retailers. Every person delivering to a purchaser for *sale at retail* a firearm or part for which a maximum price is established by § 1379.2 (c) of this Maximum Price Regulation No. 254, shall, at or prior to the first invoice to such purchaser after November 16, 1942, furnish such purchaser with a copy of the price list in effect on January 10, 1942, which contains the suggested price for sales at retail. Such list shall be accompanied by the following statement:

> The suggested retail prices in the enclosed price list are your maximum selling prices under Maximum Price Regulation No. 254. You may not charge more than these prices for any firearm or part listed.

§ 1379.3 *Maximum prices for firearms and parts which cannot be priced under § 1379.2, other than new firearms and parts covered by § 1379.4.* The seller's maximum price for any firearm or firearm part which cannot be priced under § 1379.2, other than a new firearm or part covered by § 1379.4, shall be:

(a) If the seller dealt in the same firearm or firearm part during the 30-day period which ended January 10, 1942, the highest price charged by the seller during such period for the same firearm or part.

(b) If the seller did not deal in the same firearm or part in the 30-day period which ended January 10, 1942, the highest price charged during such period for the same firearm or part by the *most closely competitive seller of the same class.*

For the purposes of this Maximum Price Regulation No. 254, the highest price charged by a seller during the 30-day period which ended January 10, 1942, shall be:

(1) The highest price which the seller charged for a firearm or part *delivered* by him during the 30-day period which ended January 10, 1942, to a purchaser of the same class; or

(2) If the seller made no such delivery during the 30-day period which ended January 10, 1942, his highest *offering price* for delivery during that period to a purchaser of the same class; or

(3) If the seller made no such delivery and had no such offering price to a purchaser of the same class, the highest price charged by the seller during the 30-day period which ended January 10, 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers.

Provided, however, That if, prior to January 11, 1942, the seller raised his prices for the delivery of a firearm or part to his classes of purchasers generally, and if, during the 30-day period which ended January 10, 1942, he delivered such a firearm or part at the higher price to at least one class of purchasers, the highest price charged during the 30-day period which ended January 10, 1942, for each class of purchasers:

(i) To which no delivery was made during the 30-day period which ended January 10, 1942, at the higher price, and

(ii) To which no delivery was made during the 30-day period which ended January 10, 1942, at a lower price after the price rise, unless made pursuant to a firm commitment entered into before such price rise

shall be the seller's highest offering price for delivery to such class of purchasers during the 30-day period which ended January 10, 1942.

(c) If the seller cannot determine the maximum price under paragraphs (a) or (b) of this section, he shall calculate a maximum price as follows:

The seller shall select the most nearly comparable item currently offered for sale by him for which a maximum price is established by this Maximum Price Regulation No. 254, he shall divide his maximum price for that item by his replacement cost of that item, and shall multiply the percentage so obtained by the net cost to him of the item being priced. The resulting figure shall be the maximum price of the article being priced.

(1) "Replacement cost" shall be the net price paid by the seller after November 5, 1942, or, if the seller has not bought the same firearm or part after that date, the net price which the seller would have to pay to replace the firearm or part after that date.

(2) "Net cost" or "net price" shall be the price paid after deducting all discounts allowed, and adding transportation and delivery charges actually paid.

§ 1379.4 *Maximum prices for new firearms or parts first offered for sale by the manufacturer after January 10, 1942.* The maximum price for any firearm or firearm part first offered for sale by the manufacturer after January 10, 1942, shall be determined by the following procedure:

A manufacturer wishing to sell a firearm or part not manufactured or offered for sale by him prior to January 10, 1942, shall make application to the Office of Price Administration, Washington, D. C., for specific authorization of a maximum price. The application shall give a full description of the firearm or firearm part and a detailed explanation of the computation of its cost. It shall also give the same information for the most comparable firearm or firearm part manufactured by him for which a maximum price has already been determined under the provisions of this Maximum Price Regulation No. 254. The manufacturer shall also propose a maximum price for sales by him to each class of purchaser and shall suggest maximum prices for sales by distributors and retailers, in accordance with the customary differentials used by him prior to January 10, 1942, in suggesting resale prices. On the basis of this application, the Office of Price Administration may authorize, by order, maximum prices for sales of the firearm or part by the manufacturer, and maximum prices for the resale of such firearm or firearm part. Each seller of such a firearm or part to a person purchasing for purposes of resale shall, by a communication in writing at the time of or prior to his first invoice to each such purchaser, inform each such purchaser of the provisions of the authorization which establish maximum prices for resale of the firearm or part.

§ 1379.5 *Price differentials and credit charges.* Every seller shall continue all of his customary allowances, discounts, and other price differentials. The maximum prices established by this Maximum Price Regulation No. 254 shall not be increased by any charge for the extension of credit other than retailers' customary carrying charges for credit to the extent that they were stated and charged separately in the past.

§ 1379.6 *Relation between Maximum Price Regulation No. 254 and the General Maximum Price Regulation.* (a) The provisions of this Maximum Price Regulation No. 254 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Maximum Price Regulation No. 254, except as provided in paragraph (b) of this § 1379.6. However, the seller must comply with the provisions of the following paragraphs, which are identical, except for appropriate changes in dates and terminology, with the sections of the General Maximum Price Regulation indicated in parentheses. Any amendments to such sections of the General Maximum Price Regulation are automatically applicable to this Maximum Price Regulation No. 254.

(1) *Transfers of business or stock in trade* (§ 1499.5). If the business assets or stock in trade of any business are sold or otherwise transferred after November 6, 1942, and the transferee carries on the business, or continues to deal in the same type of commodities in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation No. 254.

(2) *Sales for export* (§ 1499.6). The maximum price at which a person may export any firearm or part shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation.[3]

(3) *Federal and state taxes* (§ 1499.7). Any tax upon, or incident to, the sale, delivery, or processing of any firearm or firearm part, imposed by any statute of the United States or statute or ordinance of any State or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such firearm or firearm part and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during the 30-day period which ended January 10, 1942.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during the 30-day period which ended January 10, 1942, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 254. (2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of the tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 254.

(b) *As to a tax or increase in a tax which becomes effective after January 10, 1942.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

(4) *Sales slips and receipts* (§ 1499.14). Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the article sold, and the price received for it.

(5) *Petitions for amendment* (§ 1499.19). Any person seeking a modification of any provision of this Maximum Price Regulation No. 254 may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

(b) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation shall apply to every person *selling at wholesale* or retail any firearm or part covered by this Maximum Price Regulation No. 254.

§ 1379.7 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 254 may be charged, demanded, paid, or offered.

§ 1379.8 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 254 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to firearms or parts, alone or in conjunction with any other commodity, by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

§ 1379.9 *Base-period records.* Every person selling firearms or firearm parts for which, upon sale by that person, maximum prices are established by this Maximum Price Regulation No. 254 shall:

(a) Preserve for examination by any person the manufacturers' price lists and catalogues of firearms and firearm parts, which were in effect on January 10, 1942, and which establish his maximum selling prices for such firearms and parts.

(b) Preserve for examination by the Office of Price Administration all his existing *records* relating to the prices which he charged during the 30-day period which ended January 10, 1942, for firearms and firearm parts the maximum prices for which are not established by reference to the manufacturers' price lists or catalogues in effect on January 10, 1942.

(c) Prepare, on or before December 5, 1942, and thereafter keep for examination by any person during ordinary business hours, a statement showing (1) his maximum prices for all firearms and parts being dealt in by him on November 6, 1942, except firearms and parts, the maximum prices for which are established by reference to the manufacturers' price lists in effect on January 10, 1942, and (2) the method by which such maximum prices were computed. Prior to first offering for sale any other firearms or parts, he shall add to such statement the same information with regard to such firearms or parts. Any person, other than a person selling at retail, who claims that substantial injury would result to him from making such statement available to any other person, may file it with the appropriate field office of the Office of Price Administration. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this Maximum Price Regulation No. 254.

§ 1379.10 *Current records.* Every person subject to this Maximum Price Regulation No. 254 shall keep and make available for examination by the Office of Price Administration records of all sales of firearms or parts made by him on and after November 6, 1942. Such records shall show the name and address of the buyer, the make, model, and identification number of the firearm or part and the price paid and received for it.

§ 1379.11 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 254 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 254 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1379.12 *Sales to United States and allied governments excepted.* This Maximum Price Regulation No. 254 shall not apply:

(a) To sales or deliveries of firearms or parts to the United States or any agency thereof or to the government of any country whose defense the President deems vital to the defense of the United States under the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," or any agency of any such government.

(b) To sales or deliveries of component parts and subassemblies of firearms exempted by paragraph (a) of this section, regardless of the person to whom sold or delivered. The term "component parts and subassemblies" includes all metallic and non-metallic component parts, adjuncts, and accessories, which have been machined or fabricated. The term does not include raw or unfinished materials or any other materials which are in such form as to permit their use in the manufacture of products other than firearms exempted under paragraph (a) of this section.

(c) To sales or deliveries of any firearm or part pursuant to a subcontract for the supply of such firearm or part for use as a component part, adjunct or accessory of a product exempted from the General Maximum Price Regulation by subparagraph (1) or (2) of § 1499.29 (a) of Revised Supplementary Regulation No. 4.[4]

§ 1379.13 *Definitions.* (a) When used in this Maximum Price Regulation No. 254, the term:

(1) "Firearm" means any new weapon of the type generally classed as small arms, including, for example, pistols, shotguns, and rifles.

(2) "Manufacturer" means a person who operates a business which fabricates or assembles a firearm or firearm part.

(3) "Distributor" means a person making sales of firearms or firearm parts at wholesale.

(4) "Retailer" means a person making sales of firearms or firearm parts at retail.

(b) Unless the context otherwise requires, the definitions set forth in § 1499.20 of the General Maximum Price Regulation and the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1379.14 *Effective date.* This Maximum Price Regulation No. 254 (§§ 1379.1 to 1379.14, inclusive) shall become effective November 6, 1942.

[Docket No. A–1665]

DISTRICT BOARD NO. 8

NOTICE OF AND ORDER FOR HEARING AND ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of District Board No. 8 for a change in mine name and seam designation for the Rennebaum Mine.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on November 24, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Cuff, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed wth the Bituminous Coal Division on or before November 19, 1942.

---

[2] 7 F.R. 8339.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a petition filed with the Division by District Board No. 8 requesting an order granting temporary and permanent relief as follows: that the mine name of Mine Index No. 3817 of Rennebaum Coal Company be changed from "Rennebaum No. 2 Mine" to "Rennebaum No. 2 and 2½ Mine" and that the seam designation for that mine be changed from "Buckeye Springs" to "Buckeye Springs and Sterling."

It appears that the change in the seam name requested in the petition will require the establishment of a minimum price for coals to be mixed from two mines of Rennebaum Coal Company, which are in different seams and which have different price classifications and minimum prices, and that a hearing will be necessary in order to determine if these changes should be made permanent. It further appears, however, that an adequate showing of necessity has been made for the granting of temporary relief permitting the change in name and change in seam designation for the above-named mine as requested.

It is, therefore, ordered, That pending final disposition of the above-named matter, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 8, for All Shipments Except Truck and for Truck Shipments are supplemented to include the price classification and minimum prices set forth in the schedules marked "Supplement R" and "Supplement T" annexed hereto and made a part hereof.[1]

Notice is hereby given that applications to stay, terminate, or modify the temporary relief herein granted may be filed with the Division pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: October 30, 1942.

[Suspension Order 150]

CLEM P. MOHLER

ORDER RESTRICTING TRANSACTIONS

Clem P. Mohler, Frederick, Maryland, hereinafter called respondent, was served with a notice of charges of violations of Ration Order No. 5, Emergency Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing on the charges was held on the 10th day of September 1942, in Baltimore, Maryland. There appeared a representative of the Office of Price Administration and the respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator,

It is hereby determined that:

(a) Respondent has violated Ration Order No. 5, Emergency Gasoline Rationing Regulations in that,

(1) On June 29, 1942, at the dealer outlet operated by him at Sixth and Market Streets, Frederick, Maryland, respondent on two separate occasions transferred six gallons of gasoline to a consumer and delivered the same into the fuel tank of a motor vehicle clearly identifiable as a private passenger vehicle without in either instance requiring the exhibition of any gasoline rationing

card Class X and without in either instance cancelling or witnessing the cancellation of any gasoline rationing card Class A or B.

(2) On June 30, 1942, at the dealer outlet operated by him at Sixth and Market Streets, Frederick, Maryland, respondent transferred six gallons of gasoline to a consumer and delivered the same into the fuel tank of a motor vehicle clearly identifiable as a private passenger vehicle without at the time of such transfer requiring the exhibition of any gasoline rationing card Class X and or cancelling or witnessing the cancellation of any gasoline rationing card Class A or B.

Because of the great scarcity and critical importance of gasoline in Maryland, violations of Ration Order No. 5, Emergency Gasoline Rationing Regulations, by the respondent necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national defense. It appears to the Deputy Administrator from the evidence before him that violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent are likely unless appropriate administrative action be taken.

It is therefore ordered:

(b) During the period in which this suspension order shall be in effect,

(1) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source, any gasoline at or for the above described dealer outlet.

(2) No person, firm, or corporation shall deliver, or in any manner directly or indirectly transfer to respondent, any gasoline at or for the above described dealer outlet.

(3) Respondent shall not sell, transfer, or deliver any gasoline to any consumer at the above described dealer outlet.

(c) Any terms used in this suspension order that were defined in Ration Order No. 5, Emergency Gasoline Rationing Regulations, shall have the meaning therein given them.

(d) This suspension order shall become effective November 5, 1942, and unless sooner terminated shall expire November 20, 1942.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Laws 89, and 507, 77th Cong.; E.O. 9125, 7 F.R. 2719; W.P.B. Dir. 1 and Supp. Dir. 1H, 7 F.R. 3378, 3877, 5216.)

Deputy Administrator
in Charge of Rationing.

[Suspension Order 151]

LONG HOOK DEVELOPMENT CO.

ORDER RESTRICTING TRANSACTIONS

Long Hook Development Company, a corporation, hereinafter called respondent was served with a notice of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations issued by the Office of Price Administration. Pursuant to the notice a hearing on the charges was held on the 16th day of September 1942, in Wilmington, Delaware. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator,

It is hereby determined that:

(a) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 19, 1942, at a filling station operated by it at 525 South Market Street, Wilmington, Delaware, respondent transferred gasoline to a consumer and into the fuel tank of a motor vehicle without requiring the presentation of a gasoline coupon book issued with respect to said motor vehicle and without detaching therefrom any coupons.

Because of the great scarcity and critical importance of gasoline in Delaware, violations of Ration Order No. 5A, Gasoline Rationing Regulations by respondent necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense. It appears to the Deputy Administrator from the evidence before him that further violations of Ration Order No. 5A, Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(b) During the period in which this suspension order shall be in effect,

(1) Respondent shall not sell, transfer or deliver any gasoline to any consumer at its filling station at 525 South Market Street, Wilmington, Delaware.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source, any gasoline at or for its filling station at 525 South Market Street, Wilmington, Delaware.

(3) No person, firm, or corporation shall deliver or in any manner directly or indirectly transfer to respondent, any gasoline at its filling station at 525 South Market Street, Wilmington, Delaware.

(c) Any terms used in this suspension order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations shall have the meaning therein given them.

(d) This suspension order shall become effective 12:01 A. M. November 5, 1942, and unless sooner terminated, shall expire 12:01 A. M. November 20, 1942.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.; E.O. 9125, 7 F.R. 2719; W.P.B. Dir. 1 and Supp. Dir. 1H, 7 F.R. 3378, 3877, 5216)

Issued this 30th day of October 1942.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T.D. 50753]

PART 8—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

INDUSTRIAL ALCOHOL

Importation of ethyl alcohol for nonbeverage purposes. Exemption from internal-revenue tax under permit from Bureau of Internal Revenue.

Section 602 (e) of the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, provides as follows:

> (e) EXEMPTION OF IMPORTED ALCOHOL FOR INDUSTRIAL PURPOSES.
>
> (1) *Amendment to Internal Revenue Code.* Part II of Subchapter C of Chapter 26 (relating to industrial alcohol) is amended by inserting at the end thereof the following new section:
>
> SEC. 3125. IMPORTATION OF ALCOHOL FOR INDUSTRIAL PURPOSES.
>
> (a) *Importation without payment of internal revenue tax.* Under regulations to be prescribed by the Commissioner, with the approval of the Secretary, and subject from the time of its withdrawal from customs custody to all the applicable provisions of this part, alcohol of 160 proof, or greater, may be imported into the United States and be withdrawn, in bond, from customs custody, without payment of the internal revenue tax imposed by Section 2800 upon the act of importing such alcohol, for transfer to industrial alcohol plants, alcohol bonded warehouses, and denaturing plants for redistillation or denaturation and withdrawal, or withdrawal without redistillation or denaturation, tax free or tax paid, as the case may be, for all the purposes authorized by this part. If such alcohol is withdrawn from the said industrial alcohol plants, alcohol bonded warehouses, or denaturing plants for beverage purposes, there shall be paid upon such withdrawal an additional tax equal to the duty which would have been paid had such spirits been imported for beverage purposes, less the duty already paid thereon.
>
> (b) *Withdrawal tax free for use of United States.* Alcohol may be withdrawn from customs custody by the United States or any governmental agency thereof for its own use, free of internal revenue tax, under such regulations as may be prescribed.
>
> (2) *Effective date of subsection.* Notwithstanding section 601, this subsection shall take effect on the day following the date of enactment of this Act.

Section 3124 of Part II, Subchapter C of Chapter 26, of the Internal Revenue Code, provides that when used in that part the term "alcohol" means that substance known as ethyl alcohol, hydrated oxide of ethyl, or spirit of wine, from whatever source or whatever processes produced.

Paragraphs 4 and 802 of the Tariff Act of 1930 read, in part, as follows:

> PAR. 4. Alcohol: * * * ethyl for nonbeverage purposes only, * * *.
>
> PAR. 802. * * * other spirits manufactured or distilled from grain or other materials * * *.

With reference to the foregoing provisions of law, the following regulations are hereby prescribed:

§ 8.107 *Importation of ethyl alcohol for nonbeverage purposes.* (a) If claim is made for the classification of ethyl alcohol of 160 proof or greater under the last clause of paragraph 4 of the Tariff Act of 1930, there shall be filed in connection with the entry an affidavit of the importer that the alcohol is to be used for nonbeverage purposes only and will be withdrawn under permit issued by the Bureau of Internal Revenue for transfer under internal-revenue bond to industrial alcohol plants, industrial alcohol bonded warehouses, or denaturing plants, or under permit for direct shipment to an agency of the United States Government.

(b) Upon the filing of such affidavit and the presentation of the permit referred to therein, executed on Internal Revenue Form 1436, 1444, or 1463, and an application of the importer on Internal Revenue Form 1440 filed in triplicate, release from customs custody may be permitted upon the deposit of estimated duty, if any, and without the deposit of internal-revenue tax.

(c) Prior to release from customs custody, the alcohol shall be gauged by a customs officer who shall note on each copy of Internal Revenue Form 1440 a report of the gauge, the name of the country of exportation, the rate of customs duty paid on the alcohol, and the rate of customs duty which would have been applicable had such spirits been imported for beverage purposes. When shipments are made in tank cars or tank trucks, the details of gauge of each tank car or tank truck shall be reported separately thereon in accordance with the column headings on Internal Revenue Form 1440. The customs officer shall forward two copies of Form 1440 to the storekeeper-gauger at the industrial alcohol plant, industrial alcohol bonded warehouse, or denaturing plant designated in the application and retain one copy for customs purposes.

(d) When shipments of alcohol from customs custody to the industrial plant, industrial alcohol bonded warehouse, or denaturing plant are made in tank cars or tank trucks, all openings affording access to the tanks shall be sealed by a customs officer with customs seals. When shipments of alcohol from customs custody are made in packages, a customs officer shall gauge and release the alcohol pursuant to appropriate permit on Internal Revenue Form 1436, 1444, or 1463, and application on Internal Revenue Form 1440 in triplicate in the same manner as alcohol shipped in tank cars or tank trucks except that the sealing of the car or truck in which transported shall not be required.

(e) When the industrial alcohol plant, industrial alcohol bonded warehouse, or denaturing plant premises are equipped with suitable dock facilities, the alcohol may, subject to compliance with the customs laws and regulations, be transferred by pipe line from the importing vessel or barge through weighing tanks or other suitable measuring tanks into locked empty storage tanks on the plant or warehouse premises or directly into locked storage tanks thereon, provided such storage tanks are equipped with suitable measuring devices for correctly indicating the actual contents. Such transfer shall be made under customs supervision and the alcohol shall be gauged by a customs officer and released from customs custody upon compliance with the customs laws and presentation of withdrawal permit on Internal Revenue Form 1436 or 1463, and application on Internal Revenue Form 1440 in triplicate.

(f) If the alcohol is withdrawn from customs custody by or for the account of an agency of the United States Government under a permit on Internal Revenue Form 1444, the alcohol, after due entry thereof, shall be gauged by a customs officer who shall prepare a report of gauge on Internal Revenue Form 1440 in triplicate. This form shall be completed in the manner prescribed in paragraph (c) and shall be disposed of as follows: the original shall be retained by the collector of customs, one copy shall be forwarded to the governmental agency to which the alcohol is consigned, and one copy shall be forwarded directly to the Commissioner of Internal Revenue. A customs officer shall state on each copy of Form 1440 the permit number of Form 1444 under which the alcohol is to be withdrawn, and shall prepare Internal Revenue Form 1453 and forward it to the government officer to whom the alcohol is to be delivered at destination. The alcohol may then be released upon the deposit of estimated duty, if any, or in accordance with the provisions of article 314 (d), Customs Regulations of 1937, and without the deposit of internal-revenue tax, for shipment to the United States governmental agency named in the permit on Internal Revenue Form 1444.

(g) Upon the completion of the procedure outlined above, the entry shall be liquidated with the assessment of duty at the appropriate rate, if any, and without the assessment of internal-revenue tax. (R.S. 161, 251, sec. 624, 46 Stat. 759; 5 U.S.C. 22, 19 U.S.C. 66, 1624)

Commissioner of Customs.

2. Pursuant to the foregoing provisions of law and sections 3105, 3124 (a), and 3176 of the Internal Revenue Code, Regulations 3 is hereby amended by adding at the end thereof the following new articles:

Article XLV—Importation of Alcohol for Industrial Purposes

§ 182.989 *General provisions.* Except as hereinafter provided, the provisions of these regulations (Regulations 3, 26 CFR, Part 182), in so far as applicable, shall govern the withdrawal and disposition of alcohol of 160 degrees of proof, or greater, under the provisions of section 602 (e) of the Revenue Act of 1942. (*; Sec. 3125, I.R.C.)

§ 182.990 *Withdrawal.* The proprietor of an industrial alcohol plant, bonded warehouse, or denaturing plant desiring to withdraw imported alcohol from customs custody without payment of tax for transfer to an industrial alcohol plant, bonded warehouse, or denaturing plant for redistillation, or denaturation and withdrawal or withdrawal without redistillation, tax-free or tax-paid, as the case may be, for all the purposes authorized by Part II, Subchapter C, Chapter 26, Internal Revenue Code, shall file application on Part I of Form 1436, as to industrial alcohol plants or bonded warehouses, or on Part I of Form 1463, as to denaturing plants, with the district supervisor of the district in which the plant or warehouse is located for permit to procure such alcohol. The application should be properly modified by the applicant to cover the transfer of alcohol from customs custody, naming the port of entry through which the alcohol is to be withdrawn. If alcohol is to be withdrawn from more than one port of entry, separate applications for each port shall be filed. (*; Sec. 3125 (a), I.R.C.)

§ 182.991 *Consent of surety, Form 1533.* Proprietors of industrial alcohol plants, bonded warehouses, or denaturing plants, in order to withdraw imported alcohol without payment of tax from customs custody, or receive such alcohol in bond after its withdrawal from customs custody shall, prior to, or at the time of, filing application for such withdrawal, or transfer in bond, file consent of surety, Form 1533, on their bonds, Form 1432A, extending the terms thereof to assume liability for payment of the internal revenue tax on such alcohol. The consent of surety, which should be filed and disposed of as provided in Article X, shall be in substantially the following form:

> To extend the terms of said bond to assume liability (a) for the payment of the internal revenue tax on all alcohol withdrawn without payment of tax from customs custody for redistillation or denaturation and withdrawal, or withdrawal without redistillation or denaturation, by the principal pursuant to section 3125 (a), Internal Revenue Code, and regulations, and (b) if withdrawn for beverage purposes, for an additional tax equal to the duty which would have been paid had such spirits been imported for beverage purposes, less the duty already paid thereon.

(*; Sec. 3125 (a), I.R.C.)

§ 182.992 *Withdrawal permit.* Upon receipt of application on Part I of Form 1436 or Part I of Form 1463, the district supervisor will, if proper consent of surety on the proprietor's plant or warehouse bond has been filed, issue permit on Part II of Form 1436 or Part II of Form 1463, as the case may be, properly modified pursuant to such application. The district supervisor will retain the duplicate of the permit, Form 1436, or

Form 1463, for his files. (*; Sec. 3125 (a), I.R.C.)

§ 182.993 *Application, Form 1440.* In order to procure a specific quantity of imported alcohol, the proprietor of the industrial alcohol plant, bonded warehouse, or denaturing plant will execute application for withdrawal on Form 1440 in triplicate, properly modified, and forward all copies thereof and the original of the permit, Form 1436, or Form 1463, to the collector of customs at the port of entry named in the permit from whose custody it is proposed to withdraw the alcohol. The collector of customs will not release the alcohol without payment of internal revenue tax until the withdrawal permit, Form 1436, or Form 1463, and the application for withdrawal on Form 1440, in triplicate, properly modified have been received from the proprietor of the industrial alcohol plant, bonded warehouse, or denaturing plant, as the case may be. After the receipt of Form 1436 or Form 1463, covering the initial withdrawal of alcohol, the collector of customs may retain such permit to cover future withdrawals pursuant to application on Form 1440, in triplicate. (*; Sec. 3125 (a), I.R.C.)

§ 182.994 *Customs gauge and release.* Prior to release from customs custody, the alcohol will be gauged by a customs officer who will enter the details of the gauge on all copies of the Form 1440. When shipments are made in tank cars or tank trucks, the details of gauge of each tank car or tank truck will be reported separately thereon in accordance with the column headings on the Form 1440. The customs officer will also show on each copy of Form 1440 the country of exportation of the alcohol. In addition, he will ascertain and state on each copy of the Form 1440 the rate of customs duty paid on the alcohol and the rate of customs duty which would have been applicable had such spirits been imported for beverage purposes. The customs officer will forward two copies of Form 1440 to the storekeeper-gauger at the industrial alcohol plant, bonded warehouse, or denaturing plant designated in the application, and retain one copy for customs purposes. The storekeeper-gauger at the plant or warehouse will, on receipt of the two copies of Form 1440, verify the shipment, note on both copies any discrepancies, forward one copy to the district supervisor of the district in which the plant or warehouse is located, and deliver the remaining copy to the proprietor of the plant or warehouse. (*; Sec. 3125 (a), I.R.C.)

§ 182.995 *Tank car, tank truck, and package shipments*—(a) *Tank cars or tank trucks to be sealed.* Where shipments of alcohol from customs custody to the industrial alcohol plant, bonded warehouse, or denaturing plant are made in tank cars or tank trucks, all openings affording access to the tanks will be sealed by the customs officer with customs seals.

(b) *Packages.* Where shipments of alcohol from customs custody are made in packages, the customs officer will gauge and release the alcohol pursuant to appropriate permit. Form 1436 or Form 1463, and application, Form 1440, in triplicate, in the same manner as alcohol shipped in tank cars or tank trucks, except that the sealing of the car or truck in which transported will not be required. (*; Sec. 3125 (a), I.R.C.)

§ 182.996 *Transfer by pipe line at dock.* Where the industrial alcohol plant, bonded warehouse, or denaturing plant premises are equipped with suitable dock facilities, the alcohol may, subject to all requirements of the customs laws and regulations, be transferred by pipe line from the importing vessel or barge through weighing tanks or other suitable measuring tanks into locked empty storage tanks on the plant or warehouse premises or directly into locked storage tanks thereon, provided such storage tanks are equipped with suitable measuring devices for correctly indicating the actual contents. In such case, the alcohol will be transferred under customs supervision, gauged immediately by a customs officer, and thereupon released for deposit in the plant or warehouse pursuant to proper withdrawal permit, Form 1436 or Form 1463, and application for withdrawal on Form 1440 in triplicate. The details of the gauge will be reported on all copies of Form 1440 by the customs officer and the copies of Form 1440 distributed as provided in § 182.994. (*; Sec. 3125 (a), I. R. C.)

§ 182.997 *Gauging.* Upon receipt of the alcohol at the industrial alcohol plant, bonded warehouse, or denaturing plant from customs custody, it will be gauged in accordance with Articles XXI and XXV and the Gauging Manual, provided that where the bonded premises consist of storage tanks only, the spirits may be gauged upon receipt at such premises by any one of the following four methods, preference to be given in the order named:

(1) Weighed in scale tanks

(2) Gauged by volume in accurately calibrated storage tanks

(3) Weighed on railroad car scales located on bonded premises by weighing tank cars or tank trucks before and after filling and emptying, as the case may be

(4) Gauged by volume in accurately calibrated tank cars or tank trucks. (*; Sec. 3125 (a), I.R.C.)

§ 182.998 *Authorized transactions*—(a) *Industrial alcohol plant.* Imported alcohol received at an industrial alcohol plant may, after proper gauging and recording, be withdrawn before or after redistillation, free of tax, for any of the purposes authorized by these regulations, or withdrawn upon payment of the internal revenue tax and if withdrawn for beverage purposes, an additional tax equal to the duty which would have been paid had the spirits been imported for beverage purposes, less the duty already paid thereon.

(b) *Bonded warehouse.* Imported alcohol received at a bonded warehouse may, after proper gauging and recording, be withdrawn for redistillation and subsequent withdrawal or without redistillation, as provided in § 182.998 (a) or be withdrawn for denaturation as provided by these regulations.

(c) *Denaturing plant.* Imported alcohol received at a denaturing plant may, after proper gauging and recording, be withdrawn either denatured or undenatured pursuant to a withdrawal permit as provided by these regulations.

(d) *Imported alcohol to be kept separate.* Since the imported alcohol is eligible for withdrawal for beverage purposes, and is subject when so withdrawn, to an additional tax equal to the duty which would have been applicable had such spirits been imported for beverage purposes, less the duty already paid thereon, it must be kept separate at the industrial alcohol plant or bonded warehouse in which it is redistilled or stored and may not be mixed therein with domestic alcohol or imported alcohol which may be subject to a different rate of additional tax. Such alcohol may be transferred in bond between industrial alcohol plants, bonded warehouses and denaturing plants for the purposes authorized by paragraphs (a), (b) and (c). (*; Sec. 3125 (a), I.R.C.)

§ 182.999 *Taxpayment.* The basic internal revenue tax imposed by section 2800, I. R. C., shall be paid as to the imported alcohol in the manner prescribed by these regulations when withdrawn from an industrial alcohol plant or bonded warehouse for a tax-paid purpose. However, if the alcohol is withdrawn for beverage purposes, there shall be paid an additional tax equal to the duty which would have been applicable had the spirits been imported for beverage purposes, less the duty already paid thereon. Such additional tax shall be referred to as "additional tax—less duty," and shall be paid at the same time as the basic internal revenue tax. Such tax shall be computed at the rate specified on the application, Form 1440, covering withdrawal from customs custody, submitted in accordance with § 182.994. In computing such tax, credit will be taken for the duty already paid on the alcohol. The total taxable quantity in proof gallons to be withdrawn, as reported in Column 7 of the withdrawal application, Form 1440, shall be used as the basis of computation of the tax at the rate indicated. The amount of the "additional tax—less duty" and nature thereof will be stated separately in the application for taxpayment, Form 1440, as to packages or cases, or Forms 1440 and 1594, as to removals in tank cars, etc., as the case may be. Upon receipt of Form 1440, or Forms 1440 and 1594, and the remittance for the total taxes due, the amount of the "additional tax—less duty" will be listed for assessment by the collector on his current Distilled Spirits Tax List. The collector will certify separately on Form 1440 or on Forms 1440, 1594, and 1595 the payment of the "additional tax—less duty." (*; Sec. 3125 (a), I.R.C.)

§ 182.1000 *Records*—(a) *Industrial alcohol plant.* All imported alcohol requiring redistillation received at an industrial alcohol plant, either direct from customs custody or by transfer from another plant or warehouse, except where received in packages, shall be deposited in closed locked tanks in the alcohol plant. Such alcohol may then be redistilled and withdrawn, or withdrawn without redistillation, in the manner prescribed by these regulations. All transactions involving such alcohol shall be reported on separate Forms 1442, 1452–A and B, 1454, and 1488 where the proprietor does not operate a bonded warehouse. Such reports shall be marked "Imported Alcohol Transactions." Where the alcohol is received direct from customs custody, the country of exportation shall be stated on Form 1442 in the statement of "Materials Received During the Month." All removals of imported alcohol shown on Form 1488 will be reported by the district supervisor in a separate monthly account, Form 1487, appropriately modified where necessary. Such account shall be designated "Imported Alcohol Transactions."

---

[1] The asterisk at end of sections refers to sections 3105, 3124 (a) (6), and 3176 of the Internal Revenue Code.

(b) *Bonded warehouse.* Imported alcohol received at a bonded warehouse, either direct from customs custody or by transfer from the alcohol plant or in bond from another plant or warehouse and withdrawn therefrom in the manner provided by these regulations, shall be reported on separate Forms 1443–A or 1443–B. Where the alcohol is received direct from customs custody, the country of exportation shall be stated in the detailed statements of such forms. Such alcohol shall be reported by the district supervisor in the separate report of imported alcohol transactions on Form 1487.

(c) *Denaturing plant.* Imported alcohol received at a denaturing plant, either direct from customs custody or by transfer from an alcohol plant or bonded warehouse, shall be reported on the regular denaturing plant forms in the same manner as alcohol of domestic origin. Where the alcohol is received direct from customs custody, the country of exportation shall be stated in the detailed statement of receipts on Form 1468–A, but thereafter such alcohol need not be separately reported.

(d) *Transfers in bond.* Where imported alcohol is transferred in bond, the transfer papers, Forms 1436, 1439 and 1440, in the case of transfers between warehouses, and Forms 1463, 1439 and 1440, in case of transfers from a warehouse to a denaturing plant, must specify that the alcohol to be transferred is imported alcohol. In each such case the rates of duty specified by § 182.994 shall be transcribed to the Form 1440 covering the transfer. (*; Sec. 3125 (a), I.R.C.)

§ 182.1001 *Losses.* Losses of imported alcohol, which occur in transit from customs custody to industrial alcohol plants, bonded warehouses, or denaturing plants, will be adjusted in accordance with the provisions of § 182.635. Where claims for remission of tax covering such losses are required, such claims will be filed by the proprietor of the plant or warehouse in accordance with § 182.637. Losses of such spirits occurring after receipt at the industrial alcohol plant, bonded warehouse, or denaturing plant, will be adjusted and claims therefor filed where necessary in accordance with the provisions of these regulations pertaining to losses of domestic alcohol. (*; Sec. 3125 (a), I.R.C.)

Article XLVI—Withdrawal of Imported Alcohol Tax Free for Use of the United States

§ 182.1002 *Withdrawal from customs custody.* Upon filing proper customs entry, imported alcohol of 160 degrees of proof, or greater, may be withdrawn direct from customs custody for use by the United States or any governmental agency thereof, under the provisions of this article, or it may be withdrawn from customs custody and be redistilled, warehoused, or denatured and subsequently withdrawn for use of the United States or governmental agency thereof under the provisions of Article XLV. (*; Sec. 3125 (b), I.R.C.)

§ 182.1003 *Form 1444*—(a) *Application.* Where alcohol is withdrawn direct from customs custody, application on Part 1 of Form 1444, shall be executed in duplicate by the United States or governmental agency thereof, and forwarded direct to the Commissioner of Internal Revenue for issuance of permit. The application shall name the port of entry through which the alcohol is to be withdrawn and each location to which it will be shipped. The provisions of § 182.172 shall apply to the signing of such applications.

(b) *Permit.* Upon receipt of an application on Form 1444, from the United States or governmental agency thereof for permit to withdraw and use imported alcohol free of tax, the Commissioner will, if he approves the application, issue permit on Part II of the Form 1444. Basic permits, Form 1444, shall be numbered serially in the order of issuance. The serial number of permits, Form 1444, shall be preceded by the symbol "US–TFI." The original copy of the Form 1444 shall be forwarded to the department, bureau, office or other agency of the United States making application for the permit. One copy will be retained by the Commissioner for his files.

(c) *Use of permit.* The department, bureau, office or other agency of the United States, in order to procure alcohol from customs custody, shall forward the permit to the collector of customs at the port named therein. The collector of customs may retain such permit to cover future withdrawals pursuant to appropriate customs entry in each case. (*; Sec. 3125 (b), I.R.C.)

§ 182.1004 *Limitation of permit.* Permits on Form 1444 to procure alcohol free of tax from customs custody will not limit the quantity of alcohol authorized to be procured. Such permits, however, shall name the port of entry through which the alcohol is to be withdrawn and each location to which it will be shipped. If it is desired to procure alcohol from more than one port of entry, a separate must be procured authorizing withdrawal from each port. All such permits will remain in force until surrendered or cancelled. (*; Sec. 3125 (b), I.R.C.)

§ 182.1005 *Customs gauge and release.* Upon receipt of customs entry for permit on Form 1444, the alcohol will be gauged by the customs officer who will prepare a report of gauge on Form 1440, in triplicate. The alcohol may then be released free of tax for shipment to the United States or governmental agency thereof named in the permit, Form 1444, subject to the conditions hereinafter stated. PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS

[MPR 257]

PULPWOOD PRODUCED IN OR SOLD INTO THE STATES OF MINNESOTA, MICHIGAN AND WISCONSIN

In the judgment of the Price Administrator the price of pulpwood has risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the price of pulpwood prevailing in the states of Minnesota, Michigan and Wisconsin between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The Price Administrator has advised and consulted with representative members of the industry. In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been prepared and is issued simultaneously herewith.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration, Maximum Price Regulation No. 257 is hereby issued.

§ 1347.352 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1347.360) may be charged, demanded, paid or offered.

In an appropriate situation, where a petition for amendment requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1347.354 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 257 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to pulpwood produced in or sold into the states of Minnesota, Michigan, and Wisconsin, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other understanding, or otherwise.

the provisions of paragraph (a) (2) (ii) relating to new or increased taxes, such Monopoly state may add to its maximum prices for such domestic distilled spirits as adjusted under subparagraph (1) of this paragraph, the exact amount per case and per container which is furnished to it by its seller pursuant to subparagraph (3) of this paragraph.

(3) *Notification to monopoly states.* Any seller who sells any domestic distilled spirits to any Monopoly state shall state upon the face of the invoice covering any particular transaction or upon a written notice prior to shipment (i) the gross adjusted price exclusive of any new or increased taxes for each brand, type, quality and container size of domestic distilled spirits included in the particular transaction and (ii) the amount of any new or increased tax with respect to each brand, type, quality and container size of domestic distilled spirits included in the particular transaction: *Provided*, That no notification shall be required after the first notification to any particular Monopoly state unless the seller's maximum price is further adjusted or other new or increased taxes are imposed. The total amount of any new or increased tax shall be computed on the basis of the number of gallons or fractional gallons of the particular brand, type and quality of domestic distilled spirits contained in the particular case. The total amount of any new or increased tax so computed shall then be divided by the number of containers in the case of the particular brand, type, and quality of domestic distilled spirits. The final adjusted figures per case and per container shall be the figures stated with respect to new or increased taxes on the invoice or written notice as provided above.

§ 1420.51 *Prohibition against sales of domestic malt beverages above maximum prices.* On and after November 1, 1942, regardless of any contract, agreement, lease or other obligation:

(a) No person shall sell or deliver any domestic malt beverages at higher prices than the maximum prices set forth in Appendix A (§ 1420.66) of this Maximum Price Regulation No. 259.

(b) No person shall buy or receive any domestic malt beverages in the course of trade or business at higher prices than the maximum prices set forth in this Maximum Price Regulation No. 259.

§ 1420.54 *Export sales.* The maximum prices at which a person may export domestic malt beverages shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[1] issued by the Office of Price Administration.

§ 1420.55 *Federal and state taxes.* Any tax upon, or incident to, the sale or delivery of domestic malt beverages, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such domestic malt beverages and in preparing the records of such seller with respect thereto:

(a) As to a tax in effect prior to the last day of any base period herein provided for the determination of the maximum prices of any seller (1) if the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during the applicable base period the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 259. (2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately, from the purchase price, and the seller does state it separately, the seller may collect in addition to the maximum price, the amount of the tax actually paid by him or an amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 259.

(b) As to any new tax or any increase in an existing tax imposed after the last day of any base period herein provided for the determination of the maximum prices of any seller a manufacturer or wholesaler may collect the amount of such tax or increase in an existing tax imposed upon him or upon any prior vendor by any statute of the United States or statute or ordinance of any state or subdivision thereof with respect to domestic malt beverages to be "sold on draught": *Provided,* That such amount has been paid by the manufacturer or wholesaler or has accrued and is payable by such manufacturer or wholesaler to the appropriate taxing authorities or any prior vendor: *Provided,* That the seller at retail of domestic malt beverages "to be sold on draught" shall not adjust his maximum price because of any new tax or increase in an existing tax paid or accrued and payable by the manufacturer, wholesaler or such retailer.

(c) As to any new tax or any increase in an existing tax effective after the last day of any base period herein provided for the determination of the maximum prices of any seller, the manufacturer, wholesaler, or retailer may collect the amount of such tax or increase in an existing tax imposed upon him or any prior vendor by any statute of the United States or statute or ordinance of any state or subdivision thereof with respect to any domestic malt beverage "not to be sold on draught": *Provided,* That such amount has been paid by the manufacturer, wholesaler or retailer or has accrued and is payable by such manufacturer, wholesaler or retailer to the appropriate taxing authorities or any prior vendor.

(d) As to the specific increase in the Federal Excise Tax of $1.00 per barrel on domestic malt beverages, effective November 1, 1942, the method by which such tax increase may be added to the seller's maximum price is provided in § 1420.66 herein. This does not apply to a seller at retail of domestic malt beverages "to be sold on draught."

§ 1420.56 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 259 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

§ 1420.57 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 259 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of domestic malt beverages alone or in connection with any other commodity, or by way of commission, service, transportation, or any charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) The reduction or elimination of the seller's customary allowances, discounts or other price differentials existing during the applicable base period herein provided for the determination of the maximum prices of any seller;

(2) The depreciation of the quality of a domestic malt beverage other than a normal variation.

§ 1420.58 *Licensing—Applicability of the registration and licensing provisions of the General Maximum Price Regulation.* The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person making sales at wholesale or retail of any domestic malt beverages for which maximum prices are established by this Maximum Price Regulation No. 259. Said registration and licensing provisions became effective as to persons selling at wholesale on May 11, 1942 and as to persons selling at retail on May 18, 1942.

§ 1420.59 *Standards of quality.* "Quality" of a domestic malt beverage as used in § 1420.57 (b) is determined by the grade and proportion of the ingredients used and by the brewing process employed. The selection of a similar malt beverage in § 1420.66 (f) shall include consideration of "similar quality" which is the quality obtained by reason of a similar brewing process and equivalent types, grades and proportions of ingredients, without substantial variation.

§ 1420.60 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 259 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942.

(b) Persons who have any evidence of any violation of this Maximum Price Regulation No. 259 or any price schedule, regulation or order, issued by the Office of Price Administration, or any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1420.61 *Container and shipping case deposits.* If during the applicable base period herein provided for the determination of the maximum prices of any seller, the seller did not require a deposit for domestic malt beverage containers or shipping cases and did not sell the containers with their contents or sell the shipping cases to the purchaser, but required their return, he may impose a deposit charge on such containers or shipping cases: *Provided,* That the deposit charge imposed does not unduly exceed the actual replacement cost of such containers or shipping cases. If the seller has required a container deposit, which does not equal the replacement cost of containers or shipping cases the deposit charge may be increased to an amount which does not unduly exceed the actual replacement cost of such containers or shipping cases. If the seller has achieved the result of a deposit charge by a standing offer to repurchase domestic malt beverage containers or shipping cases at a fixed price which does not equal the replacement cost of containers or shipping cases, he may increase his standing offer for the repurchase of such containers or shipping cases to an amount which does not unduly exceed the replacement cost of each container or shipping case. In such event, he may add to his maximum selling prices the exact amount of the increase in his standing offer to repurchase such containers or shipping cases.

§ 1420.62 *Definitions.* (a) "Domestic malt beverage" shall mean any and all malt beverages produced within the continental United States, or its territories and possessions, made by the alcoholic fermentation of an infusion of decoction, or combinations of both, in potable brewing water, of malted barley with hops, or their parts, or their products, and with or without other malted cereals, and with or without the addition of unmalted or prepared cereals, other carbohydrates or products prepared therefrom, and with or without the addition of carbon dioxide, and with or without other wholesome products suitable for human food consumption.

(i) To which no delivery was made during such period at the higher price, and

(ii) To which no delivery was made during such period at a lower price after the price raise unless made pursuant to a firm commitment entered into before such a price raise shall be the seller's highest offering price for delivery to such class of purchasers during such period.

vided, That such tax or increase in such tax shall be a floor-stocks tax and the amount thereof shall have been paid or shall have accrued and be payable by such seller to the proper taxing authorities or to any prior vendor, with respect to the particular quantity of such imported distilled spirits in question.

(*2*) Subject to the provisions of interior subdivision (*b*) of subdivision (i), hereinafter set forth, the amount of any such new tax other than a floor-stocks tax, or any increase in any such existing tax other than a floor-stock tax, imposed upon such seller or any prior vendor after March 31, 1942, with respect to imported distilled spirits by any statute of the United States or statute or ordinance of any state or subdivision thereof: *Provided*, That the amount of such tax or increase in such tax shall have been paid or shall have accrued and be payable by such seller to the proper taxing authorities or to any prior vendor, with respect to the particular quantity of such imported distilled spirits in question.

(*b*) *Liquidation of inventory.* Before selling any quantity of any brand, type, quality and container size of imported wines at an increased maximum price pursuant to (ii) (*a*) (*1*) hereof, each and every seller shall first sell a quantity thereof equal to the quantity of his floor-stocks, if any, with respect to which no new or increased tax has been imposed.

(iii) *Notification.* When a seller, other than sellers at retail, pursuant to subdivisions (i) or (ii) hereof, sells any brand, type, quality and container size of imported distilled spirits or imported wines at a price in excess of the maximum prices established for him with respect thereto under § 1499.2 such seller shall:

(*a*) Compute the total permitted tax increase per case authorized under (i) or (ii) hereof on the basis of the number of gallons or fractional gallons of each brand, type, quality and container size of imported distilled spirits or imported wines contained in the particular case.

(*b*) Divide the total permitted tax increase per case computed under (*a*) with respect to each brand, type and quality of imported distilled spirits or imported wines within the particular case by the number of individual containers of that brand, type, quality and container size of imported distilled spirits or imported wines within such case.

(*c*) Adjust the figures arrived at under (*b*) to the next higher even cent if the fraction is ½ cent or over, and to the next lower even cent if the fraction is less than ½ cent. The resulting figure shall be the permitted tax increase per individual container for each brand, type and quality of imported distilled spirits or imported wines within the particular case.

(*d*) Notify purchasers in writing as follows:

(*1*) If the purchaser is a wholesaler, he shall be notified of the total permitted tax increase per case computed under (*a*) with respect to each brand, type, quality and container size of imported distilled spirits or imported wines within the particular case.

Such notification shall be accomplished by a written statement upon or attached to the invoice issued by the seller in connection with the particular transaction. No notification shall be required after the first notification to any particular purchaser with reference to any brand, type, quality and container size of imported distilled spirits or imported wines unless the permitted tax increase is further adjusted pursuant to the provisions hereof.

(iv) *Computation of permitted tax increase per unit served by retailers other than packaged goods retailers.* If the seller is a retailer, other than a packaged goods retailer, he shall compute the amount of the permitted tax increase per individual unit or drink served by dividing the amount of the permitted tax increase per container size by the number of particular units or drinks of equal quantity customarily derived by such seller from the particular container size. The figures thus arrived at shall be adjusted to the next higher even cent if the fraction is ½ cent or over, and to the next lower even cent if the fraction is less than ½ cent. The resulting figure shall be the permitted tax increase per individual unit or drink served by such sellers of imported distilled spirits or imported wines.

(v) *Definitions.* (*a*) "Container" when used in connection with imported distilled spirits shall mean a liquor bottle or other closed receptacle of imported distilled spirits; and when used in connection with imported wines shall mean any bottle, cask or other closed receptacle irrespective of size or of the material from which made.

(39) *Fruit wines, berry wines and grape wines (other than California grape wines).* (i) *Maximum prices; permitted tax increases.* (*a*) Any seller of fruit wines, berry wines and grape wines (other than California grape wines) may add to the maximum price established for him under § 1499.2, with respect to any brand, type, quality and container size of such wines, the following:

(*1*) The amount of any new tax or any increase in an existing tax incident to the sale, delivery, processing or use thereof which is imposed upon such seller or any prior vendor after March 31, 1942, with respect to fruit wines, berry wines and grape wines (other than California grape wines) by any statute of the United States or statute or ordinance of any state or subdivision thereof: *Provided*, That the amount of such tax or increase in such tax shall have been paid or shall have accrued and be payable by such seller to the proper taxing authorities or to any prior vendor, with respect to any particular quantity of such fruit wines, berry wines and grape wines (other than California grape wines) in question.

(*b*) *Liquidation of inventory.* Before selling any quantity of any brand, type, quality and container size of fruit wines, berry wines and grape wines (other than California grape wines) at an increased price pursuant to (i) (*a*) (*1*) hereof, each and every seller shall first sell a quantity thereof equal to the quantity of his floor-stocks, if any, upon which no new or increased tax has been imposed.

(ii) *Notification.* When a seller of any class as set forth below, other than sellers at retail, pursuant to subdivision (i) hereof, sells any brand, type, quality and container size of fruit wines, berry wines and grape wines (other than California grape wines) at a price in excess of the maximum prices established for him with respect thereto under § 1499.2, such seller shall:

(*a*) *Vintner.* (*1*) The vintner shall compute the total tax increase per gallon authorized under (i) hereof, for each brand, type and quality of fruit wines, berry wines and grape wines (other than California grape wines) sold in any particular transaction.

(*b*) *Bottlers and wholesalers.* (*1*) The bottler and wholesaler shall convert the total tax increase per gallon into a permitted tax increase per case on the basis of the number of gallons or fractional gallons of each brand, type and quality of such wine within the particular case.

(*2*) The bottler and wholesaler shall divide the total permitted tax increase per case computed under (*b*) (*1*) with respect to each brand, type and quality of such wine within the particular case by the number of individual containers of that brand, type, quality and container size of such wine within the particular case.

(*3*) The bottler and wholesaler shall adjust the figure arrived at under (*2*) to the next higher even cent if the fraction is ½ cent or over and to the next lower even cent if the fraction is less than ½ cent. The resulting figures shall be the permitted tax increase per individual container for each brand, type and quality of such wine within the particular case.

(*c*) Notify purchasers in writing as follows: (*1*) If the purchaser is a bottler, he shall be notified of the total tax increase per gallon computed under (*a*) with respect to each brand, type and quality of such wine sold.

(*2*) If the purchaser is a wholesaler, he shall be notified of the total permitted tax increase per case computed under (*b*) (*1*) with respect to each brand, type and quality of such wine within the particular case.

(*3*) If the purchaser is a retailer he shall be notified of the permitted tax increase per case arrived at under (*b*) (*2*) and per individual container arrived at under (*b*) (*3*) with respect to each brand, type, quality and container size of such wine within the particular case.

Such notification shall be accomplished by a written statement upon or attached to the invoice issued by the seller in connection with the particular transaction. No notification shall be required after the first notification to any particular purchaser with reference to any brand, type, quality and container size of fruit wine, berry wine and grape wine (other than California grape wine), unless the permitted tax increase with reference thereto is further adjusted pursuant to the provisions hereof.

PART 1499—COMMODITIES AND SERVICES

[Supp. Reg. 14[1] to GMPR Amendment 54[2]]

CALIFORNIA GRAPE WINE, ETC.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register. A new subparagraph (40) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modification of maximum prices established by §1499.2 of the General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services, and transactions listed below are modified as hereinafter set forth:

* * * * *

(40) *California grape wine and California grape spirits*—(i) *Vintners' maximum prices for California grape wine*—(*a*) *Wine in bulk in carload lots.* On and after November 1, 1942, the maximum prices for vintners with respect to California grape wine in bulk in carload lots shall be as follows:

	Cents per gallon, naked, f. o. b. winery
Dessert wine	30
Table wine	21½

Provided, That if the maximum price established for any particular vintner under § 1499.2 with respect to California grape wine in bulk in carload lots is higher than the maximum prices set forth above, such vintner may continue to charge the maximum price established under § 1499.2.

(*b*) *All wines; permitted increase.* On and after November 1, 1942, any vintner may add to the maximum prices established for him under § 1499.2 or under (*a*) hereof, with respect to California grape wine, a permitted increase per gallon computed as hereinafter set forth. For the purposes of such computation each vintner shall:

(*1*) Compute the weighted average price per ton paid by him during the 1941 season for grapes for crushing purposes.

(*2*) Compute the weighted average price per ton paid or contracted to be paid by him during the 1942 season up to and including October 27, 1942 for grapes to be crushed for wine.

(*3*) Subtract the amount computed under (*1*) from the amount computed under (*2*). The resulting amount so arrived at, or $8.30, whichever is the lower, shall be the "allowable grape cost increase." In the case of growers' cooperatives operating wineries and in the case of vintners who grow more than 50 percent of the grapes crushed and to be crushed by them, the "allowable grape cost increase" shall be the difference between the average price paid per ton during the 1941 season for all California grapes crushed for wine and brandy ($19.90 per ton) and the average price per ton paid or contracted to be paid for all California grapes purchased during the 1942 season up to and including October 27, 1942 for crushing into wine and brandy, as published by the United States Department of Agriculture, or $8.30, whichever is the lower.

[2] 7 F.R. 3153, 3330, 3666, 3990, 3991, 4339, 4487, 4659, 4738, 5027, 5276, 5192, 5365, 5445, 5565, 5484, 5776, 5784, 5783, 6058, 6081, 6007, 6216, 6615, 6794, 6939, 7093, 7322, 7454, 7758, 7913, 8431.

(*4*) Compute the number of tons of grapes acquired or contracted to be acquired by him during the 1942 season up to and including October 27, 1942 for crushing for wine and make a bona fide estimate of the number of additional tons of grapes which will be acquired by him during the remainder of the 1942 season for crushing for wine. The sum of the number of tons of grapes acquired or contracted to be acquired and of the estimated number of additional tons of grapes to be acquired shall be the "estimated 1942 grape tonnage."

(*5*) Multiply his "allowable grape cost increase" computed under (*3*) by his "estimated 1942 grape tonnage" computed under (*4*).

(*6*) Convert his "estimated 1942 grape tonnage" into his "estimated 1942 crush" on the basis of 80 gallons of dessert wine per ton of grapes, 160 gallons of table wine per ton of grapes.

(*7*) Multiply his "estimated 1942 crush" computed under (*6*) by 1.7 cents per gallon for the gallons of dessert wine and 0.85 cents per gallon for the gallons of table wine.

(*8*) Divide the dollar amount computed under (*5*) into two parts proportionately to the gallons of dessert wine and the gallons of table wine in his "estimated 1942 crush" computed under (*6*).

(*9*) Add the dollar amount computed under (*7*) for dessert wine to the dollar amount computed under (*8*) for dessert wine and add the dollar amount computed under (*7*) for table wine to the dollar amount computed under (*8*) for table wine. These sums shall be respectively the vintner's "total dollar allowance" for dessert wine and for table wine.

(*10*) Compute in gallons his total inventory of dessert wine and of table wine respectively as of October 27, 1942, (including such portion of his 1942 crush, if any, then on hand) and add the remainder of his estimated 1942 crush of dessert wine and of table wine respectively. The remainder of his estimated 1942 crush shall be computed by converting into gallons the portion of his estimated 1942 grape tonnage remaining to be crushed on the basis of 80 gallons of dessert wine per ton of grapes or 160 gallons of table wine per ton of grapes. The sum of his total inventory of dessert wine and of table wine respectively as of October 27, 1942 and the remainder of his estimated 1942 crush of dessert wine and of table wine respectively shall be his "total gallonage" of dessert wine and of table wine respectively.

(*11*) Divide his "total dollar allowance" for dessert wine and for table wine respectively computed under (*9*) by his "total gallonage" of dessert wine and of table wine respectively computed under (*10*). The resulting figure shall be the "permitted increase per gallon" for dessert wine and for table wine respectively: *Provided*, That in the case of concentrates and condensed grape must, the "permitted increase per gallon" shall be increased in proportion to the ratio of concentration or condensation.

(*c*) *All wines; taxes.* Any vintner may at any time add to the maximum prices established for him with respect to California grape wine the amount of any new tax or any increase in an existing tax incident to the sale, processing or use thereof imposed upon the vintner after March 31, 1942 by any statute of the United States or any statute or ordinance of any State or subdivision thereof: *Provided*, That such amount has actually been paid or will be payable by the vintner with respect to the particular quantity of California grape wine in question.

(ii) *Bottler's maximum prices for California grape wine*—(*a*) *All wines; permitted increase.* On and after November 1, 1942, any bottler may add to the maximum prices established for him under § 1499.2 with respect to any brand, type and quality of California grape wine a permitted increase per case computed as hereinafter set forth. For the purposes of such computation, each bottler shall:

(*1*) Compute the weighted average cost per gallon to the bottler of the quantity of each brand, type and quality of California grape wine sold by the bottler during March 1942 or during the bottler's customary fiscal month ending nearest to March 31, 1942. Cost per gallon shall be figured on a naked, f. o. b. winery basis.

(*2*) Compute the weighted average cost per gallon to the bottler of his first purchase of the same brand, type and quality of California grape wine purchased by him at a price adjusted under (i) hereof. Cost per gallon shall be figured on a naked, f. o. b. winery basis in the same containers as those used during March 1942.

(*3*) Subtract the figure computed under (*1*) from the figure computed under (*2*). The resulting figure shall be the permitted increase per gallon with respect to the quantity of each brand, type and quality of California grape wine to be sold by the bottler during November 1942.

(*4*) Compute the weighted average cost per gallon to the bottler of the quantity of each brand, type and quality of California grape wine purchased by the bottler during each calendar month commencing with November 1942 or during the bottler's customary fiscal month ending nearest to the end of the corresponding calendar month. Cost per gallon shall be figured on a naked, f. o. b. winery basis in the same containers as those used during March 1942.

(*5*) Subtract the figure computed under (*1*) from the figure computed for each month or fiscal month under (*4*). The resulting figure shall be the permitted increase per gallon with respect to the quantity of each brand, type, and quality of California grape wine sold by the bottler during the following calendar month or fiscal month.

(*6*) No bottler may increase his adjusted maximum price computed under (*3*) with respect to any brand, type and quality of California grape wine unless (*i*) his adjusted maximum price therefore computed under (*5*) for any subsequent calendar or fiscal month exceeds his adjusted maximum price therefore computed under (*3*) by two or more cents per gallon and (*ii*) the quantity of the particular brand, type and quality of California grape wine upon which his adjusted maximum price is computed under (*5*) is equal to the monthly average of his purchases of that brand, type and quality of California grape wine during the preceding twelve months. No bottler shall be required to decrease his adjusted maximum price computed under (*3*) with respect to any brand, type and quality of California grape wine unless his adjusted maximum price therefor computed under (*5*) for any subsequent calendar or fiscal month is less than his adjusted maximum price therefor computed under (*3*) by two or more cents per gallon: *Provided*, That, in no case, shall the bottler be required to reduce any adjusted maximum price below the maximum price established under § 1499.2.

(*7*) Convert the permitted increase per gallon into a permitted increase per case on the basis of the number of gallons or fractional gallons of each brand, type and quality of California grape wine contained in the particular case.

(*b*) *All wines; taxes.* (*1*) Any bottler may at any time add to the maximum prices established for him with respect to California grape wine the amount of any new tax or any increase in an existing tax incident to the sale, delivery, processing or use thereof imposed upon the bottler after March 31, 1942 by any statute of the United States or any statute or ordinance of any State or subdivision thereof: *Provided*, That such amount has actually been paid or will be payable by the bottler to the proper taxing authorities with respect to the particular quantity of California grape wine in question. After any bottler has adjusted his maximum price under (ii) (*a*), the provisions of this inferior subdivision (*b*) shall no longer be applicable to the Federal Floor Stocks Tax imposed in connection with the increases in Federal Excise Taxes which become effective November 1, 1942.

(*2*) The bottler shall convert the permitted increase with respect to taxes into a permitted increase per case on the basis of the number of gallons or fractional gallons of each brand, type, and quality of California grape wine contained in the particular case.

(*c*) *Notification.* When any bottler, pursuant to (ii) (*a*) and/or (ii) (*b*) hereof, sells any quantity of any brand, type, quality and container size of California grape wine at a price in excess of the maximum prices established with respect thereto under § 1499.2, the bottler shall:

(*1*) Compute the total permitted increase per case authorized under (ii) (*a*) and/or (ii) (*b*) hereof with respect to each brand, type and quality of California grape wine contained in the particular case and adjust the figure or figures arrived at to the next higher even cent if the fraction is ½ cent or over and to the next lower even cent if the fraction is less than ½ cent.

(*2*) Notify purchasers in writing as follows:

(*i*) If the purchaser is a wholesaler, he shall be notified of the "total permitted increase per case" computed under (*1*) with respect to each brand, type and quality of California grape wine contained in the particular case.

(*ii*) If the purchaser is a retailer, commencing November 9, 1942, each bottler shall supply every retailer, on or before his first delivery of each brand, type, quality and container size of California grape wine to such retailer, a written statement as follows, and shall confirm any sales or deliveries of California grape wine made to any retailer after November 1, 1942, and prior to November 9, 1942, by a written statement as follows:

> The Office of Price Administration has authorized us to increase our March 1942 maximum prices for California grape wine to reflect increases in the Federal Excise Taxes effective November 1, 1942 and vintners' permitted increases. No notification shall be required after the first notification to any particular buyer of the bottlers' adjusted maximum price computed under (ii) (*a*) (*3*) and/or (ii) (*b*) hereof unless such maximum price is further adjusted upward or downward under (ii) (*a*) (*3*) and/or (ii) (*b*) hereof.

(iii) *Wholesalers' maximum prices for California grape wine*—(*a*) *All wines; permitted increase.* On and after November 1, 1942, after notification by the bottler pursuant to (ii) (*c*) (2) (*i*), any wholesaler may add to the maximum prices established for him under § 1499.2 with respect to any brand, type, quality and container size of California grape wine, the amounts set forth in the notice from the bottler. If such amounts are subsequently increased or decreased, after notification by the bottler pursuant to (ii) (*c*) (2) (*i*), any wholesaler may add the increase and must subtract the decrease from his adjusted maximum price.

(*b*) *All wines; taxes.*

(*1*) Any wholesaler may at any time add to the maximum prices established for him with respect to California grape wine the amount of any new or any increase in an existing tax incident to the sale, delivery, processing or use thereof imposed upon the wholesaler after March 31, 1942, by any statute of the United States or any statute or ordinance of any state or subdivision thereof: *Provided*, That such amount has actually been paid or will be payable by the wholesaler to the proper taxing authorities with respect to the particular quantity of California grape wine in question.

(*2*) The wholesaler shall convert the permitted increase with respect to taxes into a permitted increase per case on the basis of the number of gallons or fractional gallons of each brand, type and quality of California grape wine contained in the particular case. The figures so arrived at shall be adjusted to the next higher even cent if the fraction is ½ cent or over and to the next lower even cent if the fraction is less than ½ cent.

(*c*) *Notification.* When any wholesaler, pursuant to (iii) (*a*) and/or (iii) (*b*), sells any quantity of any brand, type, quality and container size of California grape wine at a price in excess of the maximum prices established with respect thereto under § 1499.2, the wholesaler shall notify retailers in writing according to the provisions of (ii) (*c*) (*1*) (*ii*) hereof in all respects as if such wholesaler were a bottler.

(iv) *Retailers' maximum prices for California grape wine*—(*a*) On and after November 1, 1942, any retailer may add to the maximum prices established for him under § 1499.2 with respect to any brand, type, quality and container size of California grape wine, the following amounts per bottle of dessert wine and table wine:

	Dessert wine	Table wine
½ pint	1	
⅒ gallon	2	1
1 pint	3	1
⅕ gallon	5	2
1 quart	6	2
½ gallon	12	5
1 gallon	23	9

(*b*) *All wines; taxes.* Any retailer may at any time add to the maximum price established for him with respect to California grape wines the amount of any new tax or any increase in an existing tax incident to the sale, delivery, processing or use thereof imposed upon the retailer or any prior vendor after March 31, 1942, by any statute of the United States or any statute or ordinance of any state or subdivision thereof: *Provided*, That such amount has actually been paid or will be payable by the retailer to the proper authorities or to any prior vendor with respect to the particular quantity of California grape wine in question. Retailers shall adjust the amount of any new or increased tax per container size to the next higher even cent if the fraction is ½ cent or over and to the next lower cent if the fraction is less than ½ cent. The provisions of this inferior subdivision (*b*) shall not apply to the increases in the Federal Excise Taxes which become effective November 1, 1942, as such tax increases are included in the retailers' adjustments provided in (iv) (*a*).

(v) *Distillers' maximum prices for California grape spirits*—(*a*) *Permitted increase.* On and after November 1, 1942, any distiller may add to the maximum prices established for him under § 1499.2, with respect to California grape spirits, a permitted increase per gallon computed as hereinafter set forth. For the purposes of such computation, each distiller shall:

(*1*) Compute the weighted average price per ton paid by him during the 1941 season for grapes for crushing purposes.

(*2*) Compute the weighted average price per ton paid or contracted to be paid by him during the 1942 season up to and including October 27, 1942 for grapes to be crushed for grape spirits.

(*3*) Subtract the amount computed under (*1*) from the amount computed under (*2*). The resulting figure so arrived at, or $8.30, whichever is the lower, shall be the "allowable grape cost increase." In the case of growers' cooperatives operating distilleries and in the case of distillers who grow more than 50 percent of the grapes crushed and to be crushed by them, the "allowable grape cost increase" shall be the difference between the average price per ton paid during the 1941 season for all California grapes crushed for wine and brandy ($19.90 per ton) and the average price per ton paid or contracted to be paid for all California grapes purchased during the 1942 season up to and including October 27, 1942, for crushing into wine and brandy, as published by the United States Department of Agriculture, or $8.30, whichever is the lower.

(*4*) Compute the number of tons of grapes acquired or contracted to be acquired by him during the 1942 season up to and including October 27, 1942 for crushing for grape spirits and make a bona fide estimate of the number of additional tons of grapes which will be acquired by him during the remainder of the 1942 season for crushing for grape spirits. The sum of the number of tons of grapes acquired or contracted to be acquired and the estimated number of additional tons of grapes to be acquired shall be the "estimated 1942 grape tonnage."

(*5*) Multiply his "allowable grape cost increase" computed under (*3*) by his "estimated 1942 grape tonnage" computed under (*4*).

(*6*) Convert his "estimated 1942 grape tonnage" into his "estimated 1942 crush" on the basis of 40 gallons of grape spirits per ton of grapes.

(*7*) Divide the dollar amount computed under (*5*) by his "estimated 1942 crush" computed under (*6*). The resulting figure shall be the "permitted increase per gallon."

(*b*) *Taxes.* Any distiller may, at any time, add to the maximum prices established for him with respect to California grape spirits the amount of any new tax or any increase in an existing tax incident to the sale, delivery, processing or use thereof imposed upon the distiller after March 31, 1942, by any statute of the United States or any statute or ordinance of any state or subdivision thereof: *Provided*, That such amount has actually been paid or will be payable by the distiller with respect to the particular quantity of California grape spirits in question.

(vi) (*a*) *Records and reports.* Each vintner of California grape wine and each distiller of California grape spirits shall preserve for so long as the Emergency Price Control Act of 1942 remains in effect, all his existing records relating (*1*) to the number of tons of grapes purchased by him during the 1941 season for crushing purposes and to the prices paid therefor, and (2) to the number of tons of grapes purchased or contracted to be purchased by him during the 1942 season prior to the effective date hereof for crushing respectively for wine and/or grape spirits and to the prices paid or contracted to be paid therefor.

(*b*) Each vintner of California grape wine and each distiller of California grape spirits shall make and preserve for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records relating to the number of tons of grapes purchased by him during the 1942 season subsequent to the effective date hereof, for crushing respectively for wine and/or grape spirits and to the prices paid therefor.

(*c*) On or before November 15, 1942 each vintner of California grape wine and each distiller of California grape spirits shall submit to the Office of Price Administration, Washington, D. C., a statement under oath showing in full the method by which he computed his permitted increase for all wines under (i) (*b*) hereof and/or his permitted increase for grape spirits under (v) (*a*) hereof. Each vintner shall show steps (*1*) to (*11*) inclusive, under (i) (*b*), and each distiller shall show steps (*1*) to (*7*) inclusive under (v) (*a*).

(*d*) On or before January 15, 1943, each vintner of California grape wine and each distiller of California grape spirits shall submit to the Office of Price Administration, Washington, D. C., a statement under oath showing (*1*) the number of tons of grapes actually purchased by him during the 1942 season for crushing respectively for wine and/or grape spirits and the total price actually paid therefor, (2) the total number of gallons of unfinished wine purchased by him from November 1, 1942 to December 31, 1942 and the total price paid therefor, and (*3*) the weighted average selling price per gallon charged by him for dessert wine and for table wine in carload lots, naked, f. o. b. winery from November 1, 1942 to December 31, 1942.

[Supp. Reg. 14[1] to GMPR,[2] Amendment 55]

IMPORTED DISTILLED SPIRITS, ETC.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (41) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of the General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services, and transactions listed below are modified as hereinafter set forth:

(41) *Imported distilled spirits and all wines; automatic adjustments for monopoly states*—(i) *Permitted increases.* In the event that any vendor of imported distilled spirits or wines, whether domestic or imported, is permitted to increase his maximum price to any Monopoly State for any imported distilled spirits or wines to cover any increased cost other than new or increased taxes, such Monopoly State may adjust its maximum prices for such imported distilled spirits or wines by applying to the gross adjusted price (exclusive of new or increased taxes) charged to it by such vendor, the statutory or discretionary percentage mark-up in effect in such Monopoly State on March 31, 1943. In applying such percentage mark-up any Monopoly State may follow its practice as of March 31, 1942 with respect to the disposition of fractional and odd cents.

(ii) *New or increased taxes.* In the event that any vendor of imported distilled spirits or wines, whether domestic or imported, is permitted to increase his maximum price to any Monopoly State for any imported distilled spirits or wines to cover new or increased taxes, such Monopoly State may add to its maximum prices for such imported distilled spirits or wines as adjusted under subparagraph (i) above, the exact amount per case and per container which is furnished to it by its vendor pursuant to subparagraph (iii) below.

(iii) *Notification to monopoly states.* Any vendor who sells any imported distilled spirits or wines, whether domestic or foreign, to any monopoly state shall state upon the face of the invoice covering any particular transaction or upon a written notice prior to shipment (*a*) the gross adjusted price exclusive of any new or increased taxes for each brand, type, quality and container size of imported distilled spirits or wines included in the particular transaction and (*b*) the amount of any new or increased tax with respect to each brand, type, quality and container size of imported distilled spirits or wines included in the particular tansaction: *Provided*, That no notification shall be required after the first notification to any particular monopoly state unless the vendor's maximum price is further adjusted or other new or increased taxes are imposed. The total amount of any new or increased tax shall be computed on the basis of the number of gallons or fractional gallons of the particular brand, type, and quality of imported distilled spirits or wines contained in the particular case. The total amount of any new or increased tax so computed shall then be divided by the number of containers in the case of the particular brand, type, and quality of imported distilled spirits or wines. The figures so arrived at per case and per container shall then be adjusted to the next higher even cent if the fraction is ½ cent or more, and to the next lower even cent if the fraction is less than ½ cent. The final adjusted figures per case and per container shall be the figures stated with respect to new or increased taxes on the invoice or writen notice as provided above.

PART 1499—COMMODITIES AND SERVICES

[Supp. Reg. 15 to GMPR]

FIREWOOD, ETC.

A statement of the considerations involved in the issuance of this supplementary regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.* For the reasons set forth in that statement, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, an Act to amend the Emergency Price Control Act of 1942, etc., and Executive Order No. 9250, this supplementary regulation is hereby issued.

§1499.75 *Adjustment of maximum prices.* (a) The Office of Price Administration, or any duly authorized representative thereof, may adjust any maximum price established under the General Maximum Price Regulation as hereinafter provided. Applications for adjustment under this Supplementary Regulation No. 15 shall be filed in accordance with Revised Procedural Regulation No. 1.[1]

(1) *Firewood.* Whenever any State office of the Office of Price Administration determines that the maximum prices established in §1499.2 of the General Maximum Price Regulation for the sale or delivery of firewood (e. g. cordwood, sawdust, mill ends and shavings and slabwood) are inadequate to insure a sufficient supply of firewood to meet heating requirements in any locality or localities within its jurisdiction, it may adjust such maximum prices to the minimum extent necessary to insure a sufficient supply of firewood therein. Such adjustments shall be made in relation (i) to the increased production costs which sellers of firewood in the locality or localities affected must incur in order to produce such firewood, compared with the costs of production in March 1942 (or the nearest earlier month in which firewood was generally produced in such locality or localities), and/or (ii) the extent of increased transportation costs which must be incurred by sellers of firewood in order to move sufficient supplies thereof to meet the requirements of the locality or localities affected and (iii) such other circumstances as may be pertinent to the procurement of sufficient supplies of firewood to meet the requirements of the locality or localities affected.

(2) *Milk and milk products.* (i) Whenever any Regional Office of the Office of Price Administration determines that (*a*) the use of March 1942 as the base period for the establishment of maximum prices for fluid milk has eliminated a normal differential or established an abnormal differential between the prices charged for fluid milk in any two or more localities within the region served by such Office, (*b*) the elimination of such normal differential or the establishment of such abnormal differential has caused or threatens to cause a diversion of a material portion of its normal supply to fluid milk from one such locality to one or more of such other localities, and (*c*) as the result of such diversion or threatened diversion, a shortage of fluid milk exists or is imminent in such locality, it may, for the

purpose of relieving or preventing such shortage increase or decrease the maximum prices established under § 1499.2 of the General Maximum Price Regulation for the sale or delivery of fluid milk at wholesale and retail in any of such localities to the minimum extent necessary to accomplish such purpose.

(ii) Whenever any Regional Office of the Office of Price Administration determines that *(a)* the price paid to producers by manufacturers of butter, cheese, condensed and evaporated milk, or milk powder for milk produced within the milk-shed upon which any locality within the region served by such Office depends for its supply of fluid milk has increased 23 cents or more per cwt. since March 1942, *(b)* distributors of fluid milk in such locality, in order to obtain the supply of milk for fluid use necessary to satisfy the normal requirements of the locality, are paying producers of such milk at least 23 cents more per cwt. than they paid in March 1942, and *(c)* notwithstanding the savings that have been effected or may be effected as the result of the adoption of all practicable measures designed to reduce distribution costs, such distributors cannot fairly be expected to continue to distribute fluid milk in such locality at the maximum prices established for them under § 1499.2 of the General Maximum Price Regulation, it may increase the maximum prices established under said § 1499.2 for the sale or delivery of fluid milk at wholesale and retail in such locality no more than one-half cent per quart of fluid milk if the prices paid to producers by such manufacturers and such distributors have increased 23 cents to 40 cents per cwt. since March 1942, and no more than one cent per quart of fluid milk if such prices have increased 41 cents or more per cwt. since March 1942: *Provided*, That any order issued pursuant to this subdivision (ii) shall require the distributors affected by such order to file with the Regional Office issuing such order, periodic reports concerning the prices paid by them to producers as such Office may deem necessary and appropriate.

(iii) No order issued pursuant to this subparagraph (2) shall modify the maximum prices established under the General Maximum Price Regulation for the sale or delivery of fluid milk in any city which, according to the Sixteenth Census of the United States, 1940, has a population of 100,000 or more persons, or in any city in which a minimum producer price for milk has been established pursuant to any marketing agreement or order made or issued under the provisions of the Agricultural Marketing Agreement Act of 1937, as amended.

(3) *Services of carrier other than common carrier and storage and terminal services.* The Office of Price Administration, or any Regional Office thereof, may adjust the maximum price established under the General Maximum Price Regulation for any person supplying service as a carrier, other than a common carrier, or for any person supplying storage or terminal service, who shows (i) that such maximum price subjects him to substantial hardship; and (ii) that the adjustment requested is necessary to permit the continuance of the supply of an essential service for which there is no adequate substitute available at a price equal to or lower than the maximum price requested.

Applications for adjustment under this subparagraph (3) shall contain the following information:

(a) Description of applicant's business, including reference to commodities handled and territories served, and setting forth the names and addresses of companies financially or otherwise affiliated.

(b) Names and addresses of principal customers affected by the maximum price adjustment requested in the application.

(c) Reference to, and explanation of, authority granted by any federal or state regulatory agency to perform the service involved in the application.

(d) Present and requested maximum prices.

(e) Volume of commodity tonnage handled from January 1941 to date of application in service for which adjusted maximum price is requested and gross revenue derived from such service; the relationship between such gross revenue and total gross revenue should be shown if service involved in application is only a part of applicant's business.

(f) Detailed description of all equipment and property used by applicant in his business and in the service involved in the application, including date and cost of acquisition, capacity, and normal and present percentage of utilization of capacity (if applicant is a carrier other than a common carrier, his normal and present load factor should be shown; if applicant supplies warehouse service, percentage of total space occupied should be shown).

(g) Classes of employees, wages for each class and number employed in each class.

(h) All additional or increased expenses incurred since the establishment by the applicant of the price concerning which adjustment is requested.

(i) Detailed annual profit and loss statements, accompanied by balance sheets for past three fiscal or calendar years and detailed profit and loss statements supported by balance sheets, by quarters or months for the period from the termination of the last such year to the date of the application, with an explanation of all items contained in such statements; if the service involved in the application forms only a portion of applicant's business, an allocation of items of revenue and expenses should be made.

(j) Statement showing services supplied by others which are available to applicant's customers, prices of such services and adequacy of such services to meet any specialized needs of applicant's customers.

(b) *Effective dates.* (1) Supplementary Regulation No. 15 (§ 1499.75 (a) (1), (2) and (3)) shall become effective 11:59 p. m., November 4, 1942.

[Order 126 Under § 1499.18 (c) of GMPR]

DUNCAN COFFEE COMPANY

Order No. 126 under § 1499.18 (c) of the General Maximum Price Regulation—Docket No. GF3–2111.

For reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1126 *Adjustment of maximum prices for Bright and Early Brand coffee sold by Duncan Coffee Company.* (a) Duncan Coffee Company, Post Office Box 2079, Houston, Harris County, Texas, may sell and deliver, and any person may buy and receive from Duncan Coffee Company, the following commodities at prices not higher than those set forth below:

(1) Bright and Early Brand coffee packed in paper bags of one pound each at 24½¢ per pound.

(2) Duncan Coffee Company shall continue the customary allowances, discounts, price differentials, and trade practices existing in March 1942, unless a change results in a lower selling price.

(b) Purchasers from Duncan Coffee Company or from wholesale distributors of Bright and Early Brand Coffee shall in no event charge more for Bright and Early Brand Coffee sold at retail than their maximum prices determined under section 2 (a) of the General Maximum Price Regulation, or as such maximum price may be adjusted under any other regulation issued by the Office of Price Administration.

(c) Before or at the time of the first delivery to any wholesaler or retailer of Bright and Early Brand coffee at the maximum price permitted by this order, Duncan Coffee Company shall supply to each purchaser a written statement as follows:

> A price increase of one and one-half cents per pound on Bright and Early Brand coffee has been granted us by the Office of Price Administration. This increase was granted because our March 1942 selling price was abnormally low in relation to our costs of production, and the resulting hardship would have made it impossible to continue production. Our new maximum price of 24½¢ per pound is subject to all allowances, discounts, price differentials and trade practices we had in effect in March 1942 with respect to sales of Bright and Early Brand coffee. Your established ceiling price cannot be increased except that your maximum delivered selling price may be increased to the extent of adjusted mark-ups determined under the provisions of Maximum Price Regulation No. 237 (Adjusted and Fixed Mark-Up Regulation for Sales of Certain Food Products at Wholesale) or Maximum Price Regulation No. 238 (Adjusted and Fixed Mark-up Regulation for Sales of Certain Food Products at Retail).

(d) All prayers of the petition not granted herein are denied.

(e) This Order No. 126 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 126 is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modification of maximum prices established by § 1499.2.

(g) This Order No. 126 (§ 1499.1126) shall become effective November 2, 1942.

PURPOSE OF REVISED PROCEDURAL REGULATION NO. 1

§ 1300.1 *Purposes.* It is the purpose of this regulation to prescribe and explain the procedure used by the Office of Price Administration in making various kinds of price determinations.

(a) Subpart A deals with the procedure of the Office of Price Administration in issuing price regulations.

(b) Subpart B deals with individual applications for adjustment of maximum prices established by a price regulation. An adjustment ordinarily affects the prices of one particular seller or group of sellers who apply for a change in their prices. An adjustment can be granted only if the applicable price regulation contains specific provision for the granting of an adjustment.

(c) Subpart C deals with petitions for amendment. A petition for amendment is the appropriate document to file when a seller seeks a change of general applicability in the terms of a price regulation itself.

(d) Subpart D deals with protests. A protest is the means provided by the Emergency Price Control Act of 1942 for making a formal claim that a price regulation is in some respect invalid. Only if a protest has been filed and denied may the protestant file a complaint with the Emergency Court of Appeals to have the price regulation enjoined or set aside in whole or in part.

(e) Subpart E explains the way in which interpretations are rendered by officers or employees of the Office of Price Administration.

(f) Subpart F contains miscellaneous provisions and definitions.

SUBPART A—ISSUANCE OF MAXIMUM PRICE REGULATIONS

§ 1300.2 *Investigation prior to issuance.* A maximum price regulation may be issued by the Administrator after such studies and investigations as he deems necessary or proper. Before issuing a maximum price regulation the Administrator shall, so far as is practicable, advise and consult with representative members of the industry which will be affected by such regulation.

§ 1300.3 *Price hearing prior to issuance.* Whenever the Administrator deems it necessary or proper that a price hearing be held prior to the issuance of a maximum price regulation, he may provide for such hearing in accordance with §§ 1300.4 and 1300.5 of this revised procedural regulation.

§ 1300.4 *Notice of pre-issuance hearing.* Notice of any price hearing ordered prior to the issuance of a maximum price regulation shall be given by publication of such notice in the FEDERAL REGISTER, and may be supplemented by notice given in any other appropriate manner. The notice shall state the time and place of the price hearing and shall contain an appropriate indication of the purposes of such hearing.

§ 1300.5 *Conduct of pre-issuance hearing.* A price hearing held prior to the issuance of a maximum price regulation shall be conducted in such manner, consistent with the need for expeditious action, as will permit the fullest possible presentation of evidence by such persons as are, in the judgment of the Administrator, best qualified to provide information with respect to matters considered at the hearing or most likely to be seriously affected by action which may be taken as a result of the hearing.

§ 1300.6 *Statement of considerations.* Every maximum price regulation shall be accompanied by a statement of the considerations involved in its issuance. Such statement may include economic data and other facts of which the Administrator has taken official notice and facts found by the Administrator as a result of action taken under section 202 (a) of the Act.

§ 1300.7 *Notice of provisions of a maximum price regulation.* Notice of the provisions of a maximum price regulation shall be given by filing such regulation with the Division of the Federal Register. As soon as possible after the filing of such regulation, the Administrator shall make copies thereof available to the press.

---

[1] 7 F.R. 971, 3663, 5776.

§ 1300.8 *Effective date.* A maximum price regulation shall become effective five days after the date of its issuance and a temporary maximum price regulation shall be effective from the date of the filing of such regulation with the Division of the Federal Register, unless an earlier or later date is specified therein.

SUBPART B—APPLICATIONS FOR ADJUSTMENT

§ 1300.9 *Right to apply for adjustment.* Unless otherwise provided, any person subject to a maximum price regulation, price schedule or temporary maximum price regulation who seeks adjustment under an adjustment provision thereof, shall make application therefor pursuant to the provisions of this Revised Procedural Regulation No. 1.

§ 1300.10 *Place of filing.* All applications may be filed with a district, state or regional office of the Office of Price Administration or with the Office of Price Administration, Washington, D. C., without regard to whether such office is authorized to consider such applications. If the office with which the application is filed is not so authorized it will forward such application to the authorized office and shall notify the applicant by mail of such forwarding. If an adjustment provision in a maximum price regulation indicates which office of the Office of Price Administration is authorized to consider applications for adjustment, action on applications will be expedited if it is filed with the nearest office authorized to consider it.

A joint application shall be verified by each applicant in accordance with § 1300.13, and shall be filed and determined in accordance with the rules governing the filing and determination of applications filed by one person. Whenever the authorized office deems it necessary or appropriate for the disposition of joint applications, it may treat such joint applications separately and, in any event, may require the filing of materials relevant to the individual position of each person joining therein.

§ 1300.15 *Investigation of application.* Upon receipt of an application for adjustment, the authorized office or any office designated by the authorized office may make such investigation of the facts involved in the application, hold such conferences, and request the filing of such supplementary information as may be necessary to the proper disposition of the application.

§ 1300.16 *Action by the authorized office on applications for adjustment.* Within a reasonable time after receiving an application for adjustment, the authorized office may either

§ 1300.17 *Requests for review.* Any applicant whose application for adjustment has been denied in whole or in part by a state or district office, may within fifteen days after the date on which notice of denial was mailed to him, file with such office a request for review by the regional office for the region in which such office is located. Any applicant whose application for adjustment has been denied in the first instance in whole or in part by a regional office may, within fifteen days after the date on which such notice of denial was mailed to him, file with such regional office a request for review of such denial by the Administrator. If an application for adjustment is denied by any regional office upon a request for review, such denial shall be final subject only to protest as provided in § 1300.19. Where no form has otherwise been provided, a request for review shall be filed on Form OPA–1PR–2 set out in § 1300.61, Appendix B. This form may be obtained from any field office of the Office of Price Administration or may be copied by the applicant from Appendix B.

§ 1300.18 *Action on review.* After due consideration, the Administrator, or the regional office, as the case may be, shall grant or deny in whole or in part, any application for adjustment as to which a proper request for review has been filed. The applicant shall be informed in writing of the action so taken.

§ 1300.19 *Protest of denial of application.* Any applicant whose application for adjustment is denied in whole or in part by the Administrator or by any regional office upon requests for review, may within sixty days after issuance of a formal order of denial file a protest against such order in accordance with the provisions of this Revised Procedural Regulation No. 1. Such protest may not be based upon grounds not raised in the application for adjustment.

§ 1300.20 *Right to file a petition.* (a) A petition for amendment may be filed at any time by any person subject to or affected by a provision of a maximum price regulation. The denial of a petition for amendment is not subject to protest or judicial review under the Act.

(b) Any governmental agency exercising regulatory authority over prices which are subject to a maximum price regulation may file a petition for amendment of either general or specific applicability based upon findings made by such agency after public hearing.

The petition shall be accompanied by affidavits setting forth the evidence upon which the petitioner relies in his petition.

§ 1300.22 *Joint petitions for amendment.* Two or more persons may file a joint petition for amendment. Joint petitions shall be filed and determined in accordance with the rules governing the filing and determination of petitions filed by one person. A joint petition may be filed only where at least one ground is common to all persons joining it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint petitions, he may treat such joint petitions as several and, in any event, he may require the filing of relevant material by each individual petitioner.

§ 1300.23 *Action by the Administrator on petition.* In the consideration of any petition for amendment the Administrator may afford to the petitioner and to other persons likely to have information bearing upon such proposed amendment, or likely to be affected thereby, an opportunity to present evidence or argument in support of, or in opposition to, such proposed amendment. Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more petitions for amendment, the Administrator may consolidate such petitions.

SUBPART D—PROTESTS

§ 1300.24 *Right to protest.* Any person subject to any provision of a maximum price regulation may file a protest against such provision in the manner set forth below. A person is, for the purposes of this revised procedural regulation, subject to a provision of a maximum price regulation only if such provision prohibits or requires action by him: *Provided, however,* That a producer of an agricultural commodity shall be considered to be subject to a maximum price regulation for the purpose of asserting any right created by section 3 (c) of the Emergency Price Control Act of 1942 or, section 3 of the Act of October 2, 1942 (Pub. § 1300.26 *Time and place for filing protests.* Any protest against a provision of a maximum price regulation shall be filed with the Secretary, Office of Price Administration, Washington, D. C. within a period of sixty days after the date of issuance of such regulation, regardless of the effective date prescribed therein: *Provided, however,* That any protest based solely on grounds arising after the date of issuance of a maximum price regulation shall be filed within a period of sixty days after the protestant has had, or could reasonably have had, notice of the existence of such grounds: *Provided, further,* That protests of any person having his principal place of business in a territory, shall be filed with the director of the appropriate territorial office.

§ 1300.27 *Form of protest.* Every protest shall contain, upon the first page thereof, the number and the date of issuance of the maximum price regulation against a provision of which the protest is made and shall be clearly designated a "Protest". (g) A statement signed and sworn to (or affirmed) before an officer authorized to take oaths either by the protestant personally or, if a partnership, by a partner or if a corporation or association, by a duly authorized officer, that the protest and the documents filed therewith are prepared in good faith and that the facts alleged are true to the best of his knowledge, information and belief. The protestant shall specify which of the facts are alleged and known to be true and which are alleged on information and belief.

§ 1300.30 *Affidavits or other written evidence in support of protest.* Every protestant shall file; together with his protest, the following:

(a) Affidavits setting forth in full all the evidence, the presentation of which is subject to the control of the protestant, upon which the protestant relies in support of the facts alleged in the protest. Each such affidavit shall state the name, post office address, and occupation of the affiant; his business connection, if any, with the protestant; and whether the facts set forth in the affidavit are stated from personal knowledge or on information and belief. In every instance the affiant shall state in detail the sources of his information.

§ 1300.32 *Joint protests.* Two or more persons may file a joint protest. Joint protests shall be filed and determined in accordance with the rules governing the filing and determination of protests filed by one person. A joint protest shall be verified in accordance with § 1300.29 (g) by each protestant. A joint protest may be filed only where at least one ground is common to all persons joining in it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by each individual protestant.

§ 1300.33 *Amendment of protest and presentation of supplemental evidence.* (a) The protestant may amend his protest or his affidavits and briefs submitted therewith, or may add to such material within a period of sixty days after the issuance of the maximum price regulation against a provision of which the protest is filed, or, in the case of a protest based solely on grounds arising after the date of issuance of a maximum price regulation, within sixty days after the protestant has had or could reasonably have had notice of the existence of such grounds.

(b) After the time prescribed in paragraph (a) of this section a protestant may be granted permission to amend his protest or to present further evidence in connection therewith when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest. No amendment which adds a new ground of protest will be permitted.

§ 1300.34 *Protest and evidential material not conforming to this regulation.* In any case where a protest or accompanying evidential material does not conform, in a substantial respect, to this revised procedural regulation, the Administrator may dismiss such protest, or, in his discretion, may strike such evidential material from the record of the proceedings in connection with the protest.

§ 1300.35 *Action by the Administrator on protest.* (a) Within a reasonable time after the filing of any protest in accordance with this revised procedural regulation, but in no event more than thirty days after such filing or ninety days after the issuance of the maximum price regulation against a provision of which the protest is filed, whichever occurs later, the Administrator shall:

(1) Grant or deny such protest in whole or in part.

(2) Notice such protest for oral hearing, to be held in accordance with the provisions of §§ 1300.39 to 1300.47, inclusive, of this revised procedural regulation; or

(3) Provide an opportunity to present further evidence in connection with such protest. Within a reasonable time after the presentation of such further evidence, the Administrator may notice such protest for oral hearing in accordance with subparagraph (2) of this section, may include additional material in the record of the proceedings in connection with the protest in accordance with § 1300.37 of this revised procedural regulation, or may take such other action as may be appropriate to the disposition of the protest.

(b) Notice of any such action taken by the Administrator shall promptly be served upon the protestant.

(c) Where the Administrator has ordered a hearing on a protest or has provided an opportunity for the presentation of further evidence in connection therewith, he shall, within a reasonable time after the completion of such hearing or the presentation of such evidence, grant or deny such protest in whole or in part.

§ 1300.36 *Statements in support of maximum price regulation.* (a) Any person affected by the provisions of a maximum price regulation may at any time after the issuance of such regulation submit to the Administrator a statement in support of any such provision or provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum price regulation in question, and may be accompanied by affidavits and other data. Each such supporting statement shall conform to the requirements of § 1300.27 of this revised procedural regulation.

(b) In the event that a protest has been, or is subsequently, filed to a provision of a maximum price regulation in support of which a statement has been submitted, the Administrator may include such statement in the record of the proceedings taken in connection with such protest. If such supporting statement is incorporated into the record, and is not so incorporated at an oral hearing, copies of such supporting statement shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.37 *Inclusion of material in the record by the Administrator.* The Administrator shall include in the record of the proceedings on the protest such evidence, in the form of affidavits or otherwise, as he deems appropriate in support of the provision against which the protest is filed. When such evidence is incorporated into the record, and is not so incorporated at an oral hearing, copies thereof shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.38 *Consolidation of protests.* Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests the Administrator may consolidate such protests.

ORAL HEARINGS ON PROTESTS

§ 1300.39 *Requests for oral hearing.* Any protestant may request an oral hearing. Such request shall be accompanied by a showing by the protestant as to why the filing of affidavits or other written evidence and briefs will not permit the fair and expeditious disposition of the protest. In the event that the Administrator orders an oral hearing in connection with a protest, notice shall be served on the protestant not less than five days prior to such hearing. The time and place of the hearing shall be stated in the notice. Any oral hearing ordered by the Administrator may be limited in such manner and to the extent that he deems appropriate.

§ 1300.40 *Conference prior to oral hearing.* At any time prior to the commencement of the oral hearing, the Administrator may request the protestant to appear at a conference to consider: (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact and of documents which will avoid unnecessary proof; and (c) such other matters as may expedite the conduct of the oral hearing. No transcript of such conference shall be kept, but the Administrator shall incorporate in the record of the proceedings any written stipulations or agreements made at, or as a result of, the conference. If the circumstances are such that an oral conference is impracticable, the Administrator may direct that such negotiations be conducted by correspondence.

§ 1300.41 *Continuance or adjournment of oral hearing.* The oral hearing shall be held at the time and place specified by the notice of hearing but may be continued or adjourned to a later day or to a different place. Notice of such adjournment or continuance may be by announcement at the oral hearing.

§ 1300.42 *Conduct of the oral hearing.* The oral hearing shall be conducted by the Administrator or such officer or employee of the Office of Price Administration (hereinafter referred to as the "presiding officer") as the Administrator may appoint or designate for that purpose, except that in respect to protests involving Maximum Price Regulation No. 120—Bituminous Coal Delivered From Mine or Preparation Plant, the Administrator may appoint or designate an officer or employee of the Bituminous Coal Division of the United States Department of Interior to conduct the hearing.

§ 1300.43 *Filing of briefs.* The presiding officer shall allow the protestant to file briefs or written arguments within such time as he shall designate.

§ 1300.44 *Subpoenas.* (a) Applications for subpoenas, when made prior to the oral hearing, may be filed by the protestant with the Secretary. The Administrator may grant or deny the application or refer it to the presiding officer appointed or designated under § 1300.42, who may thereafter grant or deny the application. Applications for subpoenas made during the oral hearing shall be submitted to the presiding officer, who may grant or deny such application.

(b) All applications for subpoenas shall specify the name of the witness and the nature of the facts to be proved by him and, if calling for the production of documents, shall specify them with such particularity as will enable them to be identified for purposes of production.

(c) Service of a subpoena upon a person named therein shall be made by delivering a copy thereof to such person and by tendering to him the fees and mileage specified in section 202 (f) of the Act. When the subpoena is issued at the instance of the Administrator fees and mileage need not be tendered.

§ 1300.45 *Witnesses.* Witnesses summoned before the presiding officer at any protest hearing shall be paid the fees and mileage specified by section 202 (f) of the Act. Witness fees and mileage shall be paid by the person at whose instance the witness appears.

§ 1300.46 *Contemptuous conduct.* Contemptuous conduct at any oral hearing shall be ground for exclusion from the hearing. The refusal of a witness to answer any question which has been ruled to be proper shall, in the discretion of the presiding officer, be ground for the striking out of all testimony previously given by such witness on related matters.

§ 1300.47 *Stenographic report of oral hearing.* A stenographic report of the oral hearing shall be made, a copy of which shall be available for inspection during business hours in the Office of the Secretary, Office of Price Administration, Washington, D. C.

OPINION AND TRANSCRIPT

§ 1300.48 *Opinion denying protest in whole or in part.* In the event that the Administrator denies any protest in whole or in part, he shall inform the protestant of the grounds upon which such decision is based, and of any economic data and other facts of which the Administrator has taken official notice.

§ 1300.49 *Treatment of protest as petition for amendment or an application for adjustment or exception.* Any protest filed against a provision of a maximum price regulation may, in the discretion of the Administrator, be treated not only as a protest but also as a petition for amendment of the regulation protested, or as an application for adjustment or exception pursuant thereto, when the facts produced in connection with the protest justify such treatment.

§ 1300.50 *Transcript for judicial review.* The transcript for judicial review shall include: (a) the maximum price regulation against a provision of which the protest was filed; (b) the statement of considerations accompanying such regulation; (c) the protest; (d) a statement setting forth, as far as practicable, the economic data and other facts of which the Administrator has taken official notice; and (e) such other portions of the proceedings in connection with the protest as are material under the complaint.

Action taken in reliance upon and in conformity with an official interpretation and prior to any revocation or modification thereof or to any superseding thereof by regulation, order or amendment, shall constitute action in good faith pursuant to the provision of the Act, or of the regulation, price schedule, order, requirement or agreement to which such official interpretation relates. If the interpretation will affect operations of establishments located in more than one state, the request shall name the states in which the establishments are located. No interpretation shall be requested or given with respect to any hypothetical situation or in response to any hypothetical question.

(b) *Interpretation to be written; authorized officials.* Official interpretations shall be given only in writing, signed by one of the following officers of the Office of Price Administration: the Price Administrator, the General Counsel, any Associate or Assistant General Counsel, any Regional Attorney, any Regional Price Attorney, any State Attorney, or State Price Attorney and any Chief Attorney or Chief Price Attorney for a District Office: *Provided,* That interpretations of general application shall be announced only by the Price Administrator, the General Counsel, any Associate or Assistant General Counsel, or any Regional Attorney. The applicant shall be informed in writing of the action so taken.

§ 1300.19 *Protest of denial of application.* Any applicant whose application for adjustment is denied in whole or in part by the Administrator or by any regional office upon requests for review may within sixty days after issuance of a formal order of denial file a protest against such order in accordance with the provisions of this Revised Procedural Regulation No. 1. Such protest may be based upon grounds not raised in the application for adjustment.

SUBPART C—PETITION FOR AMENDMENT

§ 1300.20 *Right to file a petition.* (a) A petition for amendment may be filed at any time by any person subject to or affected by a provision of a maximum price regulation. The denial of a petition for amendment is not subject to protest or judicial review under the Act.

(b) Any governmental agency exercising regulatory authority over prices which are subject to a maximum price regulation may file a petition for amendment of either general or specific applicability based upon findings made by such agency after public hearing.

§ 1300.23 *Action by the Administrator on petition.* In the consideration of any petition for amendment the Administrator may afford to the petitioner and to other persons likely to have information bearing upon such proposed amendment, or likely to be affected thereby, an opportunity to present evidence or argument in support of, or in opposition to, such proposed amendment. Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more petitions for amendment, the Administrator may consolidate such petitions.

§ 1300.32 *Joint protests.* Two or more persons may file a joint protest. Joint protests shall be filed and determined in accordance with the rules governing the filing and determination of protests filed by one person. A joint protest shall be verified in accordance with § 1300.29 (g) by each protestant. A joint protest may be filed only where at least one ground is common to all persons joining in it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by each individual protestant.

§ 1300.33 *Amendment of protest and presentation of supplemental evidence.* (a) The protestant may amend his protest or his affidavits and briefs submitted therewith, or may add to such material within a period of sixty days after the issuance of the maximum price regulation against a provision of which the protest is filed, or, in the case of a protest based solely on grounds arising after the date of issuance of a maximum price regulation, within sixty days after the protestant has had or could reasonably have had notice of the existence of such grounds.

(b) After the time prescribed in paragraph (a) of this section a protestant may be granted permission to amend his protest or to present further evidence in connection therewith when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest. No amendment which adds a new ground of protest will be permitted.

§ 1300.34 *Protest and evidential material not conforming to this regulation.* In any case where a protest or accompanying evidential material does not conform, in a substantial respect, to this revised procedural regulation, the Administrator may dismiss such protest, or, in his discretion, may strike such evidential material from the record of the proceedings in connection with the protest.

§ 1300.35 *Action by the Administrator on protest.* (a) Within a reasonable time after the filing of any protest in accordance with this revised procedural regulation, but in no event more than thirty days after such filing or ninety days after the issuance of the maximum price regulation against a provision of which the protest is filed, whichever occurs later, the Administrator shall:

(1) Grant or deny such protest in whole or in part.

(2) Notice such protest for oral hearing, to be held in accordance with the provisions of §§ 1300.39 to 1300.47, inclusive, of this revised procedural regulation; or

(3) Provide an opportunity to present further evidence in connection with such protest. Within a reasonable time after the presentation of such further evidence, the Administrator may notice such protest for oral hearing in accordance with subparagraph (2) of this section, may include additional material in the record of the proceedings in connection with the protest in accordance with § 1300.37 of this revised procedural regulation, or may take such other action as may be appropriate to the disposition of the protest.

(b) Notice of any such action taken by the Administrator shall promptly be served upon the protestant.

(c) Where the Administrator has ordered a hearing on a protest or has provided an opportunity for the presentation of further evidence in connection therewith, he shall, within a reasonable time after the completion of such hearing or the presentation of such evidence, grant or deny such protest in whole or in part.

§ 1300.36 *Statements in support of maximum price regulation.* (a) Any person affected by the provisions of a maximum price regulation may at any time after the issuance of such regulation submit to the Administrator a statement in support of any such provision or provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum price regulation in question, and may be accompanied by affidavits and other data. Each such supporting statement shall conform to the requirements of § 1300.27 of this revised procedural regulation.

(b) In the event that a protest has been, or is subsequently, filed to a provision of a maximum price regulation in support of which a statement has been submitted, the Administrator may include such statement in the record of the proceedings taken in connection with such protest. If such supporting statement is incorporated into the record, and is not so incorporated at an oral hearing, copies of such supporting statement shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.37 *Inclusion of material in the record by the Administrator.* The Administrator shall include in the record of the proceedings on the protest such evidence, in the form of affidavits or otherwise, as he deems appropriate in support of the provision against which the protest is filed. When such evidence is incorporated into the record, and is not so incorporated at an oral hearing, copies thereof shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.38 *Consolidation of protests.* Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests the Administrator may consolidate such protests.

ORAL HEARINGS ON PROTESTS

§ 1300.39 *Requests for oral hearing.* Any protestant may request an oral hearing. Such request shall be accompanied by a showing by the protestant as to why the filing of affidavits or other written evidence and briefs will not permit the fair and expeditious disposition of the protest. In the event that the Administrator orders an oral hearing in connection with a protest, notice shall be served on the protestant not less than five days prior to such hearing. The time and place of the hearing shall be stated in the notice. Any oral hearing ordered by the Administrator may be limited in such manner and to the extent that he deems appropriate.

§ 1300.40 *Conference prior to oral hearing.* At any time prior to the commencement of the oral hearing, the Administrator may request the protestant to appear at a conference to consider: (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact and of documents which will avoid unnecessary proof; and (c) such other matters as may expedite the conduct of the oral hearing. No transcript of such conference shall be kept, but the Administrator shall incorporate in the record of the proceedings any written stipulations or agreements made at, or as a result of, the conference. If the circumstances are such that an oral conference is impracticable, the Administrator may direct that such negotiations be conducted by correspondence.

§ 1300.41 *Continuance or adjournment of oral hearing.* The oral hearing shall be held at the time and place specified by the notice of hearing but may be continued or adjourned to a later day or to a different place. Notice of such adjournment or continuance may be by announcement at the oral hearing.

§ 1300.42 *Conduct of the oral hearing.* The oral hearing shall be conducted by the Administrator or such officer or employee of the Office of Price Administration (hereinafter referred to as the "presiding officer") as the Administrator may appoint or designate for that purpose, except that in respect to protests involving Maximum Price Regulation No. 120—Bituminous Coal Delivered From Mine or Preparation Plant, the Administrator may appoint or designate an officer or employee of the Bituminous Coal Division of the United States Department of Interior to conduct the hearing.

§ 1300.43 *Filing of briefs.* The presiding officer shall allow the protestant to file briefs or written arguments within such time as he shall designate.

§ 1300.44 *Subpoenas.* (a) Applications for subpoenas, when made prior to the oral hearing, may be filed by the protestant with the Secretary. The Administrator may grant or deny the application or refer it to the presiding officer appointed or designated under § 1300.42, who may thereafter grant or deny the application. Applications for subpoenas made during the oral hearing shall be submitted to the presiding officer, who may grant or deny such application.

(b) All applications for subpoenas shall specify the name of the witness and the nature of the facts to be proved by him and, if calling for the production of documents, shall specify them with such

particularity as will enable them to be identified for purposes of production.

(c) Service of a subpoena upon a person named therein shall be made by delivering a copy thereof to such person and by tendering to him the fees and mileage specified in section 202 (f) of the Act. When the subpoena is issued at the instance of the Administrator fees and mileage need not be tendered.

§ 1300.45 *Witnesses.* Witnesses summoned before the presiding officer at any protest hearing shall be paid the fees and mileage specified by section 202 (f) of the Act. Witness fees and mileage shall be paid by the person at whose instance the witness appears.

§ 1300.46 *Contemptuous conduct.* Contemptuous conduct at any oral hearing shall be ground for exclusion from the hearing. The refusal of a witness to answer any question which has been ruled to be proper shall, in the discretion of the presiding officer, be ground for the striking out of all testimony previously given by such witness on related matters.

§ 1300.47 *Stenographic report of oral hearing.* A stenographic report of the oral hearing shall be made, a copy of which shall be available for inspection during business hours in the Office of the Secretary, Office of Price Administration, Washington, D. C.

OPINION AND TRANSCRIPT

§ 1300.48 *Opinion denying protest in whole or in part.* In the event that the Administrator denies any protest in whole or in part, he shall inform the protestant of the grounds upon which such decision is based, and of any economic data and other facts of which the Administrator has taken official notice.

§ 1300.49 *Treatment of protest as petition for amendment or an application for adjustment or exception.* Any protest filed against a provision of a maximum price regulation may, in the discretion of the Administrator, be treated not only as a protest but also as a petition for amendment of the regulation protested, or as an application for adjustment or exception pursuant thereto, when the facts produced in connection with the protest justify such treatment.

§ 1300.50 *Transcript for judicial review.* The transcript for judicial review shall include: (a) the maximum price regulation against a provision of which the protest was filed; (b) the statement of considerations accompanying such regulation; (c) the protest; (d) a statement setting forth, as far as practicable, the economic data and other facts of which the Administrator has taken official notice; and (e) such other portions of the proceedings in connection with the protest as are material under the complaint.

Chapter XIII—Office of Petroleum Coordinator for War

[Recommendation 55]

PART 1504—PROCESSING AND REFINING

CONSERVATION OF PARATONE

To Stanco Distributors, Inc., and to all purchasers and users of Paratone: The current stock position of Paratone, a petroleum polymer and Viscosity Index improver, is insufficient for military and essential industrial and civilian needs.

Therefore, in order to bring about that action required by the President's letter of May 28, 1941, defining the objectives and duties of the Office of Petroleum Coordinator for War and pursuant thereto, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1504.74 to 1504.78, inclusive, issued under the President's letter of May 28, 1941 to the Secretary of the Interior; 6 F.R. 2760.

§ 1504.74 *Definitions.* (a) "Paratone" means that petroleum polymer produced and sold by such name as a Viscosity Index improver.

(b) "Aviation lubricating oil" means any refined petroleum oil for lubricating aircraft engines which meets Army-Navy Aeronautical Specification No. AN-VV-O-446, dated December 15, 1941, including any amending or superseding specification therefor that may be issued from time to time, or any comparable specification of the British Petroleum Mission.

(c) "Recoil oil" means any refined petroleum oil for use in recoil mechanisms which meets any current specification of the United States Army or Navy or of the British Petroleum Mission, for such an oil.

(d) "Hydraulic oil" means any refined petroleum oil for use in hydraulic systems which meets any current specification of the United States Army or Navy or of the British Petroleum Mission, for such an oil.

§ 1504.75 *Restrictions on delivery of paratone.* Until the reserve supply specified in § 1504.76 is established at the maximum figure, Stanco Distributors, Inc., shall not deliver Paratone to any person or to any affiliate of itself except where such Paratone is to be used directly in the production of aviation lubricating oil, recoil oil, or hydraulic oil. Each person accepting delivery of Paratone from Stanco Distributors, Inc., shall certify to Stanco Distributors, Inc., by written certificate or endorsement that such Paratone will be used in compliance with the provisions of this section, and such certification shall constitute a representation to that effect to Stanco Distributors, Inc., and this Office.

After the establishment of the reserve supply specified in § 1504.76 of this chapter at the maximum figure, Stanco Distributors, Inc., may deliver and any person and any affiliate of Stanco Distributors, Inc. may accept delivery of Paratone without regard to the provisions of the first paragraph of this section to the extent and only to the extent that such deliveries of Paratone are not made from the reserve supply. No written certification or endorsement shall be required with respect to deliveries not made from the reserve supply.

§ 1504.76 *Reserve supply.* Stanco Distributors, Inc., shall continue to produce Paratone at not less than its current rate of production and shall hold any Paratone, produced in excess of the amount required for fulfillment of the permitted deliveries made pursuant to the first paragraph of § 1504.75 of this chapter, in storage until the amount thereof aggregates 100,000 gallons (of a concentration not lower than the present Paratone specification). Paratone so held in storage in amounts which in the aggregate are not in excess of 100,000 gallons shall constitute the reserve supply. At the end of each calendar month,

---

[1] Or if applicable, Revised Price Schedule No. -------------------------, Temporary Maximum Price Regulation No. ------------ or the General Maximum Price Regulation.

Stanco Distributors, Inc., shall address a letter to the Director of Refining, Office of Petroleum Coordinator for War, stating the amount of Paratone it holds in storage and the total of its unfilled orders.

§ 1504.77 *War Production Board regulations and orders.* Nothing contained in this recommendation shall be construed to affect or limit, in any wise, any provision of any regulation, order or direction issued by the War Production Board.

§ 1504.78 *Exceptions.* Any person affected by this recommendation who can show that compliance therewith would work an exceptional and unreasonable hardship on him may apply in writing to the Director of Refining, Office of Petroleum Coordinator for War, for an exception, stating in full the facts upon which the application is based and the extent to which the exception is requested.

RALPH K. DAVIES,
Deputy Petroleum Coordinator for War.

[Recommendation 56]

PART 1504—PROCESSING AND REFINING

PRODUCTION OF PETROLEUM COKE

To Refiners having coking facilities:

Raw petroleum coke of high quality is an essential war material for the manufacture of electrodes and other critical products. The present supply and production of such coke is insufficient to meet the present and projected requirements of such products. In part at least, this deficiency can be corrected by the fullest capacity operation of existing coking facilities in certain refineries best adapted to the production of such coke from the standpoints of availability of raw materials, character of equipment and operation, accessibility to transportation and effect on the production of other war products.

Therefore, in order to bring about that action required by the President's letter of May 28, 1941 defining the objectives and duties of the Office of Petroleum Coordinator for War and pursuant thereto, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1504.82 to 1504.86, inclusive, issued under the President's letter of May 28, 1941, to the Secretary of the Interior; 6 F.R. 2760.

To all persons (including departments, agencies and officers of the United States) engaged in the procurement, transportation or forwarding of Lend-Lease cargo, or cargo procured, transported or forwarded for the government of any country whose defense has been deemed by the President to be vital to the defense of the United States pursuant to the Act of March 11, 1941 (which government is hereinafter referred to as a Lend-Lease government):

Whereas the War Shipping Administrator (hereinafter referred to as the Administrator) is charged with the responsibility of coordinating the functions and facilities of public and private agencies engaged in forwarding and similar servicing of waterborne export and import foreign commerce of the United States and controlling the operation and use of ocean shipping (other than troopships and other vessels excluded from the Administrator's control under section 2 (a) of Executive Order 9054) for the successful prosecution of the war; and

WAR PRODUCTION BOARD.

METAL MILLS, AND OTHER SUPPLIERS OF PRP UNITS

USE OF CERTAIN CONTRACT NUMBERS ON APPLICATIONS

The War Production Board has in the past required certain suppliers of scarce materials to furnish Army and Navy contract numbers on applications for approval of shipments of materials. Hereafter, applications for approval of shipments of materials to be used by the purchaser in the manufacture of articles ordinarily sold from stock (and not for the manufacture of articles on specific order) will not be denied on the ground that Army or Navy contract numbers are omitted, if PRP certificate serial numbers are furnished in lieu of the contract numbers.

Consequently, metal mills and other suppliers of PRP units should not refuse acceptance of purchase orders for materials for the manufacture of articles ordinarily sold from stock, on the ground that Army or Navy contract numbers have been omitted, if PRP certificate serial numbers are given.

PRP units, have, however, been instructed to furnish Army and Navy contract numbers where they can do so without undue inconvenience or delay. Consequently, you should furnish Army and Navy contract numbers with respect to purchase orders for material to be used in the manufacture of articles on specific order, and in any other case where the numbers are given to you.

Issued this 3d day of November 1942.

Director General for Operations.

TITLE 7—AGRICULTURE

Subchapter A—Office of the Secretary

[Conservation Order DA-1]

PART 3—MILK AND MILK PRODUCTS

SPRAY DRIED SKIM MILK

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain foods for defense, for private account, and for export. The Food Requirements Committee of the War Production Board has determined that at least 90 per centum of the production of dried skim milk is needed to meet governmental war requirements; therefore, the following order, issued pursuant to authority conferred by Directive No. 12[1] dated October 31, 1942, of the War Production Board, is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3.1 *Conservation Order DA-1; spray dried skim milk*—(a) *Definitions.* (1) "Spray dried skim milk" means dried skim milk produced by a spray process.

(2) "Dried skim milk" means the food products, variously known as "dried skim milk," "powdered skim milk," or "skim milk powder," which is made by drying sweet cowsmilk from which the fat has been separated and which conforms with standards promulgated[2] for such product under the Federal Food, Drug, and Cosmetic Act.

(3) "Person" means any individual, partnership, corporation, association, or other business entity.

(b) *Restrictions on manufacturers.* (1) Every manufacturer of spray dried skim milk shall set aside at least 90 per centum of the spray dried milk produced by him during the period November 5, 1942, to November 30, 1942, inclusive, and during each subsequent calendar month for delivery to the Agricultural Marketing Administration (Federal Surplus Commodities Corporation), Army, Navy, Marine Corps, Coast Guard, War Shipping Administration or any other governmental agency designated by the Secretary of Agriculture.

(2) If no governmental unit, or agency, specified in paragraph (b) (1) has contracted for, or declared its intention or desire to contract for, any portion of the set-aside quantity within 30 days after the end of the month in which such quantity was set aside by the manufacturers, such manufacturers may be deemed released from the restrictions of paragraph (b) (1). Quantities set aside may also be released by notice to that effect from the Administrator, Agricultural Marketing Administration, United States Department of Agriculture, or from any governmental agency specifically authorized by him to issue such notice.

(3) The restrictions of paragraph (b) (1) shall be observed without regard to existing constracts or any payments made or any other action taken thereunder. However, this order shall not be construed as reducing the amount of spray dried skim milk which any manufacturer thereof is required to offer to any governmental agency specified in paragraph (b) (1) under existing contracts with such agency.

(c) *Reports.* Every person to whom this order applies shall execute and file such reports and answer such questionnaires as the Agricultural Marketing Administration, United States Department of Agriculture may from time to time direct.

(d) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal in writing to the Agricultural Marketing Administration, United States Department of Agriculture, setting forth the pertinent facts and reason he considers he is entitled to relief. The Administrator, Agricultural Marketing Administration, may thereupon take such action as he deems aprpopriate.

(e) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: Department of Agriculture, Dairy and Poultry Branch, A. M. A., Washington, D. C. Ref: DA-1.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order,

PART 803—GENERAL ORDERS

[General Order 9]

SALARIES TOTALLING NOT IN EXCESS OF $5,000 PER ANNUM

§ 803.9 *General Order 9*—(a) *Jurisdiction of the National War Labor Board.* Section 4001.2 of Part 4001 "Regulations Relating to Wages and Salaries," issued on October 27, 1942,[1] by the Economic Stabilization Director and approved by the President provides in part that the National War Labor Board:

> Shall have authority to determine whether any * * * salary payments to an employee totaling in amount not in excess of $5,000 per annum where such employee:
>
> (1) In his relations with his employer is represented by a duly recognized or certified labor organization or
>
> (2) Is not employed in a bona fide executive, administrative or professional capacity, are made in contravention of the Act of Congress of October 2, 1942, or any ruling, orders or regulations promulgated thereunder.

In other words the Board has jurisdiction over the adjustment of salaries up to $5,000 a year, except for those employees employed in a bona fide executive, administrative or professional capacity who are not represented by duly recognized or certified unions.

Section 4001.6 of said regulations provides that "in the case of a salary rate of $5,000 or less per annum existing on the date of the approval of these regulations by the President" (namely, October 27, 1942) no increase shall be made without the prior approval of the Board.

The Board hereby defines what is meant by "employed in a bona fide executive, administrative or professional capacity".[2]

(1) *Executive.* The term "employed in a bona fide executive capacity" shall mean any employee:

(i) Whose primary duty consists of the management of the establishment in which he is employed or of a customarily recognized department or subdivision thereof, and

(ii) Who customarily and regularly directs the work of other employees therein, and

---

[1] 7 F.R. 8748.

[2] For the convenience of employers and employees who have been accustomed to the practices prevailing under the Fair Labor Standards Act, these definitions have been taken from the regulations promulgated by the Wage and Hour Administrator, pursuant to section 13 (a) (1) of the Fair Labor Standards Act of 1938 (52 Stat. 1060), but no provisions of that Act or of any regulations issued thereunder are in any way applicable to the regulations and orders of the National War Labor Board.

(iii) Who has the authority to hire or fire other employees or whose suggestions and recommendations as to the hiring or firing and as to the advancement and promotion or any other change of status of other employees will be given particular weight, and

(iv) Who customarily and regularly exercises discretionary powers, and

(v) Who is compensated for his services on a salary basis at not less than $30 per week (exclusive of board, lodging, or other facilities), and

(vi) Whose hours of work of the same nature as that performed by employees not employed in an executive, administrative or professional capacity do not exceed 20 percent of the number of hours worked in the workweek by the employees under his direction: *Provided*, That this subdivision (vi) shall not apply in the case of an employee who is in sole charge of an independent establishment or a physically separated branch establishment.

(2) *Administrative.* The term "employed in a bona fide administrative capacity" shall mean any employee:

(i) Who is compensated for his services on a salary or fee basis at a rate of not less than $200 per month (exclusive of board, lodging, or other facilities), and

(ii) (*a*) Who regularly and directly assists an employee employed in a bona fide executive or administrative capacity (as such terms are defined in these regulations), where such assistance is nonmanual in nature and requires the exercise of discretion and independent judgment; or (*b*) who performs under only general supervision, responsible nonmanual office or field work, directly related to management policies or general business operations, along specialized or technical lines requiring special training, experience, or knowledge, and which requires the exercise of discretion and independent judgment; or (*c*) Whose work involves the execution under only general supervision of special nonmanual assignments and tasks directly related to management policies or general business operations involving the exercise of discretion and independent judgment; or (*d*) who is engaged in transporting goods or passengers for hire and who performs, under only general supervision, responsible outside work of a specialized or technical nature requiring special training, experience, or knowledge, and whose duties require the exercise of discretion and independent judgment.

(3) *Professional.* The term "employed in a bona fide professional capacity" shall mean any employee who is:

(i) Engaged in work (*a*) predominantly intellectual and varied in character as opposed to routine metal, manual, mechanical, or physical work, and (*b*) requiring the consistent exercise of discretion and judgment in its performance, and (*c*) of such a character that the output produced or the result accomplished cannot be standardized in relation to a given period of time, and (*d*) whose hours of work of the same nature as that performed by employees not employed in an executive, administrative or professional capacity do not exceed 20 percent of the hours worked in the workweek by such employees: *Provided*, That where such non-professional work is an essential part of and necessarily incident to work of a professional nature, this subdivision (*d*) shall not apply, and (*e*) requiring knowledge of an advanced type in a field of science or learning customarily acquired by a prolonged course of specialized intellectual instruction and study, as distinguished from a general academic education and from an apprenticeship, and from training in the performance of routine mental, manual, or physical processes; or predominantly original and creative in character in a recognized field of artistic endeavor as opposed to work which can be produced by a person endowed with general manual or intellectual ability and training, and the result of which depends primarily on the invention, imagination, or talent of the employee, and

(ii) Compensated for his services on a salary or fee basis at a rate of not less than $200 per month (exclusive of board, lodging, or other facilities): *Provided*, That this subdivision (ii) shall not apply in the case of an employee who is the holder of a valid license or certificate permitting the practice of law or medicine or any of their branches and who is actually engaged in the practice thereof.

(b) *Effective date of the Board's jurisdiction.* Pursuant to § 4001.6 of the said regulations, increases in salaries which by written agreement executed on or before October 27, 1942, or by formal action communicated to the employees, on or before October 27, 1942, were made applicable to work done prior to October 27, 1942, do not come within the jurisdiction of the Board, notwithstanding such increases are first reflected in a payroll subsequent to October 27, 1942.

(c) *Salary increases which do not require Board approval.* Pursuant to § 4001.6 of the said regulations, adjustments may be made in salary rates over which the Board has jurisdiction without the approval of the Board, if they are made in accordance with the terms of a salary agreement or salary rate schedule and as a result of:

(i) Individual promotions or reclassification,

(ii) Individual merit increases within established salary rate ranges,

(iii) Operation of an established plan of salary increases based on length of service,

(iv) Increased productivity under incentive plans,

(v) Operation of a trainee system, or

(vi) Such other reasons or circumstances as may be prescribed in orders, rulings, or regulations, promulgated under the authority of these regulations.

No such adjustments in salary rates, however, shall result in any substantial increase in the level of costs or shall furnish the basis either to increase price ceilings of the commodity or service involved or to resist otherwise justifiable reductions in such price ceilings.

(d) *Exempt employers.* Pursuant to § 4001.11 of the said regulations salary adjustments made by employers who employ not more than eight individuals are exempted from the provisions of § 4001.6, 4001.7 and 4001.8 of the said regulations and may therefore be made without the approval of the National War Labor Board.

(e) *Statutory salaries and wages.* The said regulations, pursuant to § 4001.13 thereof, are not applicable to any salary or wages paid by the United States, any state or political subdivision thereof, the District of Columbia, or any agency or instrumentality of any one or more of the foregoing where the amount of such salary or wages is fixed by statute. Adjustment in such salaries or wages may therefore be made without the approval of the National War Labor Board.

(f) *Decreases in salaries of less than $5,000 over which the National War Labor Board has jurisdiction as defined in paragraph (a) of this order.* Pursuant to § 4001.7 of the said regulations, no decrease in a salary rate paid to an employee for any particular work, and over which the National War Labor Board has jurisdiction as defined in paragraph (a) of this order, may be made by the employer below the highest salary rate paid for such work between January 1, 1942, and September 15, 1942, without the prior approval of the Board. (E.O. 9250, 7 F.R. 7871)

Executive Secretary.

Section 969.1 *General Preference Order M-27* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tar acid oil, carbolates, phenols and substituted phenols for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 969.1 *General Preference Order M-27, as amended November 3, 1942*—(a) *Definitions.* For the purpose of this order:

(1) "Tar acid oil" means any coal tar, or lignite tar, distillate containing 5% or more by volume of phenols.

(3) "Phenols" means the acids, commonly known as tar acids, in either pure or crude form, comprising the following:

(i) Phenol, cresols and xylenols or any mixtures thereof, whether produced synthetically or recovered from coal tar, lignite tar, or distillates thereof, or from petroleum or petroleum distillates, or from any other source.

5

(ii) Homologues of phenol, cresols and xylenols or any mixtures thereof, when such homologues occur naturally in, or are recoverable from, coal tar, lignite tar, or distillates thereof, or from petroleum or petroleum distillates.

(iii) Mixtures of phenol, cresols and xylenols with any of their homologues when such homologues occur naturally in, or are recoverable from, coal tar, lignite tar, or distillates thereof, or from petroleum or petroleum distillates.

(4) "Substituted phenols" means para-phenyl-phenol, ortho-phenyl-phenol, butyl phenol, amyl phenol and bis phenol.

(7) "Distributor" means any person who has purchased or who purchases tar acid oil, carbolates, phenols or substituted phenols for resale.

(b) *Restrictions on use and delivery.* (1) On and after December 1, 1942, subject to the exemptions provided in paragraph (c) hereof, no producer, distributor, or importer shall use or deliver, and no person shall accept delivery of tar acid oil, carbolates, phenols or substituted phenols except as specifically authorized by the Director General for Operations upon application, pursuant to paragraph (e) hereof.

(2) During the period commencing November 3, 1942, the effective date of this amendment, and ending November 30, 1942, no person shall deliver or accept delivery of any phenols except in accordance with the provisions of General Preference Order No. M–27 as in effect prior to this amendment.

(c) *Exemptions.* (1) Paragraph (b) (1) hereof shall not apply to the use, delivery or acceptance of delivery, by any person in any one calendar month, of 55 gallons or less of tar acid oil, carbolates, phenols or substituted phenols, provided that:

The term does not include any reaction product of lignin, cashew nut shell liquid or cardinol unless enriched with another phenolic reactant.

(4) "Phenolic resin molding compound" means any combination of phenolic resin and bulk filler such as, for example, wood flour, asbestos, mica, cotton fibres, or macerated fabrics, which can be molded. Such term includes, but is not limited to, molding compound, molding board and molding blanks.

(5) "Producer" means any person engaged in the production of any phenolic resin or phenolic resin molding compound and includes any person who has any such material produced for him pursuant to toll agreement.

(b) *Restrictions on use and delivery.* (1) On and after December 1, 1942, subject to the exemptions provided for in paragraphs (c) and (d) hereof, no producer shall use or deliver any phenolic resin or any phenolic resin molding compound, and no person shall accept delivery thereof from a producer, except as specifically authorized by the Director General for Operations upon application pursuant to paragraph (f) hereof.

(2) Each person accepting delivery of any phenolic resin or any phenolic resin molding compound pursuant to specific authorization of the Director General for Operations, shall use the same only for the purposes specified in such authorization.

(3) Each person affected by this order shall comply with such directions as may be given from time to time by the Director General for Operations with respect to the use or delivery of any phenolic resin or any phenolic resin molding compound.

(c) *Small order exemptions.* The specific authorization provided for in paragraph (b) (1) hereof shall not be required with respect to the following:

(1) Use by any producer, during any one month, of fifty (50) pounds or less of phenolic resins, other than cast resins, and of phenolic resin molding compounds.

(2) Delivery by any producer to any one person, during any one month, of fifty (50) pounds or less of phenolic resins, other than cast resins, and of phenolic resin molding compounds, or the acceptance of delivery thereof by such person, subject to the following conditions:

(i) Each producer desiring to make small order deliveries of any phenolic resin or phenolic resin molding compound pursuant to this paragraph (c) (2) shall apply for authorization to make small order deliveries pursuant to paragraph (f) (2) (iv) hereof, and the aggregate amount of small order deliveries made by any producer during any month shall not exceed the amount of small order deliveries which he is specifically authorized to make.

(ii) Each person seeking delivery of any phenolic resin or phenolic resin molding compound pursuant to this paragraph (c) (2) shall file with his supplier, at the time of placing his order therefor, a certificate in substantially the following form:

> The undersigned hereby certifies that if the delivery of the phenolic resins and phenolic resin molding compounds covered by the accompanying order is made, the undersigned will not have received during the current month in excess of fifty (50) pounds of such materials.

Date: ------------- Title: -------------

The above certificate shall constitute a representation to (but shall not be filed with) the War Production Board.

(d) *General exemptions.* The specific authorization provided for in paragraph (b) (1) hereof shall not be required with respect to the following:

(1) Use of any phenolic resin or phenolic resin molding compound by any producer for the purpose of producing any other phenolic resin or phenolic resin molding compound.

(2) Intra-company deliveries of any phenolic resin or phenolic resin molding compound by any producer, or the acceptance of such delivery, for the purpose of producing any other phenolic resin or phenolic resin molding compound.

(3) Use for experimental purposes by any producer during any one month of not to exceed one 55 gallon container of phenolic resins or phenolic resin molding compounds.

(4) Delivery to, or acceptance of delivery by, any one person during any one month, for use for experimental purposes only, of not to exceed one 55 gallon container of phenolic resins or phenolic resin molding compounds: *Provided, however,* That aggregate deliveries by any producer under this paragraph (d) (4) shall not, in any month, exceed, with respect to phenolic resins, one-half of one per cent of his production of phenolic resins during the preceding month, and shall not, in any month, exceed, with respect to phenolic resin molding compounds, one-half of one per cent of his production of phenolic resin molding compounds during the preceding month.

(5) Delivery, acceptance of delivery or use of resins made from para-phenylphenol, which materials are governed by General Preference Order M-254.

(6) Delivery, acceptance of delivery, or use of any article or material made in whole or in part from any phenolic resin or phenolic resin molding compound where the phenolic resin or phenolic resin molding compound used in the manufacture of such article or material was acquired prior to the effective date of this order or was acquired from a producer, or used, pursuant to specific authorization of the Director General for Operations or pursuant to the small order exemption provided for in paragraph (c) hereof. Any person purchasing any article or material made in whole or in

part from any phenolic resin or phenolic resin molding compound shall have the right to assume, unless he knows or has reason to believe the contrary to be true, that the phenolic resin or phenolic resin molding compound used in the manufacture of such article or material was acquired prior to the effective date of this order or that the acquisition thereof was authorized by the Director General for Operations or by the small order exemption provided for in paragraph (c) hereof.

The exemption provided for in this paragraph (d) (6) shall not be construed as relieving any person from the obligation of applying, pursuant to paragraph (f) (1) (vi) hereof, for authorization to use phenolic resins or phenolic resin molding compounds, allocated to inventory or for a prospective product use which does not materialize.

(e) *Certification of consumer use.* (1) Any person seeking to purchase from the manufacturer thereof, any plywood (including shaped plywood and shaped impregnated wood), protective coating, laminate, molded product, or any of the products listed on Schedule A attached hereto, made in whole or in part from any phenolic resin or phenolic resin molding compound, shall, at the time of placing his order for such product, file with his supplier a certificate specifying the ultimate use to which such product will be put. Where such a certificate is supplied in connection with any order it shall not be necessary to file additional certificates in connection with deliveries made from time to time, in fulfillment of such order. Such certificate may be placed on the purchaser's purchase order and shall be in substantially the following form:

> The undersigned hereby certifies that the product covered by the accompanying purchase order will be used solely for the production of the products and materials listed above and that said products and materials will be used only for the purpose or purposes designated.

Date:-------------- Title:--------------

The above certificate shall constitute a representation to (but shall not be filed with) the War Production Board.

(2) The certificate provided for in paragraph (e) (1) hereof shall be sufficiently specific to enable the purchaser's supplier to indicate product use on his application for phenolic resins or phenolic resin molding compounds pursuant to paragraph (f) (1) (vi) hereof. Allocations of phenolic resins and phenolic resin molding compounds will be based on specific use of each product, and it is, therefore, essential that information with respect to product use be as precise as possible. For example, specify "Navy—torpedo boat—bulkhead" not merely "Navy", "torpedo boat" or "bulkhead". In cases where orders are made for inventory, the purchaser must indicate prospective product uses, and in the event a prospective use does not materialize, the purchaser shall not use the product made from phenolic resin or phenolic resin molding compound purchased for such use without authorization of the Director General for Operations. Applications for such authorization may be made by letter directed to the Chemicals Branch of the War Production Board, Ref. M–246, setting forth the material facts. Such letters shall be certified by the applicant in substantially the following form:

> The undersigned applicant certifies to the War Production Board that the information contained in this letter is complete and correct.

(3) No person shall, regardless of the provisions of Priorities Regulation No. 1, be required to fill any order for any product made in whole or in part from any phenolic resin or phenolic resin molding compound where the purchaser is required by this paragraph (e) to file a certificate of product use, unless and until such certificate shall have been filed with him.

(f) *Applications and reports.* In addition to such other reports as may from time to time be required by the Director General for Operations:

(1) Each producer seeking authorization to use, and each person seeking authorization to accept delivery of, any phenolic resin or phenolic resin molding compound shall apply for such authorization on Form PD–600. Such applicant shall file with the War Production Board the original and two copies of such form on or before the 18th day of the month preceding the month for which such authorization is requested and shall file two copies of such form with his supplier on or before the 18th day of such month. Form PD–600 shall be completed by the applicant in accordance with the following instructions:

(i) *General.* Except as hereinafter specifically provided to the contrary, the applicant shall supply all of the information called for by such form. Failure to comply with these instructions may result in denial of the application.

(ii) Applications for phenolic resins and phenolic resin molding compounds may be included in a single form but separate applications shall be filed for such materials by each of the following:

(*a*) Manufacturers of plywood (including shaped plywood and shaped impregnated wood).

(*b*) Manufacturers of laminates.

(*c*) Manufacturers of protective coatings.

(*d*) Manufacturers of molded products.

(*e*) Schedule A specialty manufacturers.

(*f*) Specialty manufacturers.

The term "Schedule A specialty manufacturer" shall be taken to include all persons engaged in the manufacture of products listed on Schedule A. The term "specialty manufacturer" shall be taken to include all persons engaged in the manufacture of any product other than plywood (including shaped plywood and shaped impregnated wood), laminates, protective coatings, molded products and products listed on Schedule A.

Each applicant shall, immediately following his name, specify the nature of his business, that is, plywood manufacturer, laminator, molder, protective coating manufacturer, Schedule A specialty manufacturer or specialty manufacturer.

(iii) *Heading.* Specify "Phenolic Resins and Phenolic Resin Molding Compounds" and order number "M–246" and specify pounds (net) as the unit of measure, and in addition to specifying the delivery destination, indicate the address to which communications should be directed.

(iv) *Column 1.* Specify supplier's trade name, number or such other identification as may be required to indicate the type and make-up of each phenolic resin and each phenolic resin molding compound.

(v) *Column 3.* In the case of a laminator, specify sheets, rods, tubes and molded shapes.

In the case of a plywood (including shaped plywood and shaped impregnated wood) manufacturer, specify plywood.

In the case of a manufacturer of protective coatings, specify protective coatings.

In the case of a manufacturer of molded products, describe the product to be produced and identify by giving its function. For example, specify "aircraft-radio condenser" not merely "aircraft", "radio" or "condenser".

In the case of a Schedule A specialty manufacturer, specify the number of the product as shown on Schedule A.

In the case of a specialty manufacturer, describe the product to be produced and identify by giving its function. For example, specify "brake lining" not "friction material".

In all cases where orders are made for inventory, specify inventory.

(vi) *Column 4.* In the case of a plywood manufacturer, a laminator, a manufacturer of protective coatings, a manufacturer of molded products and a Schedule A specialty manufacturer, specify the product or material and product use certified by the applicant's customer in accordance with paragraph (e) hereof. The applicant shall be entitled to rely on the information given in such certificate unless he knows or has reason to believe it to be false. Applicants other than those listed above in this paragraph (f) (1) (vi) may leave column 4 blank.

Similar product uses may be grouped where it is possible to do so without sacrificing clarity.

In cases where orders are made for inventory, the applicant shall specify either prospective product uses or "Subject to further authorization". Where "Subject to further authorization" is specified or where a prospective product use does not materialize, the applicant shall not use the phenolic resin or phenolic resin molding compound allocated for inventory or for such product use without authorization of the Director General for Operations. Applications for such authorization shall be made on Form PD–600 and may be filed at any time. In such cases the applicant shall file with the War Production Board the original and two copies of such form prepared in the manner therein and herein specified except that Tables II, III and IV may be left blank. It shall not be necessary to file copies of such form with the applicant's supplier.

An applicant who has been allocated phenolic resin or phenolic resin molding compound for the manufacture of a specified product shall have the right, prior to receipt of such allocated material, to use material from inventory for the manufacture of such product: *Provided, however,* That the amount of such material so used shall be restored upon receipt of the material acquired pursuant to allocation for the manufacture of such product.

(vii) *Columns 5, 6, 7 and 8.* Leave blank.

(viii) *Columns 11 and 19.* In lieu of listing the grades of phenolic resins and phenolic resin molding compounds on hand, the applicant may group all phenolic resins as a single item and all phenolic resin molding compounds as a single item.

(ix) *Tables I, II and III.* These tables may be extended on the reverse side of the form.

(x) *Table IV.* Leave blank.

(2) Each producer seeking authorization to deliver any phenolic resin or any phenolic resin molding compound pursuant to paragraph (b) (1) hereof, shall apply for such authorization on Form PD–601. Such applicant shall file with the War Production Board the original and two copies of such form on or before the 23rd day of the month preceding the month for which such authorization is requested together with one copy of each Form PD–600 filed with him by his customers pursuant to paragraph (f) (1) hereof. Form PD–601 shall be completed by the applicant in accordance with the following instructions:

(i) *General.* Except as hereinafter specifically provided to the contrary, the applicant shall supply all of the information called for by such form. Failure to comply with these instructions may result in denial of the application.

(ii) Applications covering phenolic resins and phenolic resin molding compounds may be included in a single form but separate applications shall be filed for each of the classes of customers specified in paragraph (f) (1) (ii) hereof.

(iii) *Heading.* Specify "Phenolic Resins and Phenolic Resin Molding Compounds" and order number "M–246" and specify pounds (net) as the unit of measure, and in addition to giving the plant or warehouse address, indicate the address to which communications should be sent.

(iv) *Column 1.* If authorization to make small order deliveries pursuant to paragraph (c) (2) (i) hereof is requested, insert "Aggregate small order deliveries" in column 1 after completing the list of customers requiring in excess of fifty (50) pounds of phenolic resins or phenolic resin molding compounds, and specify in column 4 the aggregate amount of small order deliveries requested to be authorized.

(v) *Column 3.* In lieu of listing the grades of phenolic resins and phenolic resin molding compounds ordered by each customer the applicant may group, with respect to each customer, all phenolic resins as a single item and all phenolic resin molding compounds as a single item.

(vi) *Column 7.* Specify the capacity or capacities of the applicant's standard container or containers which the applicant proposes to use in making shipment. Where the applicant applies for authorization to make a delivery to himself, the applicant shall specify the standard batch size necessary to fill his requirements.

(vii) *Column 8.* Specify applicant's trade name, number or such other identification as may be required to indicate the type and make-up of each phenolic resin and each phenolic resin molding compound.

(3) Interim applications for authorization to deliver or accept delivery of phenolic resins or phenolic resin molding compounds will be considered only in exceptional cases.

(g) *Notification of customers.* Each producer shall, as soon as practicable, notify each of his regular customers of the requirements of this order, but failure to give such notice shall not excuse any such person from complying with the terms hereof.

(h) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C. Ref: M–246.

PART 1358—TOBACCOS

[MPR 260]

CIGARS

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of cigars by a specific maximum price regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 260 are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended and Executive Order No. 9250. So far as practical, the Price Administrator has advised and consulted with members of the industry which will be affected by this regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended and Executive Order No. 9250 and in accordance with Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 260 is hereby issued.

Sec.
1358.101 Prohibition against sales of cigars above maximum prices.
1358.102 Maximum prices for cigars.
1358.103 Maximum prices set under this regulation cannot be changed.
1358.104 Less than maximum price.
1358.105 Applicability of the General Maximum Price Regulation.

A, he shall determine his maximum list price for such class of cigars in the manner set forth in subparagraphs (2), (3) and (4) of paragraph (b) of this section.

(3) To determine his maximum net selling price for any particular class of cigars, each manufacturer shall deduct from his maximum list price for such class of cigars, his March, 1942 customary discounts and allowances to the particular class of purchasers in question.

(4) The prices set forth in Appendix A hereof are based upon packings of fifty cigars to the individual container. All price differentials in packings allowed in March, 1942 shall not be reduced. All price differentials in packings charged shall not be in excess of such differentials of March, 1942.

(5) Any manufacturer whose March, 1942 list price for any particular class of cigars was a net selling price, subject only to a discount for cash, shall determine his maximum net selling price with respect thereto in the following manner: (i) Divide his March, 1942 net selling price by the list price indicated in Column 2 of Appendix A for such particular price class of cigars, and (ii) multiply the resulting figures by the list price set forth in Column 4 of Appendix A for such particular price class of cigars. Such latter figure shall be the manufacturer's maximum net selling price for such particular price class of cigars.

(b) *Maximum prices for classes other than those set forth in Column 1 of Appendix A.* For all price classes of cigars for which no March, 1942 stated retail price is indicated in Column 1 of Appendix A hereof, the maximum retail price and the maximum list price for such particular price class shall be determined as follows:

(1) Add to the March, 1942 stated retail individual unit price or to the stated retail multiple unit price, as the case may be, 20 per centum thereof to determine the maximum retail price for such single unit price or multiple unit price respectively.

(2) (i) In the case of individual unit prices, multiply such maximum retail price by 1000 to determine the maximum retail price per thousand cigars of such class.

(ii) In th case of multiple unit prices, divide the number of unit items within such multiple unit into 1000, and multiply the resulting figure by the maximum retail price to determine the maximum retail price per thousand cigars of such class.

(3) If the maximum retail price per thousand, determined at (2) hereof, is less than $90, subtract 20 per centum of such amount to determine the maximum manufacturer's and wholesaler's list price per thousand cigars of such class, or

(4) If the maximum retail price per thousand determined at (2) is $90 or more, subtract 25 per centum of such amount to determine the maximum manufacturer's and wholesaler's list price per thousand cigars of such class.

(5) To determine his maximum net selling price for any particular class of cigars, each manufacturer and wholesaler shall deduct from his maximum list price for such class of cigars, his March, 1942 customary discounts and allowances to the particular class of purchasers.

(6) The maximum prices determined at subparagraph (5) of this paragraph (b) are based upon packings of fifty cigars to the individual container. All price differentials in packings allowed in March, 1942 shall not be reduced. All price differentials in packings charged shall not be in excess of such differentials of March, 1942.

(c) *Wholesalers' maximum prices.* (1) Upon receipt of notification pursuant to § 1358.113 hereof of an adjustment of the stated retail or list prices for any particular March 1942 stated retail price class of cigars, the wholesaler may adjust his maximum list price for such price class of cigars to an amount not in excess of such manufacturer's maximum list price. With reference to his floor-stocks of such particular class of cigars on the date of receipt of such notification, he shall state in plainly visible numerals upon each box or container of such cigars the exact adjusted maximum retail price for each such class of cigars.

(2) Where any manufacturer elects to retain the March, 1942 stated retail price with respect to any particular class of cigars, the wholesaler's maximum list price shall not be in excess of such manufacturer's maximum list price therefor, or the March 1942 list price therefor set forth in Column 2 of Appendix A, whichever is lower.

(3) To determine his maximum net selling price for any particular price class of cigars, each wholesaler shall deduct from maximum list price for such class of cigars, as determined in subparagraphs (1) and (2) hereof, his March 1942 customary discounts and allowances to the particular class of purchasers in question.

(4) All price differentials in packings allowed in March. 1942 shall not be reduced. All price differentials in packings charged shall not be in excess of such differentials of March 1942.

(d) *Retailers' maximum prices.* (1) Upon receipt of notification pursuant to § 1358.113 hereof from the manufacturer or wholesaler of an adjustment of the maximum retail price for any particular class of cigars, the retailer may adjust the maximum price for such particular class of cigars to a maximum retail price only in accordance with such notification. Such notification shall be applicable to floor-stocks.

(2) Where any manufacturer elects to retain the March 1942 stated retail price with respect to any particular class of cigars, such stated retail price shall be the retailer's maximum price therefor, as set forth in Column 1 of Appendix A.

(e) *Maximum prices for new brands of cigars.* Any manufacturer who desires to manufacture and sell a new brand of cigars may make application to the Office of Price Administration, Washington, D. Paragraphs (a) (3) and (b) (3), and the *Exceptions* following paragraphs (a) (3) and (b) (3) in § 1389.103; the *Exceptions* following paragraphs (a) (3) and (b) (2) in § 1389.104; paragraphs (b) (1) and (b) (2) in § 1389.115, and paragraphs (c) (1) and (c) (2) in § 1389.116 are amended; a new paragraph (a) (4) in § 1389.103 and a new § 1389.124 are added, as set forth below:

§ 1389.103 *Maximum prices for sales at retail of ready-made garments.* * * *

(a) *For garments other than outer coats.* * * *

(3) *In those cases in which neither the seller nor any closely competitive seller of the same class dealt in the same or similar garments during March 1942.* A maximum price in line with the level of maximum prices established by this Maximum Price Regulation No. 177. This shall be determined by:

(i) Selecting from the same classification and nearest price range that garment, priced under paragraph (a) (1) of this section, of which the seller delivered the largest number of units during March 1942;

(ii) Dividing the maximum price for that garment by the replacement cost of that garment, and

(iii) Multiplying the percentage so obtained by the replacement cost of the garment being priced under this subparagraph (3).

Within ten days after determining a maximum price under this subparagraph (3), the seller shall report it to the appropriate field office of the Office of Price Administration on a form prescribed for that purpose. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(4) *Increases permitted in cases where the seller is in certain geographic areas.* The maximum price established under paragraph (a) (1) for a garment not of tropical weight may be increased by not more than 10%, if:

(i) The maximum price is not higher than the highest price charged by the seller during October 1941 for the same garment, or, if none, for the similar garment most nearly like it; and

(ii) The net replacement cost of the garment is at least 10% higher than the actual net cost of the same or similar garment dealt in during October 1941; and

(iii) The seller is in a geographic area where, due to climatic conditions, the customary volume of March sales of garments not of tropical weight is substantially lower than the average monthly volume of sales of these garments during October, November and December.

A seller who increases his maximum price under this subparagraph (4) must fill out the details required by the form in Appendix D, (§ 1389.124) and file this information within 10 days after the price has been increased with the appropriate regional office of the Office of Price Administration. The increase in price taken under this subparagraph (4) shall be subject to modification or revocation at any time by the Office of Price Administration.

Except: That no maximum price determined under paragraph (a) shall exceed the seller's highest maximum price for a garment of the same classification, the same as or similar to a garment which he dealt in during the base period.

(b) *For outer coats.* * * *

(3) *In those cases in which neither the seller nor any closely competitive seller of the same class dealt in the same or similar garments during September, October and November, 1941.* A maximum price in line with the level of maximum prices established by this Maximum Price Regulation No. 177. This shall be determined by:

(i) Selecting from the same classification and nearest price range that garment priced under paragraph (b) (1) of this section of which the seller delivered the largest number of units during September, October and November, 1941;

(ii) Dividing the maximum price of that garment by the replacement cost of that garment; and

(iii) Multiplying the percentage so obtained by the replacement cost of the garment being priced under this subparagraph (3).

Within ten days after determining the maximum price under this subparagraph (3) the seller shall report it to the appropriate field office of the Office of Price Administration on a form prescribed for that purpose. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

CHROME ORES

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for sales of chrome ores by a specific maximum price regulation. The Price Administrator has ascertained and given due consideration to the prices of chrome ores prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industries which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generaly fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been prepared, issued simultaneously herewith, and has been filed with the Division of the Federal Register.*

AUTHORITY: §§ 1405.101 to 1405.115, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1405.101 *Prohibition against dealing in chrome ores at prices above the maximum.* On and after November 9, 1942, regardless of any contract, agreement, lease or other obligation, no person, except as provided in §§ 1405.104 and 1405.105, shall sell, offer to sell, deliver or transfer chrome ores, and no person shall buy or receive chrome ores, at higher prices than the maximum prices set forth in Appendices A and B hereof, incorporated herein as §§ 1405.114 and 1405.115; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Maximum Price Regulation No. 258 shall not apply to the sale or delivery of chrome ores if prior to November 9, 1942, such ores had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The Administrator will entertain no petition or application for amendment, adjustment, exception or other relief from the maximum prices established for any product of chrome ore, to the extent that such petition or application is based, directly or indirectly, on delivered costs of chrome ores, purchased by the petitioner or applicant pursuant to paragraph (a) of this § 1405.105, which are in excess of what the delivered costs would have been if the petitioner or applicant had purchased ores of equivalent grade for which maximum prices are established by the Maximum Price Regulation No. 258.

Compute labor cost and factory burden on the basis of March 31, 1942, labor cost and factory burden of standard keg in same number and type of staves taking additional care, efficiency and finish into account. To adjusted unit production cost thus established, add profit computed by multiplying said adjusted unit production cost by normal percentage of

profit for year 1941. Compute such normal percentage of profit by dividing 1941 gross profit before sales and administrative expenses by total production cost of barrels sold during 1941. To price thus determined add delivery charges to arrive at sales price.

(b) Within 10 days after determining a maximum price under this order, Pioneer Cooperage Company shall report such price to the Lumber Branch of the Office of Price Administration in Washington, D. C. Such report shall also set forth (1) a detailed description of the commodity for which the price is determined, (2) a statement that the maximum price reported was determined in accordance with the formula set forth in paragraph (a) of this order and a detailed explanation of the application of such formula in determining the maximum price for such commodity. The maximum price so reported shall be subject to adjustment at any time by the Price Administrator.

(c) This Order No. 122 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 122 (§ 1499.986) shall become effective November 4, 1942.

Pursuant to the notice a hearing upon the charges was held on September 11, 1942, in Baltimore, Maryland. There appeared a representative of the Office of Price Administration and the respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator, it is hereby determined that:

(a) On the 29th day of April, 1942, respondents registered for Roy's Milk Bar, an industrial user of sugar, located at 1600 Jackson Street, Baltimore, Maryland, and filed OPA Form R–310 with local Rationing Board No. 4, Baltimore County, Maryland;

(b) Respondents have violated § 1407.83 of Rationing Order No. 3, Sugar Rationing Regulations in that on said OPA Form R–310 respondents declared that the quantity of sugar used by them in the production of bottle beverages, flavoring extracts, and syrups was 4,000 pounds per month for the months of May, June, July, August and September of 1941, whereas the quantity of sugar in fact used by respondents for such purposes during each of those months was a much smaller amount;

(c) By reason of the false statements made by them on OPA Form R–310 respondents subsequently received allotments of sugar upon their applications for the months of May, June, July and August, 1942, in amounts in excess of those to which they were entitled under Rationing Order No. 3, Sugar Rationing Regulations.

Because of the great scarcity of sugar in the United States the violations of Rationing Order No. 3, Sugar Rationing Regulations resulted in the diversion of sugar from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national defense. It appears to the Deputy Administrator that further violations of Rationing Order No. 3, Sugar Rationing Regulations by respondents are likely unless appropriate administrative action is taken;

It is therefore ordered:

(d) The registration of Roy's Milk Bar as an industrial user of sugar made by respondents on the 29th of April, 1942, together with OPA Form R–310 filed by respondents in connection therewith, is hereby cancelled and all allotments of sugar based on such registration or form are hereby revoked.

(e) Upon cancellation and revocation of respondents' registration and allot-

ments as aforesaid, respondents shall be entitled to register anew for Roy's Milk Bar as an industrial user of sugar. Such registration shall be made by petition on OPA Form R-315 and in accordance with the provisions of § 1407.163 of Rationing Order No. 3, Sugar Rationing Regulations. Such petition on OPA Form R-315 shall be deemed filed as of April 28, 1942, and respondents shall be entitled to allotments in the appropriate amounts for all periods since that date but future allotments shall be adjusted by deducting therefrom the excess amounts of sugar heretofore obtained by respondents by reason of their original improper registration and allotments based thereon.

(f) Any terms used in this Suspension Order that are defined in Rationing Order No. 3, Sugar Rationing Regulations, shall have the meaning therein given them.

[Suspension Order 153]

GEORGE KALASHIAN AND JERE A. LEARY

ORDER RESTRICTING TRANSACTIONS

George Kalashian and Jere A. Leary, doing business as Kalashian and Leary, 2 Kent Street, Newburyport, Massachusetts, hereinafter called respondents were duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing upon the charges was held on September 25, 1942, in Boston, Massachusetts. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator, it is hereby determined that:

(a) On July 22, 1942, respondents were both dealers in and intermediate distributors of gasoline having their place of business in Newburyport, Massachusetts.

(b) Respondents have violated § 1394.1601 of Ration Order No. 5A, Gasoline Rationing Regulations in that on July 23, 1942, in their registration with War Price and Rationing Board No. 24, Newburyport, Massachusetts, on OPA Form R-545 they registered their total gasoline storage capacity as 22,000 gallons and their total inventory of gasoline on hand as of their first opening of business on July 22, 1942, as 3,610 gallons; whereas the total capacity of respondents' gasoline storage facilities was in fact 21,270 gallons and their total inventory of gasoline was in fact 11,132 gallons.

(c) Respondents have violated § 1394.1601 of Ration Order No. 5A, Gasoline Rationing Regulations in that on July 27, 1942, in an amended registration with War Price and Rationing Board No. 24, Newburyport, Massachusetts, respondents registered their total inventory of gasoline on hand as of their first opening of business on July 22, 1942, as 10,368 gallons, whereas such total inventory of gasoline was in fact 11,132 gallons.

The violations of Ration Order No. 5A, Gasoline Rationing Regulations by respondents have interfered with the effective administration and enforcement of Ration Order No. 5A, Gasoline Rationing Regulations, which have been prescribed in the public interest and to promote the national defense. It appears to the Deputy Administrator that further violations of Ration Order No. 5A, Gasoline Rationing Regulations by respondents are likely unless appropriate administrative action is taken.

It is therefore ordered, That:

(d) During the period in which this suspension order shall be in effect:

(1) Respondents shall not sell, transfer or deliver any gasoline to any person.

(2) Respondents shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondents.

(e) Within three days after the effective date of this order, respondents appear before War Price and Rationing Board No. 24, Newburyport, Massachusetts, and correct the registration made on July 27, 1942, and surrender to said Board gasoline rationing coupons for 764 gallons of gasoline.

(f) Any terms used in this Suspension Order No. 153 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(g) This suspension order shall become effective 12:01 A. M. November 9, 1942, and unless sooner terminated, shall expire 12:01 A. M. January 8, 1943.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Law 89, 77th Cong.; E.O. 9125, 7 F.R. 2719; W.P.B. Dir. 1 and Supp. Dir. 1H, 7 F.R. 3378, 3877, 5216)

C. Boggess in District No. 3.

Original petitions, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named parties, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 3 and for a change in shipping point for the coals of the Tetrick Mine of H. It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matters; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That the above-entitled matters are herein consolidated.

It is further ordered, That, pending final disposition of the above-entitled matters, temporary relief is granted as follows: Commencing forthwith, § 323.6 (*Alphabetical list of code members*) is amended by adding thereto Supplement R-I and R-IV, and § 323.8 (*Special prices*—(b) *Railroad fuel prices for all movements except via lakes*) is amended by adding thereto Supplement R-II and R-V, § 323.8 (*Special Prices*—(c) *Railroad fuel prices for movement via all lakes—all ports*) is amended by adding thereto Supplement R-III and R-VI, and § 323.23 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof; and commencing forthwith, the shipping point appearing in the aforesaid Supplement R-IV for Mine Index No. 248 shall be effective in place of the shipping point heretofore established for this mine.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the Schedules attached are based upon the price classifications and minimum prices in effect on October 1, 1942 for comparable and analogous coals and already reflect the changes, if any, made in minimum prices by the Acting Director's Order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached Schedules do not differ, except in this regard, from the minimum prices proposed by petitioners.

Price classifications and minimum prices have not been established for the coals of the Daugherty mine of O. F. Daugherty or for the Beech mine of John A. Smith, for truck shipments, as requested by District Board No. 3, for the reason that these mines have been classified previously for truck shipments in Docket No. A-1605, 7 F.R. 7163.

[Docket No. A-1608]

PART 343—MINIMUM PRICE SCHEDULE, DISTRICT NO. 23

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 23 for the establishment of price classifications and minimum prices for the coals of the Waldo Hills Mine.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Waldo Hills Mine (Mine Index No. 172) of code member Faris & Krehbiel (Frank Faris); and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 343.3 (*Identification of subdistricts*) is amended by adding thereto Supplement R–I, § 343.4 (*Code member price index*) is amended by adding thereto Supplement R–II, § 343.5 (*General prices; minimum prices for shipment via rail transportation*) is amended by adding thereto Supplement R–III, and § 343.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall be otherwise ordered.

The original petition in this matter requests that the Waldo Hills Mine (Mine Index No. 172) be included in Subdistrict "C" of District No. 23 for the reason that the coals of this mine are comparable and analogous to the coals produced in that subdistrict. However, in view of the fact that this mine is located in Marion County, Oregon, and Subdistrict "C" is described in the Schedule of Effective Minimum Prices for District No. 23 For All Shipments as "Southwest Washington—State of Washington," it is deemed advisable, pending final disposition of this matter, to temporarily establish an additional subdistrict in the State of Oregon and include therein all coals produced in Marion and Clackamas Counties, Oregon. Accordingly, the Waldo Hills Mine (Mine Index No. 172) is shown in the attached schedule marked Supplement R–I, R–II, R–III and Supplement T to be located in Subdistrict "L" described as "Marion and Clackamas Counties, Oregon."

The original petition in this matter states that the coals of the Waldo Hills Mine will originate for rail shipment at Pratum, Oregon, upon the Northern Pacific Railway. However, the records of the Division disclose that Pratum, Oregon, is served only by the Southern Pacific Company. Accordingly, the price classifications and minimum prices set forth in the attached schedule marked Supplement R–I, R–II, R–III and Supplement T, for shipments via rail, apply to the coals of the Waldo Hills Mine (Mine Index No. 172) only when such coals originate for rail shipment upon the Southern Pacific Company at Pratum, Oregon.

The price classifications and minimum prices set forth in the attached schedule marked Supplement R–I, R–II, R–III and Supplement T are based upon the price classifications and minimum prices in effect on October 1, 1942 for comparable and analogous coals and reflect the changes, if any, made in minimum prices by the Acting Director's Order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached schedule do not differ, except in this regard, from the minimum prices proposed by petitioner.

Dated: October 17, 1942.

Director.

(d) *Exemption for Army-Navy-Maritime orders.* (1) The provisions of paragraph (b) with respect to items on List A with governing dates shall not apply to Army-Navy-Maritime orders for such items, or any parts thereof, for a period of 60 days after the applicable governing date. From and after the expiration of the applicable exemption period, no person shall deliver, accept delivery of, put into process, process or assemble any iron or steel for the making of any item on List A, or part thereof, unless such item or part is on List C. The provisions of paragraph (b) shall not apply to Army-Navy-Maritime orders for any item on List C, or part thereof, except that stainless steel shall not be used to make such item and parts, unless permitted by paragraph (d) (3).

(2) The provisions of paragraph (c) shall not apply to Army-Navy-Maritime orders for any item on List S, or part thereof, for a period of 60 days after its governing date. (3) Except as otherwise specified on List C as to any item, or part thereof, stainless steel may be used to make any item on List C, or part thereof, for Army-Navy-Maritime orders until December 31, 1942. Except as provided in paragraph (d) (4), on and after December 31, 1942, no person shall use any stainless steel to make any item on List C, or part thereof, unless, and then only to the extent that, the use of stainless steel is expressly permitted for such item.

(4) Where the use of stainless steel or a type of stainless steel in the making of any item on List C, or part thereof, for Army-Navy-Maritime orders is prohibited by the provisions of this order, and the person making any such item or part is unable to secure permitted materials, a further exemption period is hereby granted for the minimum period of time necessary to obtain such permitted materials, but in no event later than April 30, 1943.

(e) *Restrictions with respect to other products*—(1) *Roofing and siding.* No person shall manufacture any iron or steel into roofing and siding except:

(i) For delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission, The War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development; or

(ii) For delivery on a preference rating of AA-5 or higher assigned by a PD-3A preference rating certificate or by a preference rating order in the P-19 series; or

(iii) For defense housing, to the extent specified in the Defense Housing Critical List; or

(iv) For the manufacture, maintenance and repair of railroad freight cars, street cars, or busses; or

(v) For deliveries on preference ratings assigned by the Board of Economic Warfare or for deliveries on Lend-Lease orders; or

(vi) For delivery to an ultimate purchaser for maintenance and repair purposes regardless of rating. With respect to this paragraph (e) (1) (vi), no person may manufacture from May 5, 1942 to December 31, 1942, more than 20 percent of the roofing and siding made by him from iron or steel during the calendar year 1940; or in the calendar year 1943 or any subsequent calendar year, more than 25 percent of the roofing and siding made by him from iron or steel, during the calendar year 1940.

Any person manufacturing or selling any such roofing or siding may rely on the certificate of his customer that such roofing or siding will only be sold or used as permitted by this paragraph (e) (1).

(2) *Other products.* No person shall use any iron or steel to make any article not prohibited on List A, or any part thereof, where and to the extent that the use of other material (excluding material on List D) is practicable. Alloy steel shall not be used when the use of carbon steel is practicable, and no more iron or steel shall be used in connection with the manufacture of any such article than is essential. The provisions of this paragraph (e) (2) shall not apply in the case of articles or parts to be purchased by or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, or to be physically incorporated into products to be so purchased to the extent that the use of iron or steel is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration applicable to the contract, subcontract or purchase order.

(f) *Restrictions with respect to other scarce materials.* No person whose use of iron or steel is restricted by paragraphs (b), (d) or (e) shall use as a substitute therefor any material on List D.

(g) *Disposition of frozen and excessive inventories.* The disposition of frozen and excessive inventories containing iron or steel shall be subject to the applicable provisions of Priorities Regulation No. 13 (§ 944.34).

(h) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply whether the items are ordered or manufactured pursuant to a contract made prior to, on, or subsequent to May 5, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of any material in the production of any item, the limitations of such order shall be observed.

(4) *Intra-company deliveries.* The restrictions of this order with respect to deliveries prohibit or restrict deliveries not only to other persons, including affiliates or subsidiaries, but also from one branch, division, or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(6) *Installation.* The restrictions of this order with respect to putting into process, processing, and assembling shall not apply to the installation of an item or part for the ultimate consumer on his premises when any putting into process, processing or assembling of such item or part is incidental to such installation and is done on such premises.

(7) *Repair.* The restrictions of this order (other than those contained in paragraph (e) (2)) shall not apply to a person repairing a used article on or off the premises of the owner, if the person making the repair does not use iron or steel weighing in the aggregate more than 25 pounds and if any putting into process, processing or assembling done by such person is for the purpose of making the specific repair. The limitations in this paragraph (h) (7) on repairing a used article shall not apply to any item on List A or List S, or part thereof, to the extent that maintenance and repair of such item is specifically excepted on List A or List S.

Issued this 5th day of November, 1942.
